Let us tell you something **ABOUT US**

From breakdowns, Labour Hire, call-outs to undercarriage rebuilds and repairs, whatever your project requires, Certified Mechanical, fully qualified team committed to reducing your downtime while working to the highest possible standard.

Certified Mechanical Services is a mobile mechanical provider catering to the mining, civil, agricultural, and road transport sectors. Since its establishment in 2021, the company has proudly serviced Western Australia as a direct vendor and has also offered contracting services in the Northern Territory. With a strong foundation built on years of

experience, our Owner and Director brings over 16 years of expertise to the company, establishing a reputation for excellence and professionalism within the industry. Our commitment to quality has not only set us apart from competitors but has also fostered lasting relationships with clients who value our dedication to delivering superior results. As we continue to grow, we remain focused on upholding the highest standards of service and innovation, ensuring that we meet the evolving needs of our clients in these regions.

Our agile team of Heavy Duty Diesel Mechanics is ready to tackle any challenge, committed to problem-solving and exceeding client expectations. We prioritize aligning our services with our clients' needs, striving for continuous innovation by staying updated with the latest industry technologies to enhance safety and productivity.

CMS employs a team of highly specialized and knowledgeable professionals who are dedicated to providing round-the-clock breakdown services. Our staff is equipped with extensive expertise and experience, ensuring that we can address a wide array of mechanical issues promptly and efficiently. In addition to our skilled personnel, we utilise a comprehensive selection of advanced diagnostic tools that are of the highest quality, enabling us to accurately identify and resolve problems. Our mechanical services encompass a full spectrum of repairs, including the rebuilding of machines and components, dozer track frame repairs, as well as hydraulic and electrical diagnostics. This commitment to excellence ensures that our clients receive reliable and effective solutions tailored to their specific needs, reinforcing our reputation as a leader in the industry.

WHAT MAKES US DIFFERENT?

We are driven by our values, focused on finding solution and backed by a strong team of knowledgeable individuals. Our rapid growth and demonstrated history of excellent customer service has been a testament to our core values.

Values
