

Collaborating with The Universe: Getting Your Prayers Answered

Universe always answers our prayers, always gives us what we want... if we ask for it. This means that what we get is what we ask for, and this law has no exceptions.

Most of the times we think that what we get is not what we want or what we asked for and for this there are two possible reasons:

*The first one is that we ask for what we get in a more powerful way and it is not possible for the Universe to grant us both wishes.

For example, if one thinks that he or she wants to get rich, but all the time he or she thinks of their poor situation, small salary, and many financial obligations, then they ask for poverty in a more intent, and therefore more powerful, way than for riches, and it is impossible for the Universe to grant both wishes, so the universe chooses to grant the one they ask more powerfully.

*The second most common reason is that we don't make it clear, so our energy as well as the universal one scatters.

Here is a simple way to make your wish clear to the Universe, and work with it to have your wish come true.

Pick one thing you want to accomplish in your life. Choose something that you believe you can accomplish and that you really want to. If you don't believe you can have what you wish, you won't.

If you don't really want something you will not be motivated to act according to what your heart desires. So choose something simple and pleasant. As you are becoming more familiar with this method you can achieve things that you couldn't even imagine.

Now, write down on a piece of paper what is this that you want to receive. Write it with as many details as you can. Even put a photograph of it, if you have one. Write it in a manner like "I am getting a..." and not in a way like "I would like to have a...". Now, write down everything YOU CAN and YOU WANT to do to receive what you are asking for.

Most people think there is nothing to do, or keep thinking of what they cannot do.

There is always something you CAN do.

No matter how insignificant it seems. Doing it, it will help your wish to be granted. Maybe you want to buy a new car. And maybe the only thing you think you can do for it is to put one dollar in a piggy bank each day. Well, this is enough. But don't try to outsmart the Universe...

for you cannot. So be honest on what you feel comfortable you can do and want to do for your wish to come true.

Write everything you are going to do on the paper. Then every day, choose a time you can be quite undisturbed for about half an hour and read your papers. Read both what you want and what you are doing for this to come to you.

Close your eyes and visualize yourself having what you want, and being happy and grateful.

And of course, keep doing what you have promised to the Universe you are going to do. And rest assure that the

Universe will do whatever else is needed to be done for your wish to come true.

Secrets to Manifestation **IS** also the Secrets of Prayer

If you learn one you will know the other.

Taken from the Dead Sea Scrolls "The Essenes Writings"

Feeling is the secret of your manifestation, and prayer is the focus that creates the manifestation

Pray as if you already have it. Feel the way you feel as if you already have it.

When you pray **for** something your manifestation can never happen. The reason for that is when we ask **for** something we give power to what we don't have. When we pray **for** rain we empower the drought. The manifestation of rain cannot happen.

Then what do we do!

It's simple. We began to have the feeling of what rain feels like. You feel the rain on your body, what it feels like on your feet. Smell the rain. Etc.

We need to engage all of our senses-the hidden powers of thought, feeling, and emotion. This is what sets us apart from all other forms of life.

In addition to thought, feeling and emotions, we need to remember the senses of smell, sight, taste, and touch. This is what connects us to the world.

When we do this we use the power and ancient language that *speaks* to nature.

Following prayer, we must remember how feelings of thanks and appreciation are the completion of prayers. It's like the "Amen"

Research shows that precisely the quality of gratitude and appreciation is what releases the life-affirming chemistry of hormones in our bodies that strengthens our immune systems.

It is these same chemical changes *within* us that has the quantum effects to connect all of creation.

Whatever this energy will end up being called, Natures Mind, Mind of God, etc. it appears to be the canvas which the events of our lives are inscribed.

Feeling is the language of the mind that God recognizes.

Feeling is the prayer that creates the manifestation
