

Wild Acorns – Our brand-new learning programme

We're excited to introduce our new Wild Acorns Programme — a wonderful new part of the Golden Acorns experience, bringing nature, outdoor learning and a sense of adventure into our everyday curriculum.

At Golden Acorns, we believe children learn best when they are given the freedom to explore, discover, wonder and experience the world around them. Wild Acorns will be woven throughout our curriculum and our Hygge approach, creating meaningful opportunities for children to learn both indoors and outdoors.

What will Wild Acorns look like?

Our children will have opportunities to:

Explore nature and the changing seasons

Go on woodland walks and outdoor adventures

Discover insects, plants, trees and wildlife

Embrace the outdoors in all kinds of weather

Build dens, shelters and natural creations

Wild Acorns – Our brand-new learning programme

Use natural materials for creativity and art

Enjoy stories, songs and cosy experiences outdoors

Learn to care for and respect our environment

Enjoy calm, mindful moments surrounded by nature

Wild Acorns will support every area of our curriculum, helping children develop their confidence, independence, communication, physical skills, creativity, problem-solving and understanding of the world.

Most importantly, it will be about giving children the time and space to slow down, be curious and enjoy childhood.

This is at the heart of our Hygge approach — creating warm, nurturing and homely experiences where children feel a sense of belonging, comfort, wonder and connection.

Wild Acorns – Our brand-new learning programme

Wild Acorns. Growing curious minds, adventurous spirits and a love for the

natural world.

This is the Golden Acorns Way.
