Avalon II: Dive Jardines de la Reina

February 20 – 27, 2027

Following our Havana experience, we travel to Jucaro to board the Avalon II for 7 days of diving Cuba's Jardines de la Reina National Marine Park and Gardens of the Queen aboard the luxury scuba diving liveaboard All Star Cuba. Situated on the south side of the island of Cuba 60 miles from shore, Jardines de la Reina Marine Park (Gardens of the Queen) is an 840-square mile playground with an abundance of fish species, macro-critters, 6 species of sharks and colorful corals of all textures and shapes. Because these nutrient-rich waters have been protected and are free of outside influences, its underwater inhabitants are extremely friendly and inquisitive. The park is protected from wind and marine currents and offers a variety of dives including walls, reefs, tunnels, coral caves and canyons. One can even snorkel with crocodiles.
