

Hello, NCAP Board Members -

Denise is out of the office and asked that I share the following information with you directly.

NCAP is gathering information to better understand how federal funding delays and lapses may affect Community Action Agencies that operate Head Start programs.

**We've created a short 3–5-minute survey to map when each of the Network's Head Start grantee's contract year begins.** Because these dates vary throughout the year, this information will help us assess how potential funding disruptions could impact programs at different times.

**We are asking that you share the survey with Community Action Head Start grantees within your state or regional network. For those of you that operate Head Start programs, we are also asking that you or your Head Start Director complete the survey.**

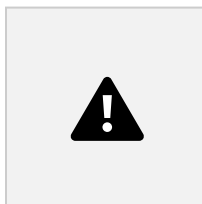

**[The survey is available HERE.](#)**

We shared the survey with the Head Start Task Force earlier today and we are in the process of disseminating it to our other affinity groups/cohorts as well as the State Associations.

Please let me know if I can provide any additional info and thank you in advance for your assistance in collecting this information.

Thank you,  
Ryan
