

## **About Slim**

Marina, aka 'Slim', has attended a number of wilderness survival and wildlife tracking classes throughout her life, but recently felt herself being called back to the forest and the pursuit of more esoteric studies following a number of personal experiences begging an alternative explanation. She enjoys camping alone in the woods and lived off the land during a 10-month apprenticeship on occult eastern practices and meditation in rural Colorado. Marina holds a B.A. in Philosophy and continues an extensive self-study of metaphysics and aesthetics. She hosts leading-edge speakers in parasciences, mystic arts, alternative healing, and outdoor / wilderness subjects at a private venue in the Asheville, NC area. 'Slim' is the Assistant Director and lead field photographer of the Asheville Cryptid Society investigation team. Slim is also a co-host on Fringe Investigations with the Cryptid Guy and M&D Paranormal.
