

Welcome to TSS Collections

Formed in January 2026, Tile Solutions & Supplies (TSS) brings together almost 60 years of combined experience in the ceramic tile industry.

Founded by Richard Girdham and John Nelmes, TSS was established with a simple philosophy: to provide beautifully designed porcelain and ceramic tiles, exceptional service, and practical solutions that help our customers succeed.

Our carefully curated collections are sourced from leading manufacturers around the world, combining outstanding design, quality and value. From timeless marble effects and contemporary stone finishes to bold feature tiles and large-format porcelain, every collection has been selected to inspire confidence and deliver lasting performance.

We understand that every project is different. If your requirements extend beyond our standard range, our global sourcing network enables us to find bespoke products and tailored solutions to meet your specific needs.

At TSS, relationships matter. We are committed to supporting our distribution partners with dependable service, expert product knowledge and a flexible, customer-focused approach.

Thank you for taking the time to explore the TSS Collections. We look forward to helping you create exceptional spaces.
