Big News!

Our new website is live!

The biggest update is to help you the employer with benefit administration. We have added the forms your employees may need to file a claim or make a life change. Take a look and let us know what you think!

Life Changes?

Life always has twists and turns. Life events such as marriage or a new baby means we need to make adjustments to insurance coverage. These adjustments can only be made within 30 days after the event, and require the employer and/or the employee to notify us in order to start the process.

Speaking of life changes, it is always good to review the beneficiaries on policies. If we are onsite for open enrollment they can make adjustments at that time or have them reach out to us directly.
