

# 412 Foster Project:

Mental Health Clinic

&

Center for Adolescents

## About 412 Foster Project

412 Foster Project spearheads innovative approaches to closing gaps in services. Specifically gaps in services in the areas of foster care and in mental health delivery.

Our mission is quite simple- we want to serve the community as well as the people who live there.

The heart and soul behind the work at 412 Foster Project is genuinely focused on community and growth. We create and hold space for not only children, but also their families. We strive to always foster a sense of love, a sense of hope and a sense of community.

## Our Founding

412 Foster Project was founded by a child welfare social worker in the peak of the COVID-19 crisis. This was in response to the amount of youth and families she witnessed going without essential mental health services due to flaws in the existing system. It became acutely apparent to her that even under the best of circumstances, the system was just not set up to benefit a majority of the people who needed support the most. Thus, 412 Foster Project was created to be the support people desperately needed.

## Target Market & Services

412 Foster Project: Mental Health Clinic and Center for Adolescents is set up to specifically target; youth, young adults, and families. While they do not need to be involved in the foster care system to be seen by a specialist, the clinic does offer services specifically tailored to families and youth who are as well as those who are not. Our services are specifically designed with a holistic trauma informed approach. This approach is designed to address individual as well as family and group trauma as well as break unhealthy habitual dynamics.

## Our Values

Everything we do is revolved around the service of our community and the members who need it the most. We are dedicated to serving every individual despite their race, gender, sexual orientation/identity, or their socioeconomic background. We are fiercely dedicated to providing quality service to all members of the community and ensuring fairness and equity to all.

# Thank You

We absolutely love what we do- but we couldn't do it without the support of our community partners.
