

Rev. Gloria Ward

**Rev. Ward reminds us that sacred leadership is not born in grand gestures,
but in daily acts of love, wisdom, and service.**

Rev. Gloria Ward's life is a shining tapestry of devotion, compassion, and spiritual leadership. Before stepping fully into her spiritual calling, she served as a medical assistant in one of Michigan's leading medical practices. With steady hands and a heart attuned to healing, she spent years supporting patients through moments of vulnerability and recovery—building trust, offering comfort, and quietly embodying the ethics of care that would later define her spiritual ministry.

Her gift for guidance extended far beyond clinical walls. As a Girl Scout leader, Rev. Ward became a beacon for young minds, helping instill values of self-reliance, kindness, and community engagement. She understood that leadership begins with love, and her mentorship planted seeds of confidence and purpose in countless lives.

A certified hypnotherapist, Rev. Ward weaves holistic healing into her spiritual practice, empowering individuals to reconnect with their inner strength and emotional clarity. She is also certified through the Independent Spiritualist Association in mediumship, healing, associate ministry, and ministry—credentials that reflect both her extensive training and her sacred calling. These certifications serve as cornerstones of her service, allowing her to hold space with integrity, offer healing with intention, and serve the spirit world with reverence.

Her impact within the Independent Spiritualist Association of the United States of America has been nothing short of transformative. As Past President and now Vice President, she has helped shape the direction and values of the organization, nurturing unity, vision, and ethical leadership. Her voice—calm yet resolute—has guided both policy and hearts, creating space for growth, diversity, and enduring spiritual tradition.

Rev. Ward's pastoral leadership spans over 18 years across beloved spiritual communities. She has served as pastor of the Gateway Spiritualist Church, the Golden Light Spiritualist Church, and the Snowflake Spiritualist Camp, offering teachings, guidance, and sacred presence to each congregation. Currently, she holds the role of President of the Golden Light Spiritualist Church, where she continues to foster connection, inspire healing, and steward the church's mission with grace and strength.

Her journey reminds us that spiritual leadership is not just about titles, it is about showing up with open hands and an open heart, again and again. Whether in clinics, camps, or churches, Rev. Gloria Ward has carried light into every space she's touched.
