Thank You for Supporting Us

2024 has been an exciting year for Driftwood Ministries. After 3 years of searching for an off-grid island property we were able to secure land. In July we purchased a 14 acre piece of land in the backcountry of the Florida Keys. We could not have done this without the support and sacrificial generosity of our family, friends, board members, and donors like you. But most of all we couldn't have done anything without our amazing and awesome GOD. We are finding such joy in watching Him move and put the pieces together. We are just getting started!

How can you help?
