City of Wildwood Department of Public Services Rick Brown 16860 Main Street Wildwood, MO 63040

Dear Mr. Brown:

Meridian Waste Missouri, LLC, a wholly owned subsidiary of Meridian Waste Acquisitions, LLC ("Meridian Waste"), is pleased to submit the attached RFP response for the City of Wildwood: "Sealed Proposals for Residential Solid Waste, Recycling and Yard Waste Service." Our proposal is submitted as an ALTERNATE.

Meridian's response assumes the following alternatives, clarifications and/or deviations embodied within its ALTERNATE PROPOSAL:

### **B.3 MINIMUM SPECIFICATIONS: DEVIATIONS**

<u>A.13 Non-exclusivity</u>: Meridian requires that this provision is modified to reflect that the Contract/Franchise will be exclusive to realize the rate/pricing structure provided herein. This is necessary to uniformly spread costs over the RFP represented units.

<u>B.9 Time Schedule</u>: Commencement of Contract Services may begin as specified, provided that a fully executed contract is in place by May 16, 2023. Adequate lead time to order, purchase and receive equipment and materials on a timely basis is crucial to successfully begin operations.

**B.10 Execution of Contract**: Meridian's offer provided by this response is specifically contingent upon the execution of a mutually satisfactory contract document.

<u>D.3 Duration and Scope of Contract</u>: Five (5) year minimum term, with the mutual agreement of the City and Meridian to exercise the option to renew for an additional one (1) year term. This is required to spread investment capital over an amortization period which is fiscally responsible and correspondingly conducive to recoup capital outlay.

<u>D.7 Customer Service:</u> All complaints must be given prompt and courteous attention. In the case of missed scheduled collections *due to contractor error*, the Contractor shall verify the missed collection and arrange for the pick-up of said refuse within twenty-four (24) hours of the complaint being received or *within one business day*. (See "Response Time to Complaints" below.) The Contractor shall answer the phone promptly and process complaints quickly without requiring callers to spend long periods on hold while waiting for their calls to be handled.

Response Time to Complaints. All complaints received by either the Contractor or the City before 10:00 am. shall be resolved by the Contractor before 5:00 p.m. on the day of the complaint. All complaints received by either the Contractor or the City after 10:00 am. shall be resolved by the Contractor before noon the next day. If the result/fault of a complaint/inquiry involves any other entity than the Contractor or the resident, the Contractor shall immediately notify the City. For purposes of this paragraph, "day" means business day.

### **D.10 Performance Standards, Code Violations, Administrative Costs:**

<u>General Service Standard</u>. Contractor shall perform all services in a diligent and workmanlike manner and shall employ only such persons who will effectively carry out the intent and purpose of this contract. Contractor is responsible for immediately *initiating the removal of* any residue or spillage, *caused by contractor* from each stop along the residential collection route. *The* retrieval of any residential waste, recyclables or yard waste spilled or blown during transportation *caused* by contractor shall *be initiated* immediately.

<u>Specified Performance Standards:</u> Meridian perceives the specified performance standards to be reasonable in most cases, however also perceives (some of) the penalty/charges for failure to achieve the standards as unnecessarily high and the application of such as potentially arbitrary in nature. Meridian will work with the City to modify the costs and applicability for mutual acceptability.

<u>**D.14 Contract Termination:**</u> This clause as written, is unacceptable. Negotiated modification of this clause to be to achieve a mutually satisfactory contract document will be necessary.

<u>D.15 Local Improvements:</u> While Meridian agrees that collection services will need to continue, we will need the City to agree to compensate the Contractor for any extraordinary costs incurred by Meridian to <u>execute</u> the strategy to continue collection services to overcome the impact of local improvements contemplated herein.

<u>D.22 Strike Guarantee:</u> This clause as written, is unacceptable. This clause to be negotiated as one part of a mutually satisfactory contract document.

**D.22 Insurance:** Some of the limits clauses and other provisions will be subject to provisions negotiated as part of a mutually satisfactory contract document.

<u>D.25 Indemnification:</u> Some of the provisions will be subject to negotiation as part of a mutually satisfactory contract document.

### **D.26 Program Specifications:**

### 5.Pricing

(c) Valet Service: Meridian will not be bound by the practice of the former hauler.

### 9. Containers for Residential Waste:

Meridian's proposal response outlined in the PRICE QUOTATION SHEET assumes that Basic Service for each residence includes the monthly cost for one Meridian provided 95-gallon cart with weekly collection service. Residences will not be allowed to utilize, nor will Meridian be required to empty any carts other than Meridian provided carts, unless otherwise approved in advance in writing by Meridian.

(c) Removal of Existing Containers. This will be limited to coincide with the initial contract implementation period anticipated to be approximately 30 calendar days.

- (d) Replacement Containers. Customers will use reasonable care and diligence so as not to damage or harm or fail to secure from theft, any Contractor supplied container. To the extent that said container is required to be replaced due to Customer's failure to do so, Meridian will assess, and the Customer will pay to Meridian a replacement fee which is equivalent to the sum of the purchase price of the container and a reasonable cost to deliver the replacement container.
- 13. Recycling Volume: all volume must be contained within Meridian provided cart(s).

### 14. Containers for Residential Recycling:

Meridian's proposal response outlined in the PRICE QUOTATION SHEET assumes that Basic Service for each residence includes the monthly cost for one Meridian provided 65-gallon cart with weekly collection service. Residences will not be allowed to utilize, nor will Meridian be required to empty any carts other than Meridian provided carts, unless otherwise approved in advance in writing by Meridian.

- (c) Removal of Existing Containers. This will be limited to coincide with the initial contract implementation period anticipated to be approximately 30 calendar days.
- (d) Replacement Containers. Customers will use reasonable care and diligence so as not to damage or harm or fail to secure from theft, any Contractor supplied container. To the extent that said container is required to be replaced due to Customer's failure to do so, Meridian will assess, and the Customer will pay to Meridian a replacement fee which is equivalent to the sum of the purchase price of the container and a reasonable cost to deliver the replacement container.

### 15. Drop-Off Location:

Meridian will not be responsible for collection of any materials which are not properly contained within the dumpster, neither cleanup nor housekeeping of the site for any reason whatsoever.

### 26.(b) 1. Yard Waste Collection:

Meridian's proposal assumes that Customer's wishing to receive this service will be actively enrolled in this program for service periods with corresponding costs as listed below:

- Three (3) consecutive months at \$30.00 per month
- Six (6) consecutive months at \$24.00 per month
- Nine (9) consecutive months at \$18.00 per month
- Twelve (12) consecutive months at \$15.00 per month

### APPENDIX A:

### PRICE QUOTATION SHEET:

The PRICE QUOTATION SHEET has been completed to reflect Meridian's offering of an ALTERNATE PROPOSAL. The sheet has been altered to reflect the pricing for the ALTERNATE PROPOSAL which includes the alternatives, clarifications and/or deviations relative to the REQUEST FOR PROPOSAL

### **Our Team**

The Meridian Waste Missouri Team of managers, drivers, technicians, and customer service personnel has earned and currently enjoys an outstanding service reputation amongst our municipal contract customers. This reputation has improved dramatically over the past several years with the assembly of an experienced and committed team.

### **Our Philosophy**

Meridian Waste is defined by our commitment to servicing our customers and employees with unwavering respect, fairness, and care.

We trust that you will have a favorable response to our ALTERNATE RFP submission. After reviewing our response, should you have any questions or require any additional information, we would be pleased to meet with you to discuss details. We appreciate the opportunity to present this proposal response, and we look forward to further exploring the opportunity to be of service to the City of Wildwood and its citizens.

Sincerely,

Gregg Asciutto
Area President

### SURETY:

(Name, legal status and principal place of business)

Atlantic Specialty Insurance Company 605 Highway 169 North, Suite 800 Plymouth, MN 55441

This document has important legal consequences. Consultation with an attorney is encouraged with respect to its completion or modification.

Any singular reference to Contractor, Surety, Owner or other party shall be considered plural where applicable.

### BOND AMOUNT:

Ten Thousand and 00/100 (\$10,000.00)

### PROJECT:

Init.

(Name, location or address, and Project number, if any)

Residential Solid Waste, Recycling and Yardwaste Services

The Contractor and Surety are bound to the Owner in the amount set forth above, for the payment of which the Contractor and Surety bind themselves, their heirs, executors, administrators, successors and assigns, jointly and severally, as provided herein. The conditions of this Bond are such that if the Owner accepts the bid of the Contractor within the time specified in the bid documents, or within such time period as may be agreed to by the Owner and Contractor, and the Contractor either (1) enters into a contract with the Owner in accordance with the terms of such bid, and gives such bond or bonds as may be specified in the bidding or Contract Documents, with a surety admitted in the jurisdiction of the Project and otherwise acceptable to the Owner, for the faithful performance of such Contract and for the prompt payment of labor and material furnished in the prosecution thereof; or (2) pays to the Owner the difference, not to exceed the amount of this Bond, between the amount specified in said bid and such larger amount for which the Owner may in good faith contract with another party to perform the work covered by said bid, then this obligation shall be null and void, otherwise to remain in full force and effect. The Surety hereby waives any notice of an agreement between the Owner and Contractor to extend the time in which the Owner may accept the bid. Waiver of notice by the Surety shall not apply to any extension exceeding sixty (60) days in the aggregate beyond the time for acceptance of bids specified in the bid documents, and the Owner and Contractor shall obtain the Surety's consent for an extension beyond sixty (60) days.

If this Bond is issued in connection with a subcontractor's bid to a Contractor, the term Contractor in this Bond shall be deemed to be Subcontractor and the term Owner shall be deemed to be Contractor.

When this Bond has been furnished to comply with a statutory or other legal requirement in the location of the Project, any provision in this Bond conflicting with said statutory or legal requirement shall be deemed deleted herefrom and provisions conforming to such statutory or other legal requirement shall be deemed incorporated herein. When so furnished, the intent is that this Bond shall be construed as a statutory bond and not as a common law bond.

### COMPANY LEADERSHIP

### WALLY HALL - CHIEF EXECUTIVE OFFICER

Walter "Wally" Hall, Jr. started his solid waste career with Browning Ferris Industries ("BFI") in 1990 and learned the business as a true garbage man: Supervisor, Operations Manager, Manager-Trainee, General Manager, Region Operations Manager and Area President. Within his first 6 years at BFI, he oversaw 400 employees with annual revenue of \$50 million. After transitioning to Republic Services in a General Manager position, he was asked to assume the role of Area President for the Southland Waste division of Republic Services. In 2001, Mr. Hall was one of three founders of Advanced Disposal Services, Inc., which became the fourth largest solid waste company in the U.S. before being acquired by Waste Management in 2020. Starting with three trucks, Mr. Hall grew Advanced Disposal's operations to over \$1.4 billion in annual revenue, 5,300 employees, 91 collection/hauling facilities, 45 MSW and C&D Landfills, 71 transfer stations and 21 recycling facilities. After completing the 2012 integration of the Advanced Disposal – Interstate Waste – Veolia Environmental acquisitions by the company, Mr. Hall left Advanced Disposal in 2014 to pursue other interests. In 2018 he became the CEO of Meridian Waste Acquisitions, LLC with the goal of once again growing a solid waste company to fill the industry need for a well-funded, nimble, and both customer and employee-focused independent company for the Southeast marketplace. He is a graduate of Mississippi College and a former College Baseball Coach at The University of Mississippi.

### DAVE LAVENDER - CHIEF OPERATING OFFICER

Dave Lavender has more than 29 years of solid waste industry experience and serves as COO for Meridian Waste and is responsible for all operating aspects of the company including collection, transfer, landfill and recycling services, budgeting, capital expenditures, safety, training, acquisitions, and strategic planning. He has held many operations positions with several of the largest waste companies in the U.S. including Browning Ferris Industries and Waste Management. Prior to joining Meridian Waste, Mr. Lavender spent 13 years at Advanced Disposal where he was regional vice president and oversaw 27 hauling companies, 14 landfills, 18 transfer stations, 3 recycling facilities and over 1,400 employees. He is a graduate of Georgia Southern University with a bachelor's in business administration.

### MARY O'BRIEN - CHIEF MARKETING OFFICER

Mary O'Brien serves as CMO for Meridian Waste and oversees marketing, government affairs and communications for the company. Her responsibilities include existing and new market area expansion via municipal contracts and acquisition integration; company communications, website, digital strategies; public relations and government and legislative affairs. Additional duties include the conversion to cloud-based technologies company-wide for multiple communication, web, development and information storage systems, upgraded online web and app services as well as implementing and auditing efficiency and automation standards and systems utilizing information technology. Ms. O'Brien's career in the waste industry spans 21 years, and she spent the majority of her tenure with Advanced Disposal serving as CMO where she oversaw all marketing efforts with locations across seventeen states and the Bahamas with annual revenues of \$1.4 billion. Ms. O'Brien holds a bachelor's in business administration and marketing with a minor in English from James Madison University in Harrisonburg, Virginia.

### RYAN PERRY - CHIEF ACCOUNTING OFFICER

Ryan Perry joined the Meridian Waste team in 2019 and currently serves as the Company's Chief Accounting Officer. Mr. Perry is responsible for all of the company's financial functions, including accounting, audit, treasury, corporate finance, financial reporting, budgeting and acquisition integration. Prior to joining the Meridian Waste team, Mr. Perry served in roles with increasing responsibilities in the industries of Nuclear Construction & Maintenance, Nuclear Decommissioning and Decontamination, retail, and public accounting. Mr. Perry earned two Bachelor of Business Administration degrees from James Madison University in Accounting and Marketing Information Systems.

### CHARLIE GRAY - VICE PRESIDENT - OPERATIONS

Charlie Gray has been an impressive leader in the solid waste industry for over 30 years. He joined the Meridian Waste corporate team in 2023 as the Vice President - Operations. In this role Mr. Gray plans,

directs and oversees strategic operational activities at Meridian Waste, ensuring development and implementation of efficient and cost-effective collection, transportation, and disposal systems to meet the current and future needs of the organization. His career in the waste management space began in 1994 at Browning Ferris Industries, the second largest waste industries in the U.S. at the time. He then joined Republic Services, Inc. as a General Manager in 1997 and continued at Advanced Disposal Services as the Regional Vice President for 9 years. Advanced Disposal Services had 2000+ employees and \$600 million in annual revenue. Before Mr. Gray joined Meridian Waste, he held the position of Chief Operating Officer at Attaway Hauling, LLC., a company that transported approximately 10,000 tons per day to various landfills In Georgia, Alabama, and Tennessee. He is a graduate of Nicholls State University in Louisiana and a former assistant baseball coach at the University of Mississippi.

### DAVE SHEPLER - AREA PRESIDENT - FLORIDA

Dave Shepler is a 30-year industry veteran serving as the Area President of Florida and is responsible for all aspects of the Florida solid waste collection operations, which include over 100,000 residential customers and 1,500 commercial/ industrial customers. He oversees budgetary goals and accountability, capital needs and allocation, safety, risk, and revenue growth for the Florida assets. He has held regional manager and district manager positions with several of the largest waste companies in the U.S. including Browning-Ferris Industries, Advanced Disposal, Waste Connections and Waste Management. Mr. Shepler spent eight years with Advanced Disposal where he was Regional Manager for the state of Florida and southern Georgia. Prior to joining Meridian Waste, he founded and operated his own hauling company Partner Disposal for four years which was acquired by Meridian Waste in 2018. Shepler earned his Bachelor of Business Administration from the University of South Florida.

### GREGG ASCIUTTO - AREA PRESIDENT - MISSOURI

Gregg Asciutto brings over 40 years of management and equity ownership within the environmental services industry. He earned a Bachelor of Science from Eastern Michigan University while gaining experience in the family run waste collection business. Mr. Asciutto subsequently worked with some of the biggest names in the business including SCA Services, Waste Management, Veolia Environmental Services, IESI, Progressive Waste, MBI and Advanced Disposal. He brings entrepreneurial and corporate expertise with business acquisition, hauling operations, transfer stations, and landfills, recycling facilities and medical waste incinerators throughout the Midwest, Mid Atlantic and Northeast sectors of the United States.

### JOSH DAHER - AREA PRESIDENT - NORTH CAROLINA

Josh Daher is the Area President for North Carolina operations and is responsible for all aspects including collection, transfer and disposal operations with \$12 million in annual revenues. He oversees budgetary goals and accountability, capital needs and allocation, safety, risk and revenue growth for the North Carolina assets including one hauling company, three transfer stations, and one C&D landfill. Mr. Daher has been with Meridian Waste for three years and most recently ran operations in the Knoxville, Tennessee area. Mr. Daher joined the company in 2017 as the Director - Human Resources & Safety and in his second year was promoted to General Manager of the Company's newly acquired Tennessee Disposal assets. He implemented the Tennessee Hauling operations as a start-up and built the business into a \$2.2 million marketplace. Prior to the environmental services industry, he served as a high school educator and athletic director coaching young adults in baseball, basketball, and football.

### PATRICK MESSINGER - AREA PRESIDENT - SOUTH CAROLINA

Patrick Messinger joined the waste industry in 2019 as a Senior Corporate Analyst for Meridian Waste. Before assuming the role of Area President, he had an instrumental role in overall Company growth of hauling operations, routing efficiencies in each market, and in day-to-day operations. As Area President in South Carolina, he is responsible for all aspects including collection, transfer and disposal operations with \$6.7 million in annual revenues, 24,116 residential customers, and 1,028 commercial/industrial customers. He oversees budgetary goals and accountability, capital needs and allocation, safety, risk and revenue growth for the South Carolina assets including one hauling facility, and one transfer station. Mr. Messinger earned two Bachelor of Arts degrees in Finance and Accounting, and Economics from Maryville College.

### TIM WEBB - AREA PRESIDENT - VIRGINIA

Tim Webb leads the Virginia operations and is responsible for all aspects including collection, transfer, and disposal operations, which include over 42,000 residential customers and 2,500 commercial/industrial customers. He oversees budgetary goals and accountability, capital needs and allocation, safety, risk, and

revenue growth for the Virginia assets including two hauling companies, two MSW landfills, and two recycling facilities. Prior to his current role, Mr. Webb served as the Corporate Purchasing Manager and oversaw various special projects related to construction and disposal projects. Before joining Meridian Waste, Mr. Webb worked as Vice President-Landfills with The CFS Group, as COO of StampTech, as the Environmental, Health and Safety Director of Waste Management – Columbia, MD, and had a long career serving with the Hopewell Bureau of Fire. He also has a background in connecting software and hardware technologies to provide solutions for safety and efficiency within a variety of professional settings.

### LARRY SEIVERS - DISTRICT MANAGER - TENNESSEE

Larry Seivers is the district manager overseeing the company's Knoxville hauling operations including construction and demolition (C&D) entities Poplar View C&D Landfill and Riverside C&D Landfill. Years ago, Seivers and his partners managed these same landfills to form Knoxville Landfills LLC, which was acquired by Meridian Waste in November 2018. Following the acquisition, Seivers kept the portable restroom portion of the business, which became East Tennessee Portables (ETP). ETP became one of the area's largest portable restroom providers, which was acquired in February 2020. Mr. Seivers graduated from the University of Tennessee where he played football. In 2013 he was inducted into the Tennessee Sports Hall of Fame for his accomplishments at UT.

- Safely disposes of 798,749 tons of waste in company-owned landfills

# Recycling Volumes:

Collects and delivers 15,660 tons of recyclables annually to state-permitted MRFs'

#### **Employees:**

654 team members

# **Financial Statement**

# Experience Securing Finance

- Meridian Waste ("the Company") is a portfolio Company managed by Warren Equity Partners (WEP). WEP is a private equity firm that invests in middle market companies within North America with concentration in industrial and business service sectors. Since WEP's initial investment in the Company in April 2018, the Company has been able to expand its business operations by closing on twenty-seven (27) acquisitions with a cumulative purchase price of over \$100 Million. The Company has the ability to finance its growth through relationships with WEP and the equity markets as well as its long-standing relationship with Goldman Sachs in the credit markets. Effective January 12, 2022, the Company has increased and amended its current facility of \$187.8M consisting of a revolver, term-loan, and multi-draw term loan. The Company currently has \$23.0M credit available for future acquisition or for capital projects such as new municipal contracts. The Company also has the ability to upsize the credit facility for accretive opportunities.
- The Company approaches each waste management project individually and structures each of these purchases using equity funds or a debt/equity combination based on the size of the project and current marketplace. The Company has the capacity and flexibility to secure multiple funding arrangements as we have demonstrated in successfully closing twenty-eight (28) acquisitions since April 2018.

#### Financial Position

The Company's calculated Net Worth is \$86.2M and \$73.2M for the years ended 2021 and 2020, respectively. The calculation of net worth considers total assets minus total liabilities. The Company has Revenue, net of intercompany eliminations, of \$109.6M and \$75.9M for the years ended December 31, 2021 and 2020, respectively. Audited financial statement are available upon request.

Board of Directors Meridian Waste Holdings, LLC and Subsidiaries Charlotte, NC

#### Opinion

We have audited the consolidated financial statements of Meridian Waste Holdings, LLC and Subsidiaries (the "Company"), which comprise the consolidated balance sheets as of December 31, 2021 and 2020, and the related consolidated statements of operations, members' equity, and cash flows for the years ended December 31, 2021 and 2020, and the related notes to the consolidated financial statements.

In our opinion, the accompanying consolidated financial statements present fairly, in all material respects, the financial position of the Company as of December 31, 2021 and 2020, and the results of its operations and its cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

#### Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America ("GAAS"). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Consolidated Financial Statements section of our report. We are required to be independent of the Company and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

#### Responsibility of Management for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of these consolidated financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Company's ability to continue as a going concern within one year after the date that the consolidated financial statements are available to be issued.

## Auditors' Responsibility for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not absolute assurance, and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the consolidated financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks.
   Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the consolidated financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit
  procedures that are appropriate in the circumstances, but not for the purpose of expressing an
  opinion on the effectiveness of the Company's internal control. Accordingly, no such opinion is
  expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Company's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

# **Notes to Consolidated Financial Statements**

# Nature of Business and Significant Accounting Policies

#### Nature of business

Meridian Waste Holdings, LLC and Subsidiaries (the "Company") is a multi-regional, vertically integrated solid waste services company that provides collection, transfer, disposal, and landfill services. The Company is primarily in the business of residential and commercial waste hauling and disposal and has contracts with various cities and municipalities. The majority of the Company's customers are located in Missouri, Virginia, Tennessee, Georgia, northern Florida, South Carolina and North Carolina.

#### Basis of presentation

The consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America ("GAAP") and include the financial statements of Meridian Waste Holdings, LLC and its subsidiaries. The consolidated entities share common management as well as general and administrative services. All significant intercompany accounts and transactions have been eliminated in consolidation.

#### Noncontrolling interests and variable interest entities

The consolidated financial statements include the effects of an 80% noncontrolling ownership interest in Tri-City Recycling Center, LLC ("TCR"), which is a variable interest entity ("VIE"), in which the Company is considered the primary beneficiary. TCR leases a facility to the Company used in the operation of the Tri-City Regional Landfill in Petersburg, Virginia. The sole source of TCR's revenues is lease payments from the Company. While the creditors of TCR do not have general recourse to the assets of the Company, there is an obligation to perform by the Company under the leases which collateralize mortgage obligations. The terms of the lease are for a period of 20 years with a 10-year renewal option. The lease includes an annual escalation in rent payments of 1.5%. The (i) equity, (ii) net income, and (iii) contributions or distributions of the non-controlling portion of equity are reported under non-controlling interest in the consolidated financial statements of the Company.

#### Use of estimates

The preparation of consolidated financial statements in conformity with GAAP requires management to make estimates and assumptions that affect certain reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the consolidated financial statements and the reported amount of revenues and expenses during the reporting period. In preparing financial statements, the most difficult, subjective and complex estimates and assumptions that present the greatest amount of uncertainty relate to accounting for landfills, environmental remediation liabilities and long-lived asset impairment. Actual results could differ from those estimates.

#### Cash and cash equivalents

The Company considers all highly liquid investments with original maturities of three months or less to be cash equivalents. As of December 31, 2021, and 2020, the Company had no cash equivalents.

#### Restricted cash

Restricted cash consists of funds that are contractually restricted and cannot be for general use but are for funding insurance claims, settling landfill final capping expenses, closure, post-closure, and environmental remediation obligations.

		2021	2020
Cash and cash equivalents Restricted cash	\$	23,517 14,501	\$ 36,596 2,501
Total cash, cash equivalents and restricted cash shown in the statements of cash flows	<u>\$</u>	38,018	\$ 39,097

#### Accounts receivable

Accounts receivable are stated at the amount invoiced to the customer less an allowance for doubtful accounts. Accounts receivable are considered past due or delinquent when payment is not received within the credit term extended to the customer. Management determines the allowance for doubtful accounts by identifying troubled accounts and by using historical experience applied to individual accounts. Accounts receivable are written-off when deemed uncollectible. Recoveries of accounts receivable previously written-off are recorded when received. The allowance for doubtful accounts was approximately \$968 and \$876 as of December 31, 2021 and 2020, respectively.

# Property and equipment

Property and equipment acquired as part of business combinations are measured at their estimated fair value at the time of acquisition. All other property and equipment are recorded at cost. Expenditures for maintenance, repairs and minor renewals are charged to expense as incurred. Major renewals and improvements are capitalized. Depreciation is provided on the straight-line method basis, over the following estimated useful lives:

Buildings and building improvements	20-30 years
Leasehold improvements	Lesser of the useful life of the asset or
	the remaining term of the lease
Furniture and office equipment	3-5 years
Containers	5-7 years
Trucks, machinery and equipment	3-7 years

#### Goodwill and intangible assets

Goodwill represents the excess of the consideration paid over the fair value of the recognized net assets of the acquired business. The Company has adopted the private company accounting alternative for accounting for goodwill. The Company amortizes goodwill on a straight-line basis over 10 years and tests goodwill for impairment at the entity level. Goodwill is tested for impairment only when a triggering event occurs, or circumstances change that indicate the fair value of the entity may be less than its carrying value. Management determined no triggering events have occurred as of December 31, 2021 or 2020.

The Company has adopted the private company accounting alternative for accounting for identifiable intangible assets in a business combination. The Company does not recognize separately from goodwill customer-related intangible assets not capable of being sold or licensed independently from other assets of the business and noncompetition agreements. The Company's intangible assets consist of landfill permits and trademarks.

#### Valuation of long-lived assets

The Company reviews the carrying value of long-lived assets for impairment whenever events and circumstances indicate that the carrying value of an asset may not be recoverable. If such impairment indicators occur, the Company performs a test of recoverability by comparing the carrying value of the asset or asset group to its undiscounted expected future cash flows. In cases where the estimated undiscounted future cash flow is less than the carrying value of a long-lived asset, an impairment loss is recognized equal to the amount by which the carrying value exceeds the fair value of the long-lived asset. Fair value is generally determined by considering (i) internally developed discounted projected cash flow analysis of the asset or asset group, (ii) actual third-party valuations and/or (iii) information available regarding the current market for similar assets. Based on the Company's analysis, an impairment of \$517 was recognized during the year ended December 31, 2020. There has been no impairment expense recorded in the year ended December 31, 2021.

#### Landfill accounting

#### Capitalized landfill costs

Acquired landfill assets, and related asset retirement obligations, are reported at their estimated fair values in connection with business combinations. In the ordinary course of business, the Company capitalizes various costs that are incurred to make a landfill ready to accept waste. These costs generally include expenditures for land, permitting, excavation, liner material and installation, landfill leachate collection systems, landfill gas collection systems, environmental monitoring equipment for groundwater and landfill gas, and directly related engineering, on-site road construction, and other capital infrastructure costs. The cost basis of landfill assets also includes asset retirement costs, which represent estimates of future costs associated with landfill final capping, closure and post-closure activities. These costs are as follows:

Final capping – The installation of flexible membrane liners and geosynthetic clay liners, drainage and compacted soil layers and topsoil over areas of a landfill where total airspace capacity has been consumed. Final capping asset retirement obligations are recorded on a units-of-consumption basis as airspace is consumed related to the specific final capping event with a corresponding increase in the landfill asset. The final capping is accounted for as a discrete obligation and recorded as an asset and a liability based on estimates of the discounted cash flows and capacity associated with the final capping.

Closure – The construction of the final portion of the methane gas collection systems (when required), demobilization and routine maintenance costs. These are costs incurred after the site ceases to accept waste, but before the landfill is certified as closed by the applicable state regulatory agency. These costs are recorded as an asset retirement obligation as airspace is consumed over the life of the landfill with a corresponding increase in the landfill asset. Closure obligations are recorded over the life of the landfill based on estimates of the discounted cash flows associated with performing closure activities.

Post-closure – The maintenance and monitoring of a landfill site that has been certified as closed by the applicable regulatory agency. Generally, the Company is required to maintain and monitor landfill sites for a 30-year period after they are closed. These maintenance and monitoring costs are recorded as an asset retirement obligation as airspace is consumed over the life of the landfill with a corresponding increase in the landfill asset.

Post-closure obligations are recorded over the life of the landfill based on estimates of the discounted cash flows associated with performing post-closure activities.

The Company develops estimates of these obligations using input from its operations personnel, engineers, and accountants. Estimates are based on interpretations of current requirements and proposed regulatory changes and are intended to approximate fair value. Absent quoted market prices, the estimate of fair value is based on the best available information, including the results of present value techniques. The Company typically contracts with third-parties to fulfill its obligations for final capping, closure and post-closure. The Company uses historical experience, professional engineering judgment, and quoted and actual prices paid for similar work to determine the fair value of these obligations. The Company is required to recognize these obligations at market prices whether it plans to contract with third-parties or perform the work with internal resources.

Once the Company has estimated the final capping, closure, and post-closure costs, the Company inflates the costs to the expected time of payment and discounts those expected future costs back to present value. During the years ended December 31, 2021 and 2020, the Company inflated these costs in current dollars until the expected time of payment using an inflation rate of 1.89% and 1.74%, respectively. The Company then discounted these costs to present value using the credit-adjusted, risk-free rate effective at the time an obligation incurred, consistent with the expected future cash flow approach. Any changes in expectations that result in an upward revision to the estimated cash flows are treated as a new liability and discounted at the current rate while downward revisions are discounted at the historical weighted average rate of the recorded obligation. As a result, the credit adjusted, risk-free discount rate used to calculate the present value of an obligation is specific to each individual asset retirement obligation. The weighted average discount rate applicable to long-term asset retirement obligations was approximately 7.5% and 7% as of December 31, 2021 and 2020, respectively.

The Company records the estimate fair value of final capping, closure, and post-closure liabilities for its landfill based on the capacity consumed through the current period. The fair value of final capping obligations are developed based on estimates of the airspace consumed to date for the final capping. The fair value of closure and post-closure obligations are developed based on estimates of the airspace consumed to date for the entire landfill and the expected timing of each closure and post-closure activity. As these obligations are measured at estimated fair value using present value techniques, changes in the estimated cost or timing of future final capping, closure, and post-closure activities could result in a material change in these liabilities, related assets, and results of operations. The Company assesses the appropriateness of the estimates used to develop the recorded balances annually, or more often if significant facts or assumptions change.

Changes in inflation rates or the estimated costs, timing or extent of future final capping, closure, and post-closure activities typically result in both (i) a current adjustment to the recorded liability and landfill asset and (ii) a change in liability and asset amounts to be recorded prospectively over either the remaining capacity of the related discrete final capping or the remaining permitted and expansion airspace of the landfill.

Any changes related to the capitalized and future cost of the landfill assets are recognized in accordance with the Company's amortization policy, which would generally result in amortization expense being recognized prospectively over the remaining capacity of the final capping or the remaining permitted and expansion airspace of the landfill, as appropriate. Changes in such estimates associated with the airspace that has been fully utilized result in an adjustment to the recorded liability and landfill assets with an immediate corresponding adjustment to landfill airspace amortization expense.

Interest accretion on final capping, closure, and post-closure liabilities is recorded using the effective interest method and is recorded as final capping, closure, and post-closure expense, which is included in operating expenses within the consolidated statements of operations. The upward revision of the asset retirement obligation was due to several factors, but a primary driver was the decrease in the useful life of the landfill as a result of decreased capacity and slower landfill expansion.

#### Amortization of landfill assets

The amortizable basis of a landfill includes (i) amounts previously expended and capitalized, (ii) capitalized landfill final capping, closure and post-closure, (iii) projections of future purchase of development costs required to develop the landfill site to its remaining permitted and expansion capacity, and (iv) projected asset retirement costs related to landfill final capping, closure, and post-closure activities.

Amortization is recorded on a units-of-consumption basis, applying expense as a rate per ton. The rate per ton is calculated by dividing each component of the amortizable basis of a landfill by the number of tons needed to fill the corresponding asset's airspace. For unpermitted airspace to be initially included in the Company's estimate of remaining permitted and expansion airspace, the expansion efforts must meet certain operational and legal criteria. The criteria is evaluated by field-based engineers, managers, and others to identify potential obstacles to obtaining permits. Once the unpermitted airspace is included, the Company's policy provides that airspace may continue to be included in remaining permitted and expansion airspace even if certain of these criteria are no longer met as long as management believes it will ultimately obtain the permit, based on the facts and circumstances of a specific landfill. When the expansion airspace is included in the Company's calculations of remaining permitted and expansion airspace, the projected costs of development as well as the projected asset retirement costs related to the final capping, closure, and post-closure of the expansion are also included in the amortization basis of the landfill.

Once the remaining permitted and expansion airspace is determined in cubic yards, an airspace utilization factor ("AUF") is established to calculate the remaining permitted and expansion capacity in tons. The AUF is established using the measured density obtained from previous annual surveys and is then adjusted to account for future settlement, which considers several factors. After determining the costs and remaining permitted expansion capacity at each landfill, the per ton rates that will be expensed as waste is received and deposited at the landfill is determined by dividing the costs by the corresponding number of tons. Per ton amortization rates are calculated for the landfill for assets associated with each final capping, for assets related to closure and post-closure activities, and for all other costs capitalized or to be capitalized in the future. These rates per ton are updated annually, or more often, as significant facts change.

It is possible that actual results, including (i) the amount of costs incurred, (ii) the timing of final capping, closure, and post-closure activities, (iii) airspace utilization, or (iv) the success of expansion efforts could vary significantly from current estimates and assumptions, which could significantly impact profitability. Most significantly, if it is determined that expansion capacity should no longer be considered in calculating the recoverability of a landfill asset, the Company may be required to recognize an asset impairment or incur significantly higher amortization expense. If at any time management makes the decision to abandon an expansion effort, the capitalized costs related to the expansion effort are expensed immediately.

#### Revenue recognition

The Company's revenue is generated from the fees charged for waste collection, transfer, disposal, and recycling. The fees charged for services are generally defined in service agreements and vary based on contract-specific terms such as frequency of service, weight, volume, and the general market factors influencing a region's rate. Revenue is typically recognized as waste is collected by the Company or tons are received at the Company's landfills and transfer stations. The Company records deferred revenue when cash is received from customers in advance of the Company performing its services. The Company's contracts do not generally contain variable consideration and contract modifications are minimal. In instances where the timing of revenue recognition differs from the timing of the invoice, the Company has determined that its contracts do not include a significant financing component.

#### Deferred financing fees

Deferred financing fees related to long-term debt are presented on the consolidated balance sheets as a direct deduction from the face of the long-term notes payable (see Note 6). Amortization of the deferred financing fees is recognized as interest expense in the consolidated statements of operations. The Company recorded interest expense of approximately \$220 and \$230 related to these amortized costs during the years ended December 31, 2021 and 2020, respectively.

#### Advertising costs

Advertising costs are expensed as incurred. Advertising costs were approximately \$308 and \$260 for the years ended December 31, 2021 and 2020, respectively.

#### Income tax status

The Company is a pass-through entity not subject to federal and state taxation at the entity level. Accordingly, the accompanying consolidated financial statements do not reflect a provision or liability for federal and state income taxes. As such, no deferred tax assets or liabilities were recognized as of December 31, 2021 or 2020.

#### Contingencies

In assessing loss contingencies related to legal proceedings, claims, and regulatory matters, the Company's management and legal counsel evaluate the perceived merits of the legal proceedings, claims, and regulatory matters as well as all the perceived merits of the amount of the relief sought or expected to be sought therein. If the assessment of a contingency indicates that it is probable that a material loss has been incurred and the amount of liability can be estimated, the estimated liability would be accrued in the Company's consolidated financial statements. Management has not identified any probable losses as of December 31, 2021 or 2020.

#### Concentrations

The Company maintains its cash and cash equivalents in bank deposits accounts, which could, at times, exceed federally insured limits. The Company has not experienced any losses in such accounts.

Financial instruments, which also potentially subject the Company to concentrations of credit risk, consists principally of accounts receivable; however, concentrations of credit risk with respect to accounts receivable are limited due to generally short payment terms.

#### Future accounting pronouncements

In February 2016, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") 2016-02, "Leases (Topic 842)." This ASU, along with several subsequently issued ASUs, is intended to increase transparency and comparability among organizations by requiring recognition, on the balance sheet, of right-of-use ("ROU") assets representing the lessee's right to use the leased asset over the term of the lease and lease liabilities representing the lessee's obligation to make lease payments over the term of the lease. The requirement to recognize ROU assets and lease liabilities also applies to leases classified as operating leases under current U.S. GAAP. Disclosures under the new lease standard have also been expanded to enable users of financial statements to assess the amount, timing, and uncertainty of cash flows arising from leases. The new lease standard is effective for the Company beginning January 1, 2022. At the date of initial application, the Company will recognize and measure its existing leases using a modified retrospective approach. The Company is currently assessing the transition requirements, available practical expedients, as well as the impact application of the new lease accounting standard will have on its consolidated financial statements.

#### Reclassifications

Certain amounts in the 2020 consolidated financial statements have been reclassified to conform to the presentation of the 2021 consolidated financial statements. The reclassification had no effect on the reported net loss or members' equity.

#### 2. Business Combinations

#### 2021 Acquisitions

#### **Eco Waste Services**

On May 7, 2021, the Company completed an acquisition to expand its market presence in the Southeastern United States by acquiring certain assets and assuming certain liabilities of Eco Waste Services, Inc.

The purchase price was funded with available cash and recorded using the acquisition method of accounting in accordance with accounting guidance for business combinations. Management has used its best estimate of the fair value of the assets acquired and liabilities assumed at the date of the acquisition. The approximate total consideration and fair value of assets and liabilities for the Eco Waste acquisition was as follows:

Cash at close Cash holdback	\$ 27,891 1,400
Total consideration	\$ 29,291
Accounts receivable Property and equipment	\$ 894 6,180
Total assets acquired, excluding goodwill	7,074
Accrued expenses Deferred revenue	 (29) (68)
Total liabilities assumed	(97)
Total identifiable net assets	 6,977
Goodwill	 22,314
Total purchase price	\$ 29,291

#### Sunrise Sanitation Services

On February 1, 2021, the Company acquired certain assets and assumed certain liabilities of Sunrise Sanitation Services. The fair value of the trucks acquired was approximately \$126 and the fair value of the containers acquired was approximately \$288. The acquisition closed for aggregate consideration of approximately \$3,200. The purchase price was funded at closing by available cash. The acquisition allows the Company to expand its market presence in the state of South Carolina.

#### Ace Environmental of South Carolina, LLC

On February 1, 2021, the Company acquired certain assets and assumed certain liabilities of Ace Environmental of South Carolina, LLC. The fair value of land and buildings acquired was approximately \$224, the fair value of the trucks acquired was approximately \$2,541, and the fair value of the containers acquired was approximately \$978. The acquisition closed for aggregate consideration of approximately \$10,500. The purchase price was funded at closing by available cash. The acquisition allows the Company to continue to expand its market presence in the state of South Carolina.

#### Trash or Treasure, LLC

On April 1, 2021, the Company acquired certain assets and assumed certain liabilities of Trash or Treasure, LLC. The fair value of the trucks acquired was approximately \$40 and the fair value of the containers acquired was approximately \$23. The acquisition closed for aggregate consideration of approximately \$620. The purchase price was funded at closing by available cash. The acquisition allows the Company to continue to expand its market presence in the state of Virginia.

# McConnell Waste Systems and Recycling, Inc.

On April 1, 2021, the Company acquired certain assets and assumed certain liabilities of McConnell Waste Systems and Recycling, Inc. The fair value of the trucks acquired was approximately \$1,235 and the fair value of the containers acquired was approximately \$618. The acquisition closed for aggregate consideration of approximately \$4,800. The purchase price was funded at closing by available cash. The acquisition allows the Company to continue to expand its market presence in the state of North Carolina.

#### Discount Dumpster

On December 30, 2021, the Company acquired certain assets of Discount Dumpster, LLC. The fair value of the trucks acquired was approximately \$746 and the fair value of the containers acquired was approximately \$1,028. The acquisition closed for aggregate consideration of approximately \$4,883. The purchase price was funded at closing by cash available on the Company's consolidated balance sheet. The acquisition allows the Company to continue to expand its market presence in the state of North Carolina.

#### **Dumpstars**

On December 30, 2021, the Company acquired certain assets of Dumpstars, LLC. The fair value of the trucks acquired was approximately \$788 and the fair value of the containers acquired was approximately \$976. The acquisition closed for aggregate consideration of approximately \$2,246. The purchase price was funded at closing by cash available on the Company's consolidated balance sheet. The acquisition allows the Company to continue to expand its market presence in the state of North Carolina.

The Company incurred total acquisition-related costs of \$1,155, which were recognized in the consolidated statement of operation as an acquisition-related costs for the year ended December 31, 2021.

# 2020 Acquisitions

#### Shotwell

During the year ended December 31, 2020, the Company made a series of acquisitions (the "2020 Add-on Acquisitions") to expand its market presence in the Southeastern United States. On January 10, 2020, the Company acquired all of the issued and outstanding shares of stock and membership interests of the following entities: Shotwell Landfill, Inc., Shotwell Transfer Station II, Inc., King's Grading, Inc., Capitol Waste Transfer, LLC, Capitol Recycling, LLC, Allied Installation, LLC, Never Stop Trucking LLC, and Morrisville Transfer Station LLC (collectively, "Shotwell").

The purchase price was funded at closing by cash proceeds from debt financing and a member contribution. The acquisitions were recorded using the acquisition method of accounting in accordance with accounting guidance for business combinations. Management has used its best estimates in the fair value of assets acquired and liabilities assumed at the date of the acquisition. The approximate total consideration and purchase price for the Shotwell acquisition was as follows:

Cash consideration for equity Cash consideration - debt financing Financing costs Acquisition costs Working capital adjustment	\$ 20,659 19,897 (224) (539) 160
Total consideration	\$ 39,953
Cash Accounts receivable Prepaid expenses and other assets Property and equipment Landfill assets Landfill permits	\$ 35 122 188 7,745 3,385 14,906
Total assets acquired, excluding goodwill	26,381
Accounts payable Accrued expenses Asset retirement obligations	 (151) (10) (570)
Total liabilities assumed	(731)
Total identifiable net assets	 25,650
Goodwill	 14,303
Total purchase price	\$ 39,953

The excess of the purchase price over the amounts allocated to identifiable assets and liabilities was included in goodwill. Goodwill includes, but is not limited to, the value of the customer relationships, noncompetition agreements, workforce in place, expected ability to generate future profits and cash flows in the marketplace, an established going concern, and other unidentifiable intangible assets. Goodwill amortization is deductible for tax purposes as it relates to the Shotwell acquisition.

The Company utilized the multi-period excess earnings method to value the landfill permits related to the Shotwell acquisition. The multi-period excess earnings method, a derivative of the income approach, estimates the discounted net earnings attributable to the landfill permits that were acquired.

The Company incurred expenses of approximately \$691 related to the Shotwell acquisition (\$539 at closing and \$152 post closing) which is included in acquisition-related costs in the accompany consolidated statement of operations for the year ended December 31, 2020.

The Shotwell Corporations and the Company are pass-through entities not subject to federal and state taxation at the entity level. Accordingly, the accompanying consolidated financial statements do not reflect a provision or liability for federal and state income taxes. As such, no deferred tax assets or liabilities are recognized as of the opening balance sheet date.

#### Rapid Response

On August 31, 2020, the Company acquired certain assets of Rapid Response 1, LLC. The fair value of the trucks acquired was approximately \$501 and the fair value of the containers acquired was approximately \$602 The acquisition closed for aggregate consideration of approximately \$2,100. The purchase price was funded at closing by cash proceeds from capital contributions made by its members. The acquisition allows the Company to continue to expand its market presence in the state of Missouri.

# 3. Property and Equipment

Property and equipment summarized by major classification as of December 31, 2021 and 2020 are as follows:

	2021	 2020
Land Buildings and building improvements Furniture and office equipment Containers Trucks, machinery and equipment Construction in progress	\$ 6,914 15,532 1,106 27,883 63,739 316	\$ 6,807 11,045 851 20,269 41,746 4,034
Total property and equipment Accumulated depreciation	 115,490 (37,034)	84,752 (24,303)
Total property and equipment, net	\$ 78,456	\$ 60,449

Depreciation expense was approximately \$14,974 and \$11,425 for the years ended December 31, 2021 and December 31, 2020, respectively.

# 4. Goodwill and Intangible Assets

Goodwill and intangible assets consisted of the following as of December 31, 2021 and 2020:

		2021	
	Gross Asset	Accumulated Amortization	Net
Goodwill Landfill permits Trademarks	\$ 107,672 21,164 	\$ (25,005) (4,500) (828)	\$ 82,667 16,664 1,429
Total	<u>\$ 131,093</u>	\$ (30,333)	<u>\$ 100,760</u>
		2020	
	Gross	Accumulated	
	Asset	<u>Amortization</u>	Net
Goodwill Landfill permits Trademarks	Asset  \$ 70,697 21,178 2,257	Amortization \$ (15,506) (3,146) (602)	Net \$ 55,191 18,032 1,655

Amortization expense on goodwill and intangible assets was approximately \$11,080 and \$8,589 for the years ended December 31, 2021 and 2020, respectively.

Future amortization expense related to goodwill and intangible assets is as follows:

0000	
2022	\$ 12,355
2023	12,355
2024	12,355
2025	12,355
2026	12,320
Thereafter	39,020
	\$ 100,760

# 5. Landfill Assets and Asset Retirement Obligations

For the years ended December 31, 2021 and 2020, the Company's operations related to its landfill assets and liabilities are as follows:

	2021	 2020
Landfill assets Beginning balance Capital additions Asset retirement obligations incurred and capitalized Acquisitions Asset impairment Amortization of landfill assets	\$ 41,739 7,553 3,532 - (6,398)	\$ 24,246 4,198 3,482 18,291 (517) (7,961)
Total landfill assets	\$ 46,426	\$ 41,739
Landfill asset retirement obligations Beginning balance Obligations incurred and capitalized Interest accretion Obligations settled Obligations assumed Revisions in estimates and interest rate assumptions	\$ 15,214 739 1,094 (5,969) - 2,792	\$ 12,597 767 1,241 (2,676) 570 2,715
Total asset retirement obligations	\$ 13,870	\$ 15,214

See Note 15 for additional disclosure related to the Company's landfill in Petersburg, Virginia.

# 6. Notes Payable

As of December 31, 2020, the Company's credit and guaranty agreement (the "Credit Agreement") with Goldman Sachs Specialty Lending Holdings, Inc. consisted of the following commitments: (i) \$50,810 Tranche A Term Loan, (ii) \$45,000 Multi-Draw Term Loan ("MDTL"), (iii) \$5,000 Revolver, and (iv) \$5,000 Paid-in-Kind Loan (the "PIK Loan") (collectively, the "Loans"). On May 7, 2021, the Company executed an amendment to the Credit Agreement. Pursuant to the amendment, the debt was reorganized to include four new lenders, extend the maturity date to April 20, 2024 and changed total commitment amounts. The amended commitment amounts are approximately \$110,300 for Tranche A, \$37,500 for MDTL and \$5,000 for the revolver. The PIK Loan was removed from the agreement as part of the amendment. The principal amounts of the Tranche A Term Loan shall be repaid in consecutive quarterly installments equal to \$276 on the last day of each Fiscal Quarter, commencing on December 31, 2022. The principal amount of MDTL advanced prior to such date on the last day of each Fiscal Quarter, commencing on December 31, 2022. The borrowings under the Credit Agreement are secured by substantially all the Company's assets.

The Loans bear interest at either (i) a base rate plus an applicable margin or (ii) an adjusted LIBOR rate plus an applicable margin, as defined by the Credit Agreement. During the years ended December 31, 2021 and 2020, the interest rates were (i) the three-month LIBOR rate plus an applicable margin of 6.00% and 5.00% per annum (7.00% and 5.24% at December 31, 2021 and 2020, respectively) on the Tranche A Term Loan, MDTL, and Revolver. Interest payments are due monthly, in arrears, on the Tranche A Term Loan, MDTL, and Revolver. All principal and outstanding interest are due on the maturity date of the Loans.

The MDTL and Revolver are subject to a commitment fee of 0.50% per annum based on the average undrawn balance of the MDTL and Revolver. The Revolver also allows for standby Letters of Credit with a sublimit equal to the lesser of (i) \$2,500 and (ii) the aggregate unused amount of the Revolver. The Revolver is also subject to a fronting fee of 0.25% per annum based on the average maximum amount available to be drawn under all Letters of Credit. As of December 31, 2021 and 2020, there were no outstanding Letters of Credit.

As of December 31, 2020, the Company had auto insurance financed through Westfield Bank. During the year ended December 31, 2021, the Company paid off the balance in its entirety to Westfield. During 2021, the Company obtained auto insurance financed through Willis Towers. As of December 31, 2021, this agreement requires monthly payments of \$253 and interest accrues at a fixed rate of 2.25% per annum.

As of December 31, 2021 and 2020, the Company had a mortgage related to the variable interest entity discussed in Note 1. The original loan amount was \$1,500. The loan was modified during 2020 to require monthly payments of \$10 with interest accruing at a fixed rate of 3.75% per annum and maturing in October 2030.

As of December 31, 2021 and 2020, the Company had various outstanding equipment notes with other financial institutions entered into between March 2016 and July 2021 for amounts ranging from \$52 to \$1,199. The notes require fixed monthly payments ranging from \$2 to \$37. Interest on the notes accrue at fixed rates between 4.19% and 9.79% per annum. The notes mature between March 2022 and July 2025. The notes are secured by the underlying equipment.

Notes payable consisted of the following as of December 31, 2021 and 2020:

	2021	2020
Tranche A Term Loan MDTL PIK Loan PPP Loan Equipment notes Revolver Insurance premium loans TCR mortgage loan - VIE	\$ 110,283 31,549 - - 4,103 4,750 506 972	\$ 49,929 44,700 6,648 5,646 7,282 1,250 463 1,053
Total notes payable	152,163	116,971
Current maturities Unamortized deferred financing fees	(3,003) (976)	
Total long-term notes payable, net	<u>\$ 148,184</u>	<u>\$ 106,644</u>
Maturities on notes payable are as follows:		
2022 2023 2024 2025 2026 Thereafter	\$ 3,003 2,721 145,579 244 98 518 \$ 152,163	

Borrowings under the Credit Agreement are subject to certain operating and financial covenants. As of December 31, 2021, the Company was in compliance with covenants under the Credit Agreement.

# 7. Paycheck Protection Program Loan

In response to the COVID-19 pandemic, the Coronavirus Aid, Relief and Economic Security ("CARES") Act was signed into law on March 27, 2020. The CARES Act provides for the establishment of the Paycheck Protection Program ("PPP"), a new loan program under the Small Business Administration's 7(a) program providing loans to qualifying businesses. Additionally, loans originated under this program may be forgiven, in whole or in part, if certain criteria are met. On April 20, 2020, the Company received a PPP loan totaling \$5,646. The Company has elected to account for the PPP loan using the debt model under ASC 470 Debt. In order to be forgiven, funds from the loan may only be used for allowable expenses as defined in the PPP which include various payroll costs and non-payroll costs. During the year ended December 31, 2021, the Company's loan totaling \$5,646 was forgiven and the Company had been relieved of its obligation for the liability. As a result, the Company recognized the outstanding principal balance together with the related accrued interest as a gain on extinguishment within other income on the consolidated statement of operations.

#### 8. Fair Value Measurements

Fair value as defined under GAAP is an exit price, representing the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. GAAP establishes a three-tier fair value hierarchy, which prioritizes the inputs used in measuring fair value. These tiers include:

- Level 1: Observable inputs such as quoted prices in active markets.
- Level 2: Inputs other than quoted prices in active markets that are either directly or indirectly observable.
- Level 3: Unobservable inputs about which little or no market data exists, therefore requiring an entity to develop its own assumptions.

Financial instruments are classified in their entirety based on the lowest level of input that is significant to the fair value measurement. The Company's assessment of the significance of a particular input to the fair value measurement requires judgment, and may affect the valuation of fair value financial instruments and their placement within the fair value hierarchy levels.

# Liabilities measured at fair value on a recurring basis

The Incentive Units are liability classified awards and are recorded at fair value as of December 31, 2021 and 2020. During the year ended December 31, 2021 and 2020, the Company granted 3,012,944 and 14,282,370 incentive unit awards, respectively.

#### 9. Members' Equity

In accordance with the Company's Amended and Restated Limited Liability Company Agreement (the "LLC Agreement") dated April 20, 2018, the Company may have the following types of membership interests: Class A Preferred Units, Class B Units, and Class C Common Units (the "Incentive Units"). Holders of Class A Preferred Units and Class C Common Units have no voting rights, and holders of Class B Units are entitled to one vote per unit.

The holders of Class A Preferred Units are entitled to receive a preferred return at the rate of 10.00% per annum, compounding annually. As of December 31, 2020, the cumulative unpaid preferred return was \$1,468 on the Class A Preferred Units. During the year ended December 31, 2021, as part of the Company's debt reorganization (see Note 6), the Class A Preferred Units were redeemed. At the time of redemption, the cumulative unpaid return on the Class A Preferred Units was \$1,688.

During the year ended December 31, 2020, the Company amended its LLC agreement whereas holders of Class B Units are entitled to a preferred return at the rate of 8.00% per annum, compounding annually. Units outstanding prior to the January 10, 2020 issuance (83,176,663.2 Units) and Units issued in the January 10, 2020 issuance (26,159,676.12 Units) would begin accruing the preferred return on January 10, 2020. The remaining Units issued in the January 10, 2020 issuance (51,340,323.88 Units) and any future equity contributions will begin to accrue when funds are drawn by the Company from the segregated account controlled for such distributions. As of December 31, 2021 and 2020, the cumulative unpaid preferred return was \$21,535 and \$9,074 on the Class B Units, respectively.

Distributions to the Company's members shall be in the following order and priority:

First, holders of issued and outstanding Class A Preferred Units and Class B Units, in proportion to their respective holdings of such units, until each such holder has received distributions equal to the preferred return then accrued on such holders' units;

Second, holders of issued and outstanding Class A Preferred Units and Class B Units, in proportion to their respective holdings of such units, until each holder has received distributions equal to the aggregate unreturned capital represented by such holders' units; and

Third, the remaining distributable amount shall be distributed ratably to the holders of vested Class C Common Units, in proportion to their respective holdings of such units.

Tax distributions must be made pursuant to the priority mentioned above if the Company has taxable income or gains allocated to the Company's members. Distributions may be made quarterly on an estimated basis prior to the end of the fiscal year in order to enable the members to satisfy their quarterly estimated tax obligations. Any tax distributions paid to the members shall be treated as an advance against any distribution to which such member would otherwise be entitled to as described above.

#### 10. Incentive Awards

The Incentive Units are subject to a service condition that affects vesting. The service condition requires the recipient of the Incentive Units to remain an employee of the Company during a four-year requisite service period from the award grant date and vest on annual basis over the requisite service period. An analysis of the Company's Incentive Unit awards for the years ended December 31, 2021 and December 31, 2020 are as follows:

	202	21
	Number ofAwards	Number of Vested Awards
Beginning of period Awards granted Awards vested Awards cancelled	14,698,279 3,012,944 -	166,364 - 3,385,980
End of period	<u> 17,711,223</u>	3,552,344
	202	20
	Number ofAwards	Number of Vested Awards
Beginning of period Awards granted Awards vested Awards cancelled	4,824,326 14,282,370 - (4,408,417)	692,940 - 83,182 (609,758)

The Incentive Units are liability classified awards with a performance condition of a liquidity event before payment will be made, for which the Company has determined is not probable and as such no expense related to these awards has been recognized.

## 11. Retirement Plan

The Company has a 401(k) defined contribution plan covering substantially all full-time employees. The Company may elect a discretionary employer match to the plan. The contributions are subject to a vesting schedule and become fully vested after one year of service, retirement, death, or disability, whichever occurs first. The Company's contributions to the plan were approximately \$364 and \$375 for the years ended December 31, 2021 and 2020, respectively.

#### 12. Capital Lease Obligation

The Company leases certain trucks, machinery, and equipment under capital leases. The cost of the trucks, machinery and equipment under capital leases is included in the consolidated balance sheets as equipment and was approximately \$3,526 and \$4,317 as of December 31, 2021 and 2020, respectively. Accumulated depreciation of the leased trucks, machinery and equipment was approximately \$643 and \$678 as of December 31, 2021 and 2020, respectively.

The Company's future minimum lease payments under capital lease obligations as of December 31, 2021, are summarized as follows:

2022 2023 2024 2025 2026 Thereafter	\$ 656 584 552 429 330 5,153
Total minimum lease payments Amount representing interest	 7,704 (2,646)
Present value of minimum lease payments Current portion	 5,058 (412)
Total	\$ 4,646

# 13. Operating Leases

The Company leases offices, warehouses and equipment in Florida, Georgia, Tennessee, Missouri, North Carolina and South Carolina under long-term operating leases that expire on various dates through September 2033.

Future minimum lease payments as of December 31, 2021 were:

2022	\$ 44	18
2023	43	32
2024	39	9
2025	37	6'
2026	22	29
Thereafter	1,36	<u> 3</u>
Total	\$ 3.24	7

Rent expense related to operating leases for the years ended December 31, 2021 and 2020 totaled \$2,056 and \$1,767 respectively.

# 14. Related Party Transactions

The Company entered into a Management Advisory and Consulting Services Agreement (the "Service Agreement") on April 20, 2018 with a member of the Company, requiring a management fee of \$300 per calendar year to be paid quarterly to the member. The agreement also required the Company to pay the member a one-time \$300 fee upon the execution of the Service Agreement. The management fee for both years ended December 31, 2021 and 2020 was \$300.

The Company leased office space in Greensboro, Georgia in a building that is owned by an executive and member of the Company. Additionally, the Company leased another office space in Florida from its employee. Total rent expense under these long-term operating lease agreements totaled approximately \$95 and \$94 for the years ended December 31, 2021 and 2020, respectively.

# Capital contribution receivable

During 2021 the Company had \$2,150 in a capital contribution receivable due from a member that was received prior to the date the consolidated financial statements were available to be issued. The receivable has been included in other current assets in the accompanying consolidated balance sheet.

## 15. Commitments and Contingencies

#### Financial instruments

Certain municipal solid waste ("MSW") service contracts and permits and licenses to operate transfer stations, landfills, and recycling facilities may require performance or surety bonds, letters of credit, or other means of financial assurance to secure contractual performance. The Company has issued financial instruments including cash collateral and letters of credit, to secure the obligations the Company has provided customers, various regulatory authorities, and the Company's insurers. The Company had \$57,360 and \$41,135 of outstanding surety bonds and letters of credit as of December 31, 2021, and 2020, respectively.

#### Landfill remediation

In November 2018, the Company voluntarily stopped accepting commercial MSW at its landfill in Petersburg, Virginia, except the minimum amount required to maintain its associated landfill permits and compliance with the Virginia Department of Environmental Quality ("Virginia DEQ"). The Virginia DEQ claimed that the Company was not in compliance with its landfill permits as it relates to certain MSW capacity requirements at its landfill in Petersburg, Virginia. In October 2019, the Virginia DEQ revoked the Company's landfill permits for its landfill in Petersburg, Virginia. The Company continued working on a resolution with the Virginia DEQ and in August 2020, received an approval for modification for a closure and post closure plan for its landfill in Petersburg, Virginia. The Company has initiated the closure of the site and expects to have the closure completed by the end of 2023. The resolution, acceptance, and initiation of the closure plan for the landfill provided a triggering event for the potential impairment of the site. The Company has evaluated this risk of impairment and recognized asset impairment expense of \$517 thousand as of December 31, 2020. There has been no impairment expense recorded as of December 31, 2021, based on discounted cash flows from revenues from the sale of landfill gas on the site. As of December 31, 2021 and 2020, the landfill asset was \$907 and \$909 respectively, and the asset retirement obligation was \$5,862 and \$8,741 respectively, for the Company's landfill in Petersburg, Virginia.

#### Other matters

During November 2018, the Company filed an insurance claim under the representation and warranty insurance policy that it entered into in conjunction with the Meridian Waste Operations, Inc. and Subsidiaries acquisition. The Company's claim related to (i) delayed payment of certain accounts payable past the dates on which such liabilities would have been paid in the ordinary course of business prior to the date of acquisition, (ii) unrecorded liabilities that existed as of the date of acquisition, and (iii) unpaid taxes related to periods prior to the date of acquisition. During the year ended December 31, 2020, the Company received the payment of approximately \$927, which is presented as other income in the consolidated statements of operations. The Company disputed the amount paid by the insurer and commenced arbitration that was settled on January 12, 2021. Pursuant to the settlement, on February 5, 2021, the Company received additional insurance proceeds of approximately \$4,773, which have been recorded as income in 2021.

The Company is a defendant in the various legal proceedings. While the ultimate results of these matters cannot be predicted with certainty, management does not expect any such matters to have a material adverse effect on the financial position of the Company or its results of operation.

# 16. Business Conditions and Liquidity

The Company incurred net losses of approximately \$17 million and \$33 million for the years ended December 31, 2021 and 2020, respectively. Correspondingly, the Company's cash flows used in operating activities was approximately \$5.6 million during the year ended December 31, 2020. During the year ended December 31, 2021, the Company's cash flow provided by operating activities was \$8.8 million. The operating results were not unexpected as the Company continues to invest in its operating infrastructure and expand its geographic market presence. Management believes their business plan, financial position, and continued capital contributions from existing members will enable the Company to meet its financial obligations for at least one year beyond the date these consolidated financial statements were available to be issued.

# 17. Subsequent Events

The Company has evaluated the effect subsequent events would have on the consolidated financial statements through April 29, 2022, which is the date the consolidated financial statements were available to be issued.

#### Credit Agreement

On January 12, 2022, the Company executed an amendment to the Credit Agreement. Pursuant to the amendment, the debt was reorganized to include one new lender and increase the total commitment amount by \$35 million. The amended commitment amounts are approximately \$110.3 million for Tranche A, \$72.5 million for MDTL and \$5 million for the revolver.

# 2022 Add-on acquisitions

## Pinnacle Waste, LLC and Chatham C&D Waste Recycling, LLC

On March 1, 2022, the Company acquired certain assets and assumed certain liabilities of Pinnacle Waste, LLC and Chatham C&D Recycling Waste Recycling, LLC. The acquisition closed for the aggregate consideration of approximately \$4,100. The purchase price was funded at closing from a combination of available cash and cash proceeds from additional debt. The acquisition allows the Company to expand its North Carolina marketplace to areas beyond its current footprint.

#### Triad Waste, LLC

On March 1, 2022, the Company acquired certain assets and assumed certain liabilities of Triad Waste, LLC. The acquisition closed for the aggregate consideration of approximately \$4,100. The purchase price was funded at closing from a combination of available cash and cash proceeds from additional debt. The acquisition allows the Company to continue to expand its market presence in North Carolina.
