• XY cradle movement on main shaft

• Safety rails & tool storage

No need to dig a pit with the B&D Swing Shaft Changer

Finally an easy, fast and safe way to replace and service the swing shafts for the P&H 2300, 2800 and 4100 shovels.

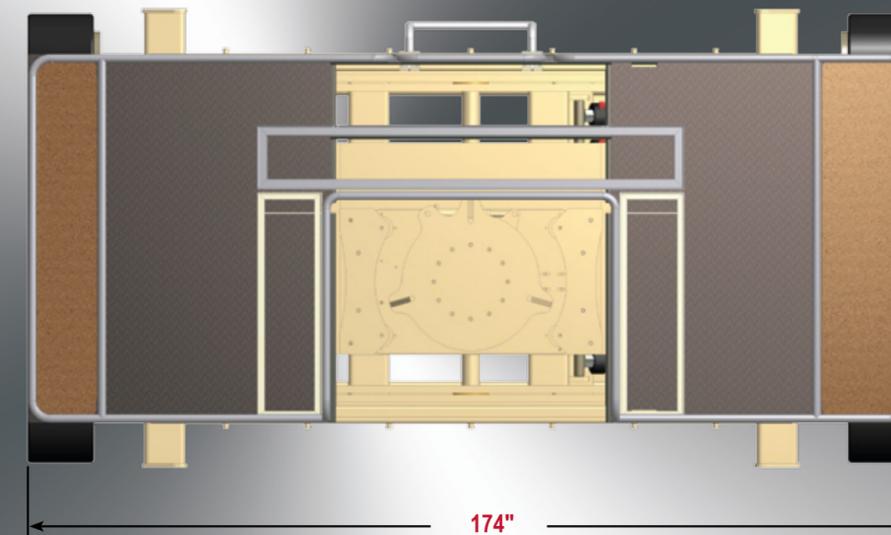

Featuring a 7-axis full function swing shaft placement machine

- Base scissor lift extends 4 ft.
- Main deck has 10" X movement and 12" Y movement
- The main tower is mechanically linked by 4 Acme threads providing 5.5 ft. of stroke
- The main swing shaft table has an XY cradle movement (up to 6 degrees of motion) which gives the ability to place the shaft within a sphere
- The final axis is a 30 degree rotation of the main swing shaft table (this accommodates meshing of the gears)
- Allows for safe and efficient removal and installation of the swing shaft on a P&H 2300, 2800 or 4100 shovel
- Rated load 7000 lbs.
- 7.5 HP electric motor and 110 VAC control logic
- 3 GPM 2800 PSI manual hydraulic control system
- Provides a safe work platform with hand railing and tool storage
- Base machine weighs 6.25 tons or 12,500 lbs.
- Forklift handling for positioning with hydraulic track drive for fine control
- Straightforward, easy to use design
- Mechanic friendly

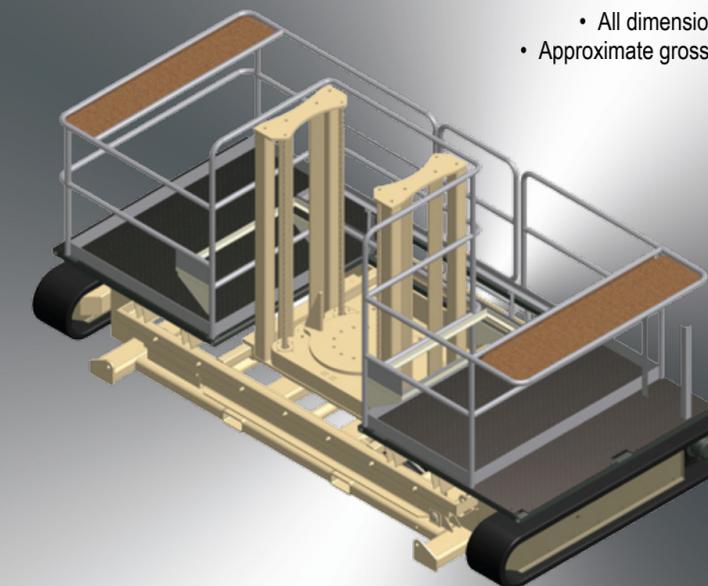

Servicing

Your B&D Swing Shaft Changer is backed by B&D's One-Year Service Warranty Policy. In addition, it comes with a fully equipped service manual. B&D's skilled technicians are available for Field Commissioning and Service Maintenance.
