

Just Be Love: The Soul's Journey

Presented by David Schroeder

Sunday November 10, 2019 1- 4 pm

This interactive workshop will offer greater understanding of our soul's journey with love, ways we forget we are love and ways to live more from our heart center and remember we are love.

Join David, as he offers inspiring messages and interactive experiences, designed to touch your soul, open your heart and expand your mind.

David's book *Just Be Love*, was inspired by a mystical experience he had with Jesus. The writings are a series of vignettes on the human struggles and joys of love, as well as what love means and where it can be found from the Divine perspective.

"Just Be Love means choosing to look at our life experiences from the soul's perspective, to allow for an opening to punch through our clouds of darkness and illusion, so the light and love of our divine essence can illuminate our experience and its intended life lesson for our soul's growth."

"We are here to embrace the human journey and to discover within it, the deeper knowing of our soul. In this knowing, we come to a deeper and richer experience with God and our true self."
