Tried & True

OCTOBER 18-19, 2024 PRODUCTION SALE

320 FM 3059 | STREETMAN, TEXAS

Welcome

Dear Friends and Fellow Cattle Producers,

Thank you for your interest in our cattle. We are extremely grateful (and excited) to be hosting the **Seventh** Annual Strait-Hefte Tried & True Production Sale along with Hefte Ranch. We are very appreciative of the support this sale and our Santa Gertrudis genetics have received. This year we will be selling ALL BULLS on Friday, October 18th at 4:00 pm while the REGISTERED FEMALES will sell Saturday, October 19th starting at 10:30 am.

Our family has been blessed with the opportunity to raise Santa Gertrudis cattle for over 70 years and we are proud to be an integral part of the progress and momentum that the Santa Gertrudis breed has experienced. We remain focused on continuous improvement and identification of superior genetics through data collection. We continue to heavily use artificial insemination to introduce the best genetics in the breed into our herd and embryo transfer to multiply the best genetics in our herd.

We will again showcase the quality cattle and genetics of our buyers alongside our own. We continue to invite our previous buyers to participate in the sale and have offered them the opportunity to consign one female or one exclusive semen or embryo package. We are so very excited and honored to have exceptional consignment lots.

We are really excited about this year's sale offering. Our goal has always been to raise fertile, functional, and efficient cattle while still maintaining a strong phenotype. We think this may be one of the best sets of young cattle we have ever offered as their pedigrees are stacked with proven producers. Our female consignments offer a wide variety of genetics as many are sired by AI sires. We believe that our bull offering includes numerous bulls with AI sire potential but are most excited about the group as a whole. All Strait Ranches branded bulls were developed in grass traps on the ranch in Streetman. We believe that everyone can find something that fits their programs.

We remain thankful that we get the opportunity to continue Dad's vision and legacy. We have a wonderful team at Strait Ranches consisting of Francisco "Frank" Garcia and Jesus "Chuy" Rodriguez. We are extremely thankful for their hard work and dedication. We invite you to join us on October 18th and 19th in Streetman for the sale. We would also love to have you out prior to this date to view the sale cattle. Online bidding will be available on sale day via DVAAuction.com. If you have any questions about our offering, please feel free to call Yancey (972.841.0989), Frank (Se Habla Espanol 979.533.3213) or Callie (210.837.1199).

We are so very thankful for each of you, for health, family, friendships, recent rains, lasting legacies and the power of hard work, dedication and Santa Gertrudis genetics.

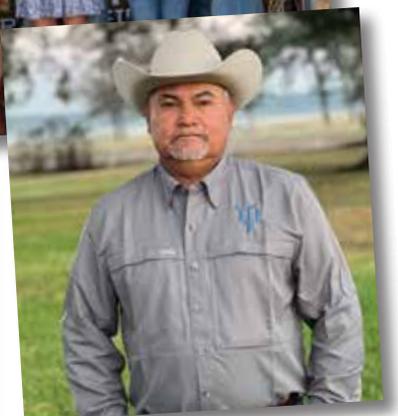

Many thanks,
The Y.N. Strait Family

Welcome

Dear Friends,

We are so grateful to be back at beautiful Strait Ranches in Streetman this year and we are pleased to offer one of the most uniform and exciting sets of cattle to date. The past year has been the most challenging in the five+-year drought we have been enduring. We are thankful that other parts of Texas have fared better than Hondo did this summer.

It feels stale to bring up the lack of rainfall constantly, but truth is, this ongoing drought has completely reshaped our operation and our herd. Being a seedstock breeder, one feels a considerable weight to protect and continue bloodlines. We have been compelled to make difficult decisions and culling this close to the quick leaves a heaviness in our hearts.

On the bright side, nothing drives progress like being forced to eliminate any extra head that aren't completely up to standard, and the performance and overall quality of our cattle has consequently improved immensely. As Kade said, "silver and gold come out a higher quality every time they are put into the furnace".

We believe our current bull battery is our best ever. Hefte Ranch H82, a Tomcat F14 son, stood out when he barely squeezed his moderate, yet extremely wide, frame into the chute for an eye-popping REA and IMF scan in 2022. His offspring have lived up to the hype. Hefte Ranch H120 ET, our Santa Gertrudis/Red Angus herd sire, has been a phenomenal producer also, and is allowing us to grade up some impressive offspring. We continue to use KR 191/13 genetics to add back exceptional breed character and maternal performance.

We are so pleased to have guest consignors included in this sale again this year. We would like to thank Ridge Point Ranch, Zach Denning, Black Tip Cattle Company and Reese Ranch for consigning Tried & True genetics from Hefte Ranch offspring. It is rewarding to see Tried & True genetics used throughout the Santa Gertrudis breed and we hope to see that influence continue to grow. Once again, our thanks go to the Strait Family for hosting at their beautiful ranch and for their unmatched hospitality on sale weekend.

Please take a moment to look over our offering and contact us to discuss any lots that interest you. We think this offering encompasses cattle that can work in a variety of operations, and we would be happy to let you know our thoughts on each individual consignment.

Truly,
The Hefte Ranch Family

Docility Score Descriptions

Score	Description
1	Very Comfortable- Bull stands quietly when evaluated.
2	Comfortable- Bull slowly walks when evaluated.
3	Uncomfortable- Bull walks faster when evaluated.
4	Nervous- Bull desires to return to herd when evaluated.
5	Very Nervous- Bull is aggressive when evaluated.

**The above scores are presented as an additional tool to assist in the selection process, but all bulls may act differently in new/different situations/locations.

LOAD OUT

Load out to begin after completion of the sale. The purchased animal is the sole responsibility of the buyer, but the sellers agree to maintain and care for all animals through Monday, October 21, 2024 at no additional cost. The seller is not responsible for any injury or loss after the animal is sold. If other arrangements are needed then those must be agreed to before the sale.

TRANSPORTATION

We have arranged professional hauling services to be available sale day for buyers needing animal transportation. Central ranch drop off locations across the eastern United States and Texas can be coordinated. If you have any questions or need transportation assistance please contact Darrell Pitchford, 903.388.2288

HEALTH PAPERS

Health papers for interstate shipment within United States will be provided for all animals.

SIGHT UNSEEN PURCHASES

All purchases made on order or through the internet are 100% satisfaction guaranteed upon delivery.

SR Ms Mpcat 0248/K is an own daughter of the \$46,000 SR Mpcat 30/F2 bull (owned by Vesper Ranch) and out of our Red Doc 0248 donor cow. 0248 is a paternal sib to the Red Doc Margarita 0050 cow owned by Wendt Ranch. We love our 30/F2 daughters and should be retaining this female in our herd. We feel like she is great representative of our program and the breed. Her performance metrics are strong with 108 WW and 104 REA ratios. We love the fact that she calved before her 2nd birthday. 0248/K has 9 EPDs ranking the Top 30% highlighted by a Top 4% MB EPD.

Strait Ranches retains the right to one flush or IVF procedure guaranteeing six (6) freezable embryos at seller's expense.

We purchased 45J in 2021 as a embryo. She is Strait Ranches top and bottom and a granddaughter of 190E. She will make a great addition to any herd. She was confirmed pregnant to the AI date. 45JET's EPDs are highlighted by her top 1% ranking for MB, 10% REA, 4% HP, and 5% BB.

2023 Sale Day Fun

LOT 9 - HEFTE RANCH L44

I put this beautiful, dark cherry red heifer in the picture pen fully anticipating that Kathryn would pull her out of the sale. To my surprise (and sadness), she is still here today and it is nothing short of our loss and your gain. Hands down this is one of my favorite females Hefte Ranch has ever offered or raised. She is backed by an incredibly strong pedigree and she performed just as her genetics said she should. Adj WW of 599 lbs. with a ratio of 110. Scanned 4.8% IMF with only .11 BF directly off grass! Hefte Ranch will be looking to add this female's genetics back into our herd at some point in the future, but for now, YOU will get to reap the rewards!

LOT 11 - HEFTE RANCH L23

Hefte Ranch H82 has made a big impression in our program, as you can see from the many bulls and heifers in this year's sale. This classy, dark red H82 daughter has a strong pedigree filled with Hefte Ranch favorites. Her dam, F55 is a seven year old cow with a 373 day calving interval after 5 calves. Her granddam is Hefte Ranch B33, dam of our Red Angus/Santa Gertrudis herd sire, Hefte Ranch H120 ET. L23 weaned at 535 lbs with a ratio of 105. She scanned 5.3% IMF with .28 BF off grass. Take a look at her strong carcass EPDs with top 1% MILK, top 5% BW and indices of 2-4-2.

LOT 12 - HEFTE RANCH L123 ET

If you want to add power and growth, but keep a clean look and high carcass quality, this H82 daughter is the pick for you. She was our highest weaning ET heifer and our highest yearling weight heifer out of the ENTIRE group - when you look at her you can sure tell!. Her dam, C98 has a 365 day calving interval with seven natural calves. It's not often we let go of any ET heifers, this is your chance to get in.

LOT 12

LOT 13 - HEFTE RANCH L83

Hefte Ranch L83 is as hard for me to let go of as Hefte Ranch L44, Lot 9. When you study this heifer it is hard to find a fault. She has an incredible hip, length of body, dimension, and femininity. She's smooth on the walk and has the performance to compete at an elite level. L83 is outcross genetics and when bred back to a purebred bull her calves will reach the 7/8ths status required for purebred status. We did the outcross work for you, now you get to enjoy one heck of a future cow.

LOT 14 - HEFTE RANCH L30

Hefte Ranch L30 is out of our donor cow Hefte Ranch D21 that is now owned by Old Agency Reserve. D21 has had an incredible influence on our program over the years and this will be the last female we offer out of her directly through Tried&True. Study this female all you want, you will not find much missing. She scanned 5.22 IMF and weaned at an adj. 743 lbs. with a 116 ratio! The performance is real folks, the opportunity is now.

LOT 14

LOT 15 - HEFTE RANCH L61

Hefte Ranch L61 is as easy on the eyes as a field full of green grass. Her sire Hefte Ranch H175 is as good of a bull as we have ever used on Hefte Ranch. His performance and phenotype have been really consistent and L61 is proof of that. She ties in KR 191/13 and the A43 cow line that goes directly back to Dunlap Harper, as well as SR Genesis and LJV Mason genetics.

AI 05/30/2024 to KINGS AMIGO 766/20 (20205189). PE to RED DOC POBLANO 3270 (20233233) and HEFTE RANCH K89 (20222946) from 05/31/24 to 08/10/24.

Hefte Ranch L13 is a hidden gem for someone. Her full brother, Hefte Ranch K34 is an up and coming herd sire in our program. Their dam, F47 is a powerhouse with a 367 day calving interval with 5 calves produced. We are putting a lot of weight on these genetics for the future. We have seen strong weaning weights, as well as incredible feed efficiency data coming from this line of genetics.

*As an H120 daughter, this heifer is 3/4 Santa Gertrudis, 1/4 Red Angus - when bred to purebred Santa Gertrudis, her calves will be registerable as purebloods.

Hefte Ranch L52 is a classy little heifer that ties in old Hefte (Dunlap Harper) genetics with the modern performance of H120. She scanned a 5.3%IMF with .25 BF. I think you could go a lot of different ways mating this heifer and be happy with any of them.

*As an H120 daughter, this heifer is 3/4 Santa Gertrudis, 1/4 Red Angus - when bred to purebred Santa Gertrudis, her calves will be registerable as purebloods.

L12 is a polled Jackpot 5369G8 daughter. On her dam's side, she goes back to KR 191/13 and and our A43 donor cow. A43 has always been a sentimental favorite for us as she carries Dunlap Harper genetics. **DNA IN PROCESS**

LOT 30

LOT 31 - SR MS SAVAGE 23/K11 ET

SR Ms Savage 23/K11 ET is sired by FC Savage 25/4 ET and out of top donor cow, SR Hazel 23/7, who won the Fort Worth, San Antonio, and Houston Jr Shows and was all National Open Champion in 2020. We first became familiar with the Savage bull in 2018 when his steer calves possessed excellent carcass data on the SGBI Steer Feedout and later learned he was out of the powerful FC Duchess 32/1 donor cow. 23/K11 combines two of the more powerful modern Santa Gertrudis cows in her pedigree. We think the sky is the limit with this heifer. 23/K11 has 5 EPDs that rank in Top 40% highlighted by a Top 20% WW, YW & REA.

If you're looking for your future donor, or a female to take you to the next level in the show ring, here she is. We are excited to offer NTR Glamorous 69/4, a striking June-born heifer! She is the first daughter to be sold from our exceptional herd sire we purchased from the Tried and True sale in 2022, SR Genuine 23/H, a direct son of National Champion SR Hazel 23/7. Dive into her pedigree and you'll find a lineage of excellence. Featuring some top-tier genetics from the Hazel and Holly cow families, to sires like LJV Mason, Copperhead, and Genesis, along with over five generations of NTR-bred cows, tracing back to the DCR 94/251 "Red Rider" bull. Beyond her impressive papers and balanced EPDS, NTR Glamorous showcases remarkable length, depth of body, power, and combines all that with an exceptionally sweet disposition,—truly a standout heifer! Special Note: She will be surgically dehorned prior to the sale. She will still be on the side of the cow at the sale, but can be weaned the day of the sale. **DNA IN PROCESS**

In the Red Ranch retains the right to one flush or IVF procedure guaranteeing six (6) freezable embryos at seller's expense.

CL Cleopatra ET 13 is sired by FC Big Shot 38/9 (owned by Flying C Ranch) and out of SR Hazel 23/7. We purchased the pick of the cowherd flush from Strait Ranches in the 2022 Tried and True Production Sale and chose to flush SR Hazel 23/7. SR Hazel 23/7 was named Grand Champion at the Fort Worth, San Antonio and Houston Junior Shows as well as SGBI Open Show National Champion and Champion of the World. CL Cleopatra's full sister owned by Bar M Farms was recently named Reserve Calf Champion at the Indiana State Fair and Ohio State Fair.

Consistent production is enhanced through line breeding and this heifer's pedigree goes back to Winrock New Millenium 5 times and Grizzly 3308 3 times. This heifer is a donor in the making backed by the some of the strongest genetics in the Santa Gertrudis breed. **DNA IN PROCESS**

This halter broke baby doll show heifer is out of Hefte's Captain King and a Ridge Point cow that was shown by McRae Clay. The mama has remained in the herd as she is an easy keeper with a good udder and has a calf every year. Ridge Point purchased 1/2 interest in Hefte's Captain King (sire) at the 2022 Strait-Hefte Tried & True. His EPDs are great with 10 traits in the Top 25%. Just to note, his breeding index is 3% and his term index is top 2%. This heifer calf is just going to grow. If you are looking for a show calf or a future mama cow - your search is over. 442 is very balanced with 9 EPDs ranking in the Top 35%.

LOT 81 - SR RUSHMORE 6054/L

SR Rushmore 6054/L is the first son of SR Paramount 30/H4 that we have offered for sale. Reese Ranch purchased Paramount for \$27,000 at the 2021 Tried & True Sale and he continues to exceed our expectations (semen is available for sale). He is out of the beautiful 6054/J donor cow who is maternal sister to the SR Marksman 33/19 bull owned by Flying Double A in Georgia. 6054/L has consistently exhibited his performance with a WW ratio of 115, YW ratio of 112, REA ratio of 110, BF ratio of 131 and IMF ratio of 103. 6054/L has 9 EPDs ranking in the Top 30% and indices of 3-5-3.

LOT 81

LOT 82 - HEFTE RANCH L50

Like father- like son! This thick-made, moderate framed bull is a great representation of herd sire Hefte Ranch H82. On his maternal side, L50 is a half brother to Hefte Ranch K50 that sold last year at T&T to Kyle Kerlick. Raising high quality bulls is no easy feat, and L50's dam, Hefte Ranch H25 has done it with ease on her first two calves. We appreciate the consistent quality, especially when they are gentle, deep-bodied, powerful bulls! Hefte Ranch L50 scanned a 16 inch ribeye and is ranked in the top 1% for REA, as well as top 10% for marbling. Ten EPD traits in the top 40% and indices of 2-5-2.

LOT 83 - HEFTE RANCH L128

Style, thickness, docility, stucture... the list goes on and on for Hefte Ranch L128. His dam is a young cow we purchased from Creech Farms and she has produced two herd sires in a row. The first being Hefte Ranch K89 who is one of the service sires to all the Hefte Ranch bred heifers in this sale, and the second being L128. He scanned a 16.4 inch ribeye and posted a 1370 lb YW. L128 has six EPD traits in the top 4% or better and indices of 1-3-5. We appreciate a whole lot about this bull, and think you will too.

LOT 83

LOT 84 - SR ROLLIN' STONE 23/K8 ET

SR Rollin' Stone 23/K8 ET is a son of QVF Red Rock 8211 and is out of Nat'l Champion SR Hazel 23/7. He is a great combination of performance and phenotype on both sides of the pedigree with KR Chosen One 651/18, Harris 82/4 (dam of the Nat'l Ch The Warden 82F1), and LJV Mason 0/72 (performance sire with 2 Nat'l Ch daughters). He had a yearling IMF ratio of 103. 23/K8 has a balanced EPD profile with 8 EPDs in the Top 30% highlighted by Top 10% WW, REA and MB EPDs.

LOT 85 - SR POWER SURGE 117/K2 ET

SR Power Surge 117/K2 ET is an own son of Wiley Ranch's SR Surge 4/19 and is out of the Creech 117-5 donor who combines the genetics of Grizzly's Chunk 0525, Never Before 1136 and Creel Farms. We purchased some embryos from Creech Farms at a Houston Super Sale and he is a result. As you can see we are doing our best to produce power cattle with EPDs and performance. He had a YW ratio of 105, REA ratio of 103, BF ratio of 127, and IMF ratio of 126. 117/K2 has 8 EPDs that rank in the Top 25%, highlighted by a Top 5% MB EPD.

LOT 85

LOT 86 - HEFTE RANCH L25

Lot 86 and Lot 87 mark a special moment for Hefte Ranch. These bulls are the first direct sons out of Hefte Ranch Z01 that we are offering as registered herd sires. Hefte Ranch Z01 is the top donor cow in our program. Fertility, stayability, marbling – Z01 puts it all in a feminine and structurally correct, moderate package. We have been intent on keeping these genetics proprietary for a long time, but have decided this is the year to let them out. Z01 has a perfect 365 day calving interval with 11 calves produced! She has even maintained an annual fall calving schedule despite being flushed three times.

LOT 86

The longevity, fertility and balance in her offspring is absolutely incredible. Hefte Ranch L25 portrays this in many ways. He is a stout-made bull that has plenty of bone and rib, smooth on the walk with sound structure, gentle and easy to handle. Take note of his nine EPD traits in the top 25% and 3-5-4 indices. This bull is one that can work in many different scenarios. Feel free to call and let's talk about the options!

LOT 87 - HEFTE RANCH L114 ET

Hefte Ranch L114 ET is the ET product of the same mating as L25 above. This scurred bull has the same bone, power and overall quality as his horned brother. On the top side you can see the depth of the quality of these H82 sons. H82's dam is also in our donor program, and making impacts with her own ET calves. L114 also ranks in the top 25% for nine traits. We cannot say enough great things about this H82 and Z01 mating – it is one we would spend the money to do again!

LOT 87

LOT 88 - SR BEDROCK 6054/L2

SR Bedrock 6054/L2 is a QVF Red Rock son out of our Red Doc 6054 donor cow who has 363 day average calving interval after 7 natural calves. This bull is a maternal brother to Marksman and Strategist, two prior Tried & True high sellers. 6054/L2 had a WW ratio of 108 and YW ratio of 100. 6054/L2 presents a balanced EPD profile with 10 EPDs ranking in the Top 30%. We hope you study his EPDs and indices.

LOT 89 - SR WORLDWIDE 30/L12 ET

SR Worldwide 30/L12 ET is a Red Doc Todo son out of one of the best cows to ever walk the pastures at Strait Ranches and one of the breed's most prolific donors, SR Arkoma 30/0. He is a maternal sib to Mpack 30/F2, SR Genesis 75/3, SR Surge 4/19, SR Paramount 30/H4 and many others. 30/L12 performed well in his ET contemporary group. 30/L12 has 8 EPDs in that rank in the Top 25%.

LOT 89

LOT 90 - HEFTE RANCH L15

It's hard to make a Gert bull like Hefte Ranch L15. He moves like a cat and has a hip and muscle structure that blows you away. Look at his picture, watch him walk and move... the more you do the more you will appreciate him. Not to mention his performance and EPD set. The hardest part of this decision is finding a reason to talk yourself out of buying him.

LOT 91 - HEFTE RANCH L55

Hefte Ranch L55 is one of Kade's favorite bulls in the sale. You could paint this bull any color you wanted and he would be appealing to cattlemen across the country. He has caught our attention ever since he was a baby and it will sure be hard to see him leave the ranch. *As an H120 son, this bull is 3/4 Santa Gertrudis, 1/4 Red Angus - when bred to purebred Santa Gertrudis, his calves will be registerable as purebloods.

SR Paramount 0248/L2 is an ET son of SR Paramount 30/H4 out of our Red Doc 0248 donor cow, a paternal sib to the Red Doc Margarita. We fed 6 Paramount sired steers this spring and 5 of 6 graded choice. If you are looking for a moderate framed meat wagon this might be your choice. 0248/L2 has 9 EPDs that rank in the Top 30% and indices of 15-10-20.

SR Paramount 0248/L4 is a full sib to 0248/L2 in our bull sale and 0248/L5 in our female sale. He is also a maternal sib to one of our leading female lots, 0248/K. If I had a large group of cows to breed I would be interested in both of these bulls. 0248/L4 ratioed over 100 for YW, REA and IMF. 0248/L4 has 8 EPDs in the Top 35% and indices of 20-25-20.

We purchased Hefte Ranch L43's Dam Red Doc Better Get It 0004 at the 2022 Red Hot Sale and she is one powerful cow. L43 was her first bull calf produced for us and we are sure proud to have raised him. L43 is yet another H82 son that goes back to RDF Bonita on on the bottom side. Strong EPDs across the board. Consistent quality, proven genetics... it no wonder he is as good as he is.

Hefte Ranch L93 is a H120 son that is full of high quality growth and frame. He was the high gaining bull on a spring gain test gaining 4.8 lbs per day. Look at the depth of body, bone and hip structure on this outcross bull. *As an H120 son, this bull is 3/4 Santa Gertrudis, 1/4 Red Angus - when bred to purebred Santa Gertrudis, his calves will be registerable as purebloods.

Hefte Ranch L31 is a typical Hefte Ranch G70 Final Draft son. The G70 Final Draft bull is owned by Five J's Beef and Cattle and has proven himself as a purebred and star 5 producer. L31 has a big round muscular hip and a gentle disposition. Not to mention he is out of one of our elite young females, Hefte Ranch J102 - she is the highest scanning purebred female on the ranch, scanning 7.42 IMF directly off of grass. These marbling genetics run deep on the cow side, and have been passed along to L31 - he scanned 5.19% IMF with only .24 BF! Power X Carcass...hard to find.

Hefte Ranch L76 is a high growth bull with great maternal EPDs. He brings tremendous carcass quality as well as a powerful phenotype. The bottom side of his pedigree goes back to Hefte Ranch A51, one of the strongest cow lines on the ranch. I would expect fast growing calves and complete, structurally correct females out of this bull. He boasts nine traits in the top 35% and indices of 2-4-2.

Hefte Ranch L47 is another bull that ties in F14 Tomcat and SR Genesis genetics. The hidden gem in this bull's pedigree is on the bottom side in the D11 cow. She sadly passed at a young age, but the performance she passed along to her offspring was ahead of her time and continues on in our herd. I would sure think you see that pop in this bull's calves over time. In addition, L47 has incredible EPDs across the board.

Tulissin[®]-100-

(tulathromycin injection)

Protect Your Investment

If you trust tulathromycin, then you need TULISSIN[®] 100 injectable solution.

Built-in Protective Shell

Patented container design on the 250mL and 500mL bottles features an easy-grip silicone shell that offers excellent shock-absorption properties that protect against breakage.

Scan the QR code to see the shock-absorbing shell in action.

Ask your vet about TULISSIN[®] 100 injectable solution

IMPORTANT SAFETY INFORMATION FOR CATTLE

TULISSIN[®] 100 (tulathromycin injection): Not for use in humans. Ensure a pre-slaughter withdrawal time of eighteen (18) days in cattle. Do not use in dairy cattle 20 months of age or older, including dry dairy cows. Use in these cattle may cause drug residues in milk and/or in calves born to these cows. The effects of tulathromycin on bovine reproductive performance, pregnancy and lactation have not been determined. Do not use in animals known to be hypersensitive to the product.

BIDDING

Each animal will be sold to the highest bidder without reserve. The auctioneer will settle any disputes as to bids and his decision on such matters shall be final.

TERMS

Each animal becomes the risk of the purchaser as soon as sold, but it shall be the obligation of the seller to see that animals are fed and cared for until loaded for shipment or until Monday, October 21, 2024, whichever occurs sooner.

CERTIFICATE OF REGISTRY

A transferred certificate of registry will be furnished to the purchaser for each registered bull or registered female once proper settlement has been made.

HEALTH

Health papers for interstate shipment within United States will be provided for all animals.

ANNOUNCEMENTS

Any changes from the information of any kind in this catalog will be provided in a sale day supplement sheet or announced from the auction block and such information shall take precedence over cataloged information.

BREEDING GUARANTEE

All animals are guaranteed to be breeders with the exception of: a) calves under 12 months of age; b) animals shown by purchaser after sale in which the guarantee (if any) shall be between the seller and the buyer; c) injury or disease occurring after the sale; d) gross negligence or willful misconduct on the part of the purchaser; e) death by any reason.

Any bull which either a) settles 1/3 or more of the healthy cows he serves; b) is the sire of 20 or more animals; or c) settles cows by natural service and passes a fertility test made by a competent veterinarian during any 6 month trial (provided for in the section of these sale terms and conditions entitled "Options and Privileges of Return or Adjustment" shall be considered a breeder. All partial interest bulls are guaranteed to produce freezable quality semen.

Safe in calf females have been examined by competent personnel and are so guaranteed. Exposed females have been exposed but are not guaranteed to be safe in calf. Open females have not been served and are so guaranteed.

PREGNANCY DETERMINATION

The females in this sale noted safe in calf have been determined pregnant by physical palpation. Our best estimate of service sire will be given in the case of the females with both an A.I. sire and a natural breeding sire.

OPTIONS AND PRIVILEGES OF RETURN OR ADJUSTMENT

The following adjustments do not preclude the right of the Purchaser and Seller to mutually agree upon other terms and conditions for settlement of any dispute. All claims for adjustment or refund must be made in writing either within six (6) months from the date of sale or no later than when the animal reaches 24 months of age, whichever occurs later, with the exception of claims involving parentage or defects. All returns or refunds will be paid in the form of a replacement animal of similar quality or in credit for use on any products marketed by the seller. a) This credit will be limited to the purchase price less the salvage value of the animal.

1) In the event an animal is claimed to be a non-breeder, the animal may be returned to the ranch of the Seller, at Purchaser's expense, if in good physical condition, and the return is in compliance with the health requirements of the Seller's state. The Seller shall be entitled to a six (6) month trial period following the return of the animal in which to prove that the animal is a breeder. If at the end of six (6) months, the Seller is unable to prove the animal is a breeder, the seller shall, at the option of the Purchaser, replace the animal with another of similar value or grant the Purchaser a credit on any products marketed by Seller. Either of these options shall be deemed full satisfaction and settlement. If the Seller proves the animal to be a breeder, it shall be the obligation of the Purchaser to take delivery of the animal and pay all expenses incurred for transportation. 2) If a registered female sold as "safe-in-calf" proves not to be in calf (by the projected due date listed in the catalog or sale day supplement), the Purchaser may receive service from the bull previously used, if available or if the bull is not available the Seller shall be obligated to credit or refund the Purchaser \$400. Any adjustment provided for herein shall absolve the Seller from further liability, except in case such female proves to be a non-breeder. If a female represented as "safe-in-calf" at time of sale to a certain bull proves to have been bred to a different bull, the Seller shall be obligated to reimburse the Purchaser up to \$600

(adjustments shall not be considered to be a breeding fee or an allocation of the purchase price to any unborn calf). This does NOT apply to any female exposed to more than one bull via artificial insemination and/or natural service. Any expenses incurred for transportation shall be the responsibility of the Purchaser. 3) If a female sold as "open" proves to be with calf, the Purchaser may return the animal to the ranch of the Seller prior to calving for a credit of the full purchase price or for another animal of similar value, whichever is acceptable to the Purchaser. It shall be the obligation of the Seller to bear any expense incurred for transportation.

If a bull is sold and at a later date proves not to be eligible for registration under association rules, the seller shall be obligated to make a satisfactory adjustment on the purchase price to the buyer, refund the purchase price or issue a credit for the initial selling price upon the return of the animal to the farm of the seller.

If an animal is sold and through DNA is proven to have incorrect parentage as represented by the certificate of registration, and for which the parentage can be determined, the seller shall be obligated to make a satisfactory adjustment on the purchase price to the buyer, refund the purchase price or issue a credit for the initial selling price upon the return of the animal to the farm of the seller.

RIGHTS AND OBLIGATIONS

The above terms and conditions of sale shall constitute a contract between the buyer and seller of each animal and shall be equally binding on both. Other than the guarantees and warranties stated above, no other warranties or guarantees are expressed or implied. Each sale or resale of an animal constitutes a separate transaction.

LIABILITY

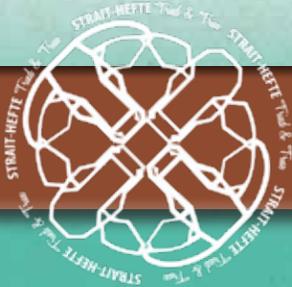

All persons who attend this sale do so at their own risk. The owners or any other person connected with the sale assumes no liability, legal or otherwise.
