

ARRIVAL INSTRUCTIONS

Our Private dock is #46, you are welcome to use this slip for your own boat or if the water taxi is dropping you off. This dock is small and narrow, so please be very careful.

It is easier on you to have the water taxi drop you here because you can push the hand cart right up to the house. The Gulf Street dock, #48 semi-private dock, is intended for the use of Gulf Street houses only, is also available for your use. There are 8 boat slips and always room for a boat if you are bringing one.

At the end of the Gulf Street dock our house will be the second one on the right. Yellow siding with a tin roof. House number 8894 Gulf Street.

We have two large gray baggage push carts under the house for you to haul your stuff to the house. Please put them back under the house when you are done, don't leave them near the dock, other people will think they are for their use. Please DO NOT let kids play with them.

Arrival and departure instructions for opening and closing the house are posted on the refrigerator. There is also a notebook, which should be left on the small table near the door, with instructions and illustrations on how to turn water on and off.

Please replace the key immediately after you open the house.

Then it is there when you need it. Be careful with the front doors: when the button is locked, you can still open the door from the inside, so you may not be aware that it is in the locked position. An additional key is inside hanging on a hook near the door. Another key is in a lockbox on the porch.

TURN WATER ON FIRST.

Please be sure to follow the directions for turning on the water carefully. These instructions are on the refrigerator. Turn the water on BEFORE you turn any breakers on. Make it the first thing you do. Open the house, read the instructions, turn on the water. The reason why this is very important: If you turn on the hot water heater breaker before you turn on the water valve. The water level in the tank may be low, the heating elements could be exposed to air and not water and BLOW out the element. PLEASE FOLLOW DIRECTIONS CAREFULLY. Thank you.

Call if you have any questions. 813-355-6156, or 813-355-6155. Please don't hesitate to call with any questions or concerns whatsoever. We want your stay to be as comfortable and carefree as possible.
