CUSTOM IRRIGATION FOR PERFECT RESULTS

PLT Irrigation delivers full-service irrigation projects — all in one place.

Turnkey Irrigation.
From Concept to Field.

WHY PLT IRRIGATION?

At PLT, we deliver turnkey irrigation and fertigation solutions.

We don't just sell parts. We sell performance.

Our job isn't done until your system is up, running, and delivering optimal performance.

- ✓ Our team has over 13 years of hands-on experience
- ✓ 20,000+ acres of open field systems and greenhouses implemented worldwide
- ✓ Designed and implemented 250+ irrigation projects ranging from 1 to 2,000 acres

WHAT YOU GET WITH PLT IRRIGATION?

From project initiation to system start-up and maintenance - we handle every stage of your irrigation project.

01

PROJECT INITIATION

Concept development, feasibility study, crop-specific recommendations, preliminary estimation

02

EXPERTISE & AUDIT

On-site audit of existing irrigation systems. We'll troubleshoot and resolve system issues

03

DESIGN

High-precision hydraulic calculations, 3-D modelling, project book, site plans & installation drawings

04

EQUIPMENT SUPPLY

Carefully selected equipment from trusted U.S., Israeli, and EU brands

05

INSTALLATION

Supervising, on-site installation and system start-up

06

SERVICE

Warranty, after-sale and repair services, maintenance & customer support

FROM LETTUCE TO LEMONS - WE'VE GOT YOU COVERED

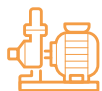

We custom-engineer each system to match your crop, soil, climate, and budget. PLT Irrigation combines full-service project management with technical precision to help you maximize yield and minimize waste.

TOP-QUALITY EQUIPMENT. NO COMPROMISES.

We supply only field-proven components from renowned brands - built to perform and last:

Pumping Stations

Filtration and Water Treatment

Dosing and Fertigation

Automation

Emitters

Piping

Valves

Tanks

Everything is tailored. Nothing is off the shelf.

FAST QUOTES. FASTER DECISIONS.

Don't wait weeks to find out if a project fits your budget. At PLT, you'll receive a free, no-obligation preliminary estimate - often within days.
