

SKID PAD CLINIC

**HAVE YOU EVER WONDERED
IF YOU COULD AVOID A POTENTIAL SKID ON THE RACE TRACK OR ROAD?**

**DO YOU WANT TO GET
MORE COMFORTABLE PUSHING YOUR CAR TO ITS LIMITS ON THE TRACK?**

Our skid pad training course is designed to equip drivers of all skill levels with the crucial skills of car control in a safe and controlled environment.

ABOUT THE COURSE

- Suitable for all drivers with a valid license.
- Skills applicable to both dry and wet driving
- Wet skid pad provides a forgiving learning environment.
- Small group size (maximum 6 students) ensures individual attention.
- Zoom meeting/presentation covers the theory before the event.
- Half-day and full-day sessions available.
- Bring your own car or rent one from us.
- Carolina Motorsports Park is in Kershaw, SC.

COURSE GOALS

- Recognize and react to loss of grip: Learn to identify the early signs of a skid (both understeer and oversteer) and understand how to regain control.
- Develop smooth and precise hand and footwork: Master the techniques of counter-steering, throttle control, and weight transfer to maintain control during a skid.
- Learn how to minimize damage and avoid hitting obstacles even when a slide cannot be fully corrected.
- Improve your track driving skills: Gain confidence in pushing your car to its limits and experience the thrill of controlled sliding.
- Enjoy the thrill of drifting using throttle and steering control properly.

THE GAIN

- Increased driving safety: Improved car control skills can significantly reduce your risk of accidents on the road.
- Enhanced track performance: Drive faster and smoother on the track with greater confidence in your car's handling.
- Unforgettable driving experience: Learn valuable skills while having fun in a safe and controlled environment.

JOHAN SCHWARTZ

Johan Schwartz has more than 30 years experience on the track. Currently, Johan races professionally and coaches development drivers and private clients.

Highlights of Johan's racing career:

- 3x Guinness World Record Drift
