01 SITE WORK & PREPARATION

Comprehensive site preparation services including land clearing, grading, and earthwork to prepare residential and commercial properties for construction and development.

BEST FOR:

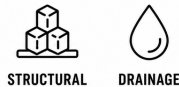

SERVICES:

- SITE PREPARATION
- LAND CLEARING
- GRADING & EARTHWORK

02 EXCAVATION & TRENCHING

Precision excavation and trenching services for foundations, utilities, drainage systems, and infrastructure development requiring accuracy and efficiency.

BEST FOR:

SERVICES:

- EXCAVATION
- TRENCHING
- FOUNDATION & UTILITY PREPARATION

03 HAULING & MATERIAL DELIVERY

Reliable hauling and delivery services ensuring materials are transported efficiently and delivered on schedule to support project timelines.

BEST FOR:

SERVICES:

- MATERIAL DELIVERY
- BULK HAULING
- ON-DEMAND DELIVERY

04 DEBRIS REMOVAL & SITE CLEANUP

Efficient removal of construction debris, excess materials, and site waste to maintain a clean, safe, and organized job site.

BEST FOR:

SERVICES:

- DEBRIS REMOVAL
- SITE CLEANUP
- HAUL-OFF

05 EQUIPMENT & OPERATOR SERVICES

Access to professional-grade machinery and experienced operators to support site work, material handling, and project execution with efficiency and safety.

BEST FOR:

SERVICES:

- SKID STEER
- EXCAVATOR
- EQUIPMENT W/ OPERATOR
- HEAVY MACHINERY

DISCLAIMER: Comprehensive site preparation services including land clearing, grading, and earthwork to prepare residential and commercial properties for construction and development.

@EGARESOURCES

01 FILL MATERIALS

Fill Materials include natural and processed earth products used for grading, backfilling, and site preparation. These materials help establish proper elevation, improve stability, and support structural development across residential and commercial projects.

BEST FOR:

STRUCTURAL

BASE

BACKFILL

OPTIONS:

- Muck / Topsoil
- Screened Topsoil
- Topsoil 50/50 Mix
- Topsoil 80/20 Mix
- Fill Dirt
- Structural Fill
- #1 Fill
- Primary Crushed Material ($\leq 12"$)

02 SAND & FINE MATERIALS

Sand & Fine Materials consist of washed, screened, and processed granular products designed for leveling, bedding, and mix design. These materials provide consistent gradation and are widely used in masonry, concrete production, and utility work.

BEST FOR:

STRUCTURAL

BASE

BACKFILL

DRAINAGE

OPTIONS:

- Silica Sand
- Mason Sand
- Mortar / Masonry Sand
- Lawn Sand
- ALDOT Type I Concrete Sand
- Sand Fill
- Concrete Screenings ($\frac{3}{4}"$ minus)
- Asphalt Screenings ($\frac{3}{4}"$ minus)
- Commercial Screenings

03 AGGREGATES (PROCESSED STONE)

Aggregates are crushed and screened stone materials engineered for drainage, compaction, and structural support. These materials are available in a range of sizes and are commonly used in roadwork and foundational applications.

BEST FOR:

STRUCTURAL

BASE

DRAINAGE

OPTIONS:

- FDOT #89 Stone ($\frac{3}{8}"$ minus)
- FDOT Sib Stone ($\frac{3}{8}"$ minus with fines)
- 67 Stone ($\frac{1}{2}"$ minus)
- Rice Rock
- 1" Minus Baserock
- FDOT #57 Stone (1" minus)
- Pea Rock #89
- FDOT #4 Ballast ($1\frac{1}{2}"$ minus)

04 BASE MATERIALS

Base Materials are dense, compactable products designed to create a stable foundation for roads, driveways, and structural surfaces. These materials ensure proper compaction and long-term durability under load.

BEST FOR:

STRUCTURAL

BASE

OPTIONS:

- Recycled Asphalt
- LBR 40 (Stabilizer Material / Washout)
- Crushed Lime Rock
- FDOT Baserock (Code 11)
- Coquina Base Rock
- Shell Rock
- Rock Fill
- Custom Blended Base (1" Base)

MASTER CATALOG

MATERIALS

05 DECORATIVE & DRAINAGE ROCK

Decorative & Drainage Rock includes naturally rounded and processed stone used for landscaping and water management. These materials enhance visual appeal while supporting drainage and erosion control.

BEST FOR:

DECORATIVE

DRAINAGE

OPTIONS:

- #78 Pea Gravel (3/8"-1/2")
- #67 River Rock (1/2"-3/4")
- #57 River Rock (1/2"-1")
- Pea Rock
- #4 Egg Rock (1"-2.5")

06 LARGE STONE & STRUCTURAL ROCK

Large Stone & Structural Rock consists of oversized materials used for erosion control, stabilization, and heavy-duty structural applications. These materials provide mass and durability in demanding environments.

BEST FOR:

STRUCTURAL

DRAINAGE

OPTIONS:

- Gabion Rock (3"-6")
- Ballast Rock (#4, #5)
- Rip-Rap (6"-12")
- Boulders (Custom Request)

07 DOT CERTIFIED MATERIALS

DOT Certified Materials meet Department of Transportation specifications for public infrastructure and roadway applications. These materials are tested and graded for compliance and performance.

BEST FOR:

STRUCTURAL

BASE

DRAINAGE

OPTIONS:

- FDOT Concrete Screenings (Code 03)
- FDOT Asphalt Screenings (Code 20)
- FDOT #89 Stone (Code 17)
- FDOT Sib Stone (Code 51)
- FDOT #57 Stone (Code 10)
- FDOT #4 Ballast (Code 06)
- FDOT Baserock (Code 11)
- A1 Material (D.O.T.)
- A3 Material (D.O.T.)
