UPCOMING AWARD FOR DOUG SPARKS

Top 100 Healthcare Visionaries - IFAH

THE WOODLANDS, TX, March 14, 2021 — On Monday, March 8, 2021, Precision VBM CEO and Founder, Doug Sparks was notified that he will be an awardee at the [International Forum for Advancements in Healthcare Conference](#) to be held at the MGM Grand in Las Vegas on June 23-25, 2021. The award is for the Top 100 Healthcare Visionaries for his work with Precision Value Based Management. (please see attached)

In 2019 Doug was recognized as one of the Top 100 Leaders in Healthcare globally for his earlier work with Precision VBM. In 2018 his company, DPT Healthcare Partners was selected as one of the Top 10 Innovative & Technology Companies in Healthcare at the SmartHealth Conference for a model he developed and operated for 17 years.

[Precision Value Based Management](#) owns the very technology that grades and ranks physicians for payers, hospital systems and ACOs, with over 21 million patients currently being tracked. We know exactly what is expected of each physician practice. For example, even if you did Annual Wellness Visits/AWV and Health Risk Assessments/HRA for every patient, you will still be penalized for failing to act on medical necessities found within those results. Physicians are completely unaware this is even happening. Only our platform can identify these deficiencies, engage your patients, and drive this missed revenue for you!

Precision Value Based Management performs everything from full turnkey value based and ancillary solutions, to white labeling for strategic partners, to pay per click with large institutions. PVBM service targets are providers, organizations and groups, hospitals and ACOs, ancillary service providers and their reps, ALFs/SNFs/Home Health and EHR providers.

If you would like more information about this topic, please call Doug at 949-584-5960, or email doug@precisionvbm.com – www.precisionvbm.com

Overall Reach

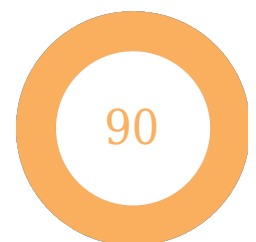

Overall reach refers to the total number of different people/groups exposed to your product/service. In addition to the popularity of your business offering, this parameter is directly proportional to the need of the industry.

Cutoff Score - 75

Industry Impact

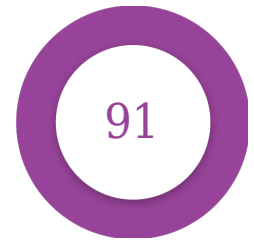

This parameter is used to judge the impact of your product/service on the corresponding sector. Our awards committee (co-chairs and management) looked into the available information on public platforms as well as the information submitted as part of the nomination.

Cutoff Score - 75

Spirit Of Innovation

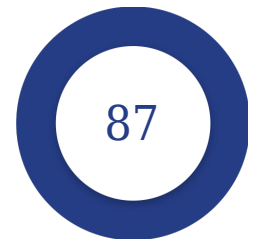

Industries across the globe are witnessing innovation at breakneck speed in products and services. The recent advancements are leading the charge by bringing new perspectives and solutions to the industries they are being applied to, thanks to individuals and organizations committed to the effort.

Cutoff Score - 75

Future Readiness

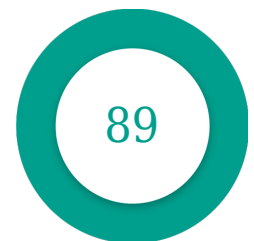

Major industries across the world are being challenged with substantial pressure being applied on existing resources to address the growing demand and population. Newest developments centered around the industry can help break the status quo and ensure that they deliver similar or even better performance, without compromising on the quality delivered.

Cutoff Score - 75

Market Demand

Market demand refers to the demand for a given product or service. The awards committee (co-chairs and management) looked into the need for a product/service at scale in the corresponding industry, linked to the use of recent advancements.

Cutoff Score - 75

Aggregate Score

The final score is calculated by taking an aggregate of the above 5 scores. The percentage calculated helps define the final position of the nominee on the given awards list.
