

Precision Value Based Management

Thank you for your interest in our company. Please take one minute and review this short summary. At the bottom you will find a link to our company video as well as a [Two Minute Overview](#) with [Term Sheet](#) and [Proforma](#). Thanks again and we sincerely look forward to working with you.

[Physicians are losing out on hundreds of thousands of dollars annually in missed mandated value-based metrics and population health assessments not supported by their EHRs.](#)

Most physicians think that they are already doing these things via their EMRs. Not true! Our [Initial Practice Analysis](#) record for a physician achieving best practice potential is only 8%, and they had a staff of three that did nothing but these tasks. Further evidence that only technology can manage these demands! Your EMR is a forensic tool in that it only tells you what you did and not the hundreds of things you missed. It also can't engage your patient to complete the task. Only PVBM can!

[Precision Value Based Management](#) owns the very technology that grades and ranks physicians for payers, hospital systems and ACOs, with over 21 million patients currently being tracked. We know exactly what is expected of each physician practice. For example, even if you did [Annual Wellness Visits/AWV](#) and [Health Risk Assessments/HRA](#) for every patient, you will still be penalized for failing to act on medical necessities found within those results. Physicians are completely unaware this is even happening. Only our platform can identify these deficiencies, engage your patients, and drive this missed revenue for you! [Get your complimentary analysis today!](#)

[Benefits to the physician:](#)

1. Engage entire patient population with one click rather than waiting for them to appear on your office schedule. Scaled up revenue NOW!
2. There is no upfront cost, and nothing is owed until after insurance pays.
3. [Workflow is amazingly simple](#) with minimal burden on your office staff. Simply share our color coded results with your patients and you bill for our assessments and an office visit.
4. Physician keeps 80% of the revenue if you use your own MA, or 60% if you use our staff. Most physicians use their own staff for the low hanging fruit and then may choose to option ours for lists of patients in need of further follow up. Other physicians want us to do everything and not impact their staff at all. Best of all worlds. [Please see our Patient Engagement website.](#)
5. We can also bill on your behalf for services we provide for you at 7% if you want that option.
6. [EXAMPLE](#) – Every Medicare patient requires four assessments annually that reimburse at about \$400 total. Medicare will pay you in 14 days but our flat rate is only \$80 if you provide the MA, and \$160 if we provide the staff! Ten-minute assessment with ten-minute report.
7. Already have an in-house program such as CCM, RPM, Sleep, Allergy, ANS, etc.? We can grow those for you as well by identifying medical necessity and then engaging your patients to enroll. We own our own CCM so why pay someone else to use theirs? You keep 80% or 60% depending on whose staff was used. These programs added when we share assessment results.

[Please click here to see our video](#) and then go to our website at precisionvbm.com and click on the [Two Minute Overview](#) tab at the top for our [Term Sheet](#) and [Proforma](#). Thanks so much!
