Staff Announcement

Changes to New Mexico WIC Items for April 1st, 2026

State office is reaching out to notify staff of several important changes being made to New Mexico WIC's approved or eligible foods. In 2024, the USDA further restricted cereal and yogurt categories by decreasing allowed amounts of added sugar and increasing required amounts of whole grains, iron and Vitamin D.

- Effective March 31st, 2026, there will be a large removal of ineligible food items that includes: **all 12oz frozen juices, all 48oz bottle of juice ~80 cereals and ~200 yogurts.**
- These changes will be reflected in the MyWIC app on 04/01/2026. Below is a list of all cereals & yogurts that will be **deactivated** on 3/31/26. This list is to help staff address clients with concerns regarding specific items. **Do not share or distribute this list to clients.** This list is subject to change.
