

# LAW OF ATTRACTION WORKSHOP

June 21, 2025

Rev. Thomas Janssen

I borrowed the title from Abraham-Hicks after deep diving that information which both confirmed and better explained the inspirations I have been getting these past years. I have been long aware of Abraham-Hicks material and found it inspiring but had never actually explored it deeply until this year. This workshop will borrow from that material at times and I encourage your own deep dive of *The Law Of Attraction* by Abraham-Hicks.

The statements that follow are not the workshop, but any or all of these concepts may be presented. There is direct guidance in my workshops that I will respect and follow. Please use anything that you find useful in this document to enhance your own spiritual journey.

**SPIRITUALITY**-My definition of spirituality is your personal experience with Source. For many the path begins with your choice of religion. For some there is no step two beyond this. For others questions arise that are not satisfactorily answered by that religion's teachings. Those seeking better answers are on the path to spirituality. Ultimately you want a connection with the Divine to guide you to the answers you seek. [see Inspirational Quotes on page 3]

**STREAMS OF CONSCIOUSNESS**-I have long had the view of higher and higher levels of consciousness flowing like a wind current that when tapped provides similar understandings to all who do. I believe it happens by vibrational alignment, similar to handheld radios on the same channel. It has been validating for me when approached after a talk or seminar by someone asking if I had read a particular book that described the same things. Most times my answer is "no."

**SOURCE**-The Source of all that is (aka: God, Creator, Infinite Intelligence, All-That-Is, the All, Mind). Source exists independent of the creation. Creation is Source manifested. Everything is Source. You and I are Source manifested, limited in awareness but still Source. This explains statements like, "God is one," "we are one" and "everything is connected." An aquarium filled with sea water, coral, crabs, fish and other sea creatures can be a beautiful representation of an ocean. It has all the components of the ocean but not the power. To participate in the vast power of an ocean everything in the aquarium must rejoin the ocean. The more closely our vibration is aligned with Source the more effective we are in manifesting our desires. Our purpose is to awaken from the amnesia that limits us and expand our awareness.

**RELIGION**-Religious practice is not to be confused with spirituality. I define spirituality as a personal connection with Source. The religion you choose to identify with is one decision and your decision to be spiritual is a second decision. Your religious practice is a stepping stone to spirituality and it is a stumbling block. The best religious practice is one that encourages spiritual growth beyond what they teach. Most religions do not encourage and most often forbid practice outside of what they teach, often citing the pitfalls of being fooled by Satan. This is where belief in Heaven and Hell, fallen Angels and the Devil are helpful guardrails. Guardrails that keep you from discovering a higher truth.

SEPARATION-If Source is all that is then separation is a simple test for any teaching. Apply this test to any teaching to identify that which is false or at least incomplete. Anything that establishes an Us and Them will take you in the wrong direction and is fear based, not love based. Without an Us and Them there can be no wars, there can be no Devil, there can be no Hell, there can be no hungry person.

SEPARATION IS REQUIRED FOR,,,

- ...God to be a person
- ...Heaven and Hell to be places
- ...Satan, Devil and Demons to exist
- ...Evil as an enemy

EVIL-Evil is not out of favor with or the enemy of God, as we have been long taught. Evil is an outcome when our creative powers are used from an *Us and Them* perspective. The tools of creativity are not less for doing *Bad* than for doing *Good*. Electricity is not *Good* or *Bad* yet it is used for both outcomes. Humans have the capacity to connect outcomes with actions thereby are responsible for outcomes, *good* or *bad*. Evil is not a force it is an outcome.

SOURCE IS NEUTRAL-Source is energy (the best term we have) and physical creation is focused energy at various vibrations. Awareness grows with the complexity of a creation. Good and Bad are human constructs and best when confined to evaluating outcomes than when used in judgment of intention or inherent qualities. Humans are a very complex creation and have a level of awareness capable of learning from outcomes to expand even more. We have a potentially limitless ability to influence the unfolding of creation-to determine what's next.

SPIRITS-Spirits too are not Good or Bad, but vary in awareness. Much like humans giving advice some is more useful than others, but it's misleading to label it Good or Bad. It is natural to be impressed with the idea and process of communicating with Spirit but guard against overvaluing the experience (i.e.- putting it on a pedestal). It is a stepping stone and can become a stumbling block to Spiritual Growth.

JUDGEMENT: Letting go of judgment is a tough one. It's hard for us to do. It seems so natural and so necessary. Discernment is often confused with judgment. Discernment is observation without judgment. Discernment is a tool we use to make better choices. I can observe what you do and witness the outcome but choose not to follow in your footsteps without judging you for the outcome. Knowing that it is a predictable outcome, I can make an informed choice. **This is a big stumbling block** that we each must get past to both see and accept that **there is but one Source and that we are all one.**

## INSPIRATIONAL QUOTES

### MANIFESTATION

*"The Universe does not know if the vibration you are offering is because of what you are imagining, or because of what you are observing. In either case, it is responding. Emotion is your guidance or your response to your vibration. Your emotion does not create. Emotion is your indicator of what you are already creating. As you think, you vibrate. And it is your vibrational offering that equals your point of attraction. So, what you are thinking and what is coming back to you is always a vibrational match. The emotion (your Guidance System) is telling you what's coming "* Abraham-Hicks

### ETERNAL BEING

*"We are not human beings having a spiritual experience; we are spiritual beings having a human experience."* Pierre Teilhard de Chardin

*"You are an eternal being who is becoming as a result of all that you have lived."* Abraham-Hicks

*"I AM the Creator, experiencing the creation, as the created."*

September 2004 while hiking in Grand Canyon, Rev. Thomas Janssen

*"In the moment that feels the slightest bit, less-than you ask for the more-than. ...the contrast of this time-space reality causes you in a very specific way to constantly give birth to new...desires. And the Source within you rides that new rocket of your new preference and joyously feels the expansion that you have provided through your willingness to sift through life experience and becomes the vibrational equivalent of your new idea."* Abraham-Hicks

*""* Abraham-Hicks

*"You are not IN the universe, you ARE the universe, an intrinsic part of it. Ultimately you are not a person, but a focal point where the universe is becoming conscious of itself. What an amazing miracle."* Eckhart Tolle
