Foreword

THE INVISIBLE MATRIX OF ALL MATTER, COSMIC CONSCIOUS ONENESS INTELLIGENCE COLLABORATES WITH GODSELF REVEALED IN-FLESH.

Individually, many humans believe their current embodiment is not perfect, because ‘past baggage’ is too much for them to bear. Such false appearance is the result of accumulated egoistic human discord claimed as Truth. The Shift to Cosmic Conscious Oneness Awareness is complete and disconnects us from all egoistic human discord. In other words, when humans focus their attention on GODSELF REVEALED, egoistic appearances are dissolved by Equanimity, Happiness and Harmony.

Universally, GODSELF REVEALED, are guided, guarded, protected, provided for and prepared during Spiritual Expansion. As you experience Spiritual Expansion be confident that you are an individual expression of ONE GODSELF, entombed in a human body for a blink of an eye, as compared to Life Eternal. Realize the Omnipresent Father within the body does the work, not human being.

When individual visible human friends are not receptive and do not understand Collaboration with Cosmic Conscious Oneness, remind yourself that the self-centered ego driven world gives way gradually and naturally to Divine Right Order, Always. REALIZE THE UNIVERSE WORKS FOR YOU, NOT AGAINST YOU, SIMPLY BECAUSE IT IS WE. Relax in Equanimity and allow Your Self to Enjoy Life.

Ascended Master Max: Mr. and Mrs. Max Taylor

Introduction

Within the vast sky and ocean depths, The A-Dimension, Cosmic Conscious Oneness, GODSELF reigns. Only nothingness holds all, and contains everything, in indivisible OMNIPOTENTIAL WHOLENESS. In the A-Dimension, material form, yet to come, already is. Setting parameters on Life does not allow unlimited expansion of the Universe and measurement of the Universe can only tell us what has been. Becoming, which is Being Forever, is made of experience and information. 'All' is a seamless Oneness, and there is no space that does not contain NO THING. To get anywhere one must go beyond extreme limits lest something is missed.

As pointed out in, THE FRUIT OF THE NUT: Oneness in a Nutshell, it was revealed to Einstein that 'nothing' travels faster than the speed of light. What, then, is ever to worry about? NO THING. In Becoming Being Alive Forever, we have choice and there are no limits. Tsunami is evidence of this truth: that only 'nothing' lasts forever and our true nature is OMNIPRESENT NOTHING.

GODSELF REVEALED declares WE are guided and revealed. 'THEE' is 'WE' in One Self. WE are GODSELF IN FLESH. Showing Love and Respect for yourself and others Reveals GODSELF.

Human created discord/self-destruction makes Earth the Dark Planet. Humans do not control Love: you allow Love to BE by making room for it to exist. Love is giving support and compromise if needed. Making room for Love through goodwill creates an attitude and climate of Love Acceptance.

People react to ego-self-accumulation as if it is real and absorb the negativity. Negative mental and physical side effects increase with every confirming false thought, until veracity in the negativity is established even though there are no foundations to support ego. The belief that negative conditions exist cause the medical appearance of serious mental illness, altered states of conscience, criminal situations and troubling relationships. The nonexistent ego-self is established by chronic reactions to the accumulation of past human discord - mass-mind psychic realm memory. It is false belief that ego-self exists as a state of being. The ego-self parasite exists as idea in mind and does not exist in Cosmic Conscious Oneness Sacred Fire Silent Thought. You do not have to be a 'rocket scientist' to realize that the negative thought patterns that we claim as real are dissolved by OMNILOVE and Reveal GODSELF True State of Being.

GODSELF REVEALED

It's impossible to put a finger on first cause. The finger is just a figure of speech and first cause has no physical form. GODSELF is first cause and this prime cause originates from intent that arises, like Sunshine, over the horizon of Cosmic Conscious Oneness. OMNIPOTENT Realization within Cosmic Conscious Oneness fulfills the intent of first cause to create manifest form. Thus, coming into embodiment is first cause to GODSELF Being Revealed. You are first cause of GODSELF being REVEALED. The only way to put a finger on first cause, so to speak, is to use your own finger and point at GODSELF REALIZATION: not ego-self. The ego self can never be first cause to anything because ego problems are in the psychic realm memory matrix: not Collaboration with Cosmic Conscious Oneness. The ONENESS OF GODSELF is the only source of all that exists. Ego does not exist except belief in death and self-destruction. Only by Living in Oneness can first cause Be Realized GODSELF REVEALED.

GOD IS I AM _____

When injury happens in tangible visible form we seek relief from pain. Whereas, invisible accumulated mental anguish is labeled as disease. Mind-altering prescription drugs do not cure mental disturbance. For humans to heal visible injury and mental anguish, the effects of ego, deep-rooted habitual thought patterns, must be replaced with the innate Realization of Cosmic Conscious Oneness. GODSELF Realization frees humans from egoistic discord that separate mankind from Oneness. Sacred Fire Silent Thought, God's Eternal Love, Reveals Oneness and the fact that we are never alone without assistance. Enjoy life and allow GODSELF REVEALED to guide, guard, protect, provide for and prepare you with Blessings, Equanimity, Harmony, Joy and Victory of Ascension you deserve.

The ego is connected with mind through the memory matrix and the 'baggage' of past experience.

The balance of this chapter illustrates how the ego self is the antithesis of GODSELF. In order to know the GODSELF we must transcend ego. The baggage in memory runs deep and we carry it around with us as though it is part of us, so to speak. In this way ego controls individual mind and reactions to present experience through accumulated habitual thought patterns held in the memory matrix. When we are not consciously aware of what we are thinking, we allow this ego parasite to reach into our 'baggage' for thoughts that grip our attention. Soon, we 'role play' in mind with unfounded climatic fantasy, dire consequences, doubt, hate, fear ...

GOD IS I AM _____

Stories of speculation escalate when we allow ego to repeat over and over again, the negative thought patterns. Time is a waste, Equanimity and Harmony are stolen from us when ego negativity is allowed occupation of our mind, rather than Sacred Fire Silent Thought. Egoistic thought causes separation from GODSELF REVEALED because the function of an egoistic state of mind is self-centeredness and self-destruction. Since thought conveys out loud what we think about; you may often realize ego-self predicts future events that happen. Even though egoistic thoughts are contained or limited to individual memory matrix, egoistic parasite hooks you in a mind-set of predilection toward dire consequences. This dangerous feedback loop of egoistic storytelling causes fear and misperception that the Universe is working against you!!

*It cannot be overemphasized
that any expression of Harmony
such as a smile, care giving,
compliment or compassion is
GODSELF REVEALED bringing
forth Spiritual Expansion and Peace.*

*Living in Oneness

Once we realize the flow

As the air we breathe,

WE Experience

Fulfillment of Life Eternal

Just as the flow of breathing air, the infusion of Cosmic Conscious Oneness CCO enters every embodiment and empowers us. This Creative Process is Indivisible, Eternal and connects humans to Oneness. WE exist by Omnipresent GODSELF Being even though it is not an inherent conscious awareness until we realize it. Invisible CCO reaches into the visible world to Bestow Gifts on mankind. The Profound Infinite infiltrates Consciousness, like the air we breathe, and is the existence of ALL LIFE. Cosmic Conscious Oneness is the air we breathe. More fluid than air CCO reaches Universally, everywhere simultaneously through every individual Being. Sacred Fire Silent Thought, Cosmic Conscious Oneness, like immanent osmosis, permeates throughout the World, Universe and Eternity.

Realization Prevails

When Realization of Oneness and Universal Omni Power awaken humanity, Life Realization, is Eternal Forever. Frequently, Realization rests on concentrating hard enough, that you think you are strong enough to do anything. However, individual accumulated egoistic thinking in mass memory matrix continuously feed beliefs that create human limitation. In contrast to Oneness, ego experience fosters separation from GODSELF REVEALED. Switching from patterns of habitual doubt overcome being a self-centered ego. Fortunate for humanity, Spiritual Expansion is constantly bestowed and Cosmic Conscious Oneness dissolves egoistic thinking when you realize that what you do to others, you do to yourself.

GOD IS I AM _____

Realization of OMINPOTENTIAL should rightfully take precedence over personal inaccurate ego thoughts that are only negative perception about human limitations. When we are receptive to Truth, it is a given that we Reveal the influx of Love, bestowed by GODSELF REVEALED OMNISCIENCE. The entry for OMNISCIENT WISDOM into human embodiment is Sacred Fire Silent Thought Collaboration. A requirement for receptivity is to 'do nothing to impede' Clear Truth. It is necessary for you to dismiss misleading ego information to Reveal Abundance and Love. Accept the offer of OMNILOVE inner guidance and consider the Unbounded Oneness of OMNI POWERS. The OMNI POWERS reach everyone in this manner and therein resides the power of Omniscient Universal Realization.

Realization is so integral to Being Alive Forever that self cannot exist without it. Humans cannot move forward without Realization because we do not live in a predetermined mechanical world. Creative Process, which is God's Will, OMNIWILL, allows the gaps of nothingness to be bridged by Faith. Faith is expressed in GODSELF ONENESS. The question may be asked, "Whether we have Realization in GODSELF or ego?"

The first cause of REVEALMENT is Sacred Fire Silent Thought; thereafter, Spiritual Expansion increases conscious awareness of GODSELF ONENESS. It is Strong Realization, which manifest change; and egoistic weak, scattered thoughts do not manifest change. Realization in GODSELF REVEALED exceeds belief in mass memory matrix about human limitations before humanity attain Victory of Ascension. The progress in the change of your thinking is gradual, natural and keeps pace with the strength of Realization. Holding focused attention on undesirable human discord strengthens egos' claim on you. Your thoughts must focus attention on what you Realize is True.

Choosing ego - human free will choice.

GOD IS I AM _____

Humanity has free will choice on what to focus their attention on. Adults teach their children what to focus their attention on. An option, music, assists adult and children to live in Harmony and Equanimity.

Individual mind controls the switch from ego to GODSELF REVEALED, *to the extent that adults realize we are divinely guided, guarded, protected, provided for and prepared. My Stroke of Insight verified that the switch from ego to GOSELF REVEALED is maintained by free-will choice. A neuroscientist of the brain, Dr. Jill Bolte Taylor's expertise and knowledge allowed Collaboration with Cosmic Conscious Oneness to trace the pathway of a major stroke through the anatomy of her brain and follow her 'path of recovery' to Reveal scientific metaphysical discoveries.*

With the switch from ego-self to GODSELF REVEALED the egoistic mentality disappears. GODSELF REALIZATION is easier, a pleasure to focus on and without the negative side effects caused by human created egoistic discord.

The damage during the stroke to the left hemisphere of Dr. Taylor's brain temporarily caused her body to function with the navigation capabilities of a newborn infant. Dr. Taylor discovered a state of bliss and peace, while, what we call her brain, functioned only in the right hemisphere during the loss of memory, motor skills and sensory function located in the left hemisphere. During her recovery she realized that she was "standing aside" from the usual ego influence thinking in the left hemisphere while she relaxed and rested in GODSELF REVEALED right hemisphere timeless inactivity. To "stand aside" became her switch to shut out the former addictive negatively conditioned chatter of past experience held in mass memory psychic realm matrix of left hemisphere activity.

Human created pharmaceutical greed altering the function of human organs is human created self-destruction. Ultimately the cause of pain is human created, the pain remedy is revealed collaboration with cosmic conscious oneness.

GOD IS I AM _____

The bundle of fibers, corpus callosum, that connect the right and left hemisphere of the brain allowed Dr. Taylor to experience spiritual equanimity and comprehend that Cosmic Conscious Oneness operates in the right hemisphere, as well as, the left hemisphere of the brain. Dr. Taylor's discoveries Reveals that human use of the right hemisphere of the brain is to Collaborate with Cosmic Conscious Oneness.

Unlimited possibility defines the proof of Omnipotent that lies inherent in the SIX OMNI POWERS and human existence.

GOD IS I AM _____

REVEALMENT is open at the top, so to speak, for everyone, so long as individuals are GODSELF REVEALED Receptive. GODSELF REVEALED FATHER WITHIN Jesus Christ Conscious Oneness. GODSELF INTENTION is for everyone to REVEAL ONENESS EXPRESSION FOR UNITY. Cosmic Conscious Oneness is Inclusive and excludes no one as Everlasting God Conscious Oneness. Although, you never separate yourself from Oneness, when you complain, condemn, or criticize, verbal or not, those are egoistic thoughts that create the appearance of separation for yourself. Realizing GODSELF REVEALED your Joy is automatic. Humankind, do for not to others. Individual self-talk, tabernacle prayer acknowledges GODSELF REVEALED and strengthens Collaboration with Cosmic Conscious Oneness, knowledge and realization, for greater Wellness of Being.

GOD IS I AM _____

The following analysis of the philosophy of Spiritual Metaphysics and the King James Version of the Bible regarding interpretations about Jesus are consistent with one another. The Gospel of Mark entitles Jesus with the designation, 'Sun of God.' The Gospels of Matthew, Luke and John confirm this declaration of Divinity. Jesus referred to God as 'Father Within' and also referred to himself as being Sun of God. All of the foregoing references link Jesus with God as One and Jesus states, "I and my Father Within are One," GODSELF. While Oriental cultures have taken Universal Wholeness for granted for thousands of years; Revealed, Einstein Theory of Relativity, scientifically proved The Theory of Wholeness.

At the Council of Constantinople 381 A.D., the Ecumenical Christian Statement of Faith deleted teaching about Spiritual Metaphysical Wholeness and the interpretation of the embodiment and crucifixion of Jesus made him exclusively the ‘only’ Sun of God. However, a closer look at the Gospel of John Reveals that Jesus exemplified Oneness and there is no claim to an exclusive relationship Being ‘only’ Sun of God. Understanding the Naturalness of Oneness in Universal Cosmic Conscious Oneness, Jesus claimed that everyone had access to profound God Realization. On the other hand, biblical references to the ‘Son of Man’ do not mention God Realization.

GOD IS I AM _____

Profound understanding of the Unity of Wholeness enabled Jesus to abide in the Universal power of Omniscience and with God Realization to state, "I Am the messenger of God." It was crystal clear that Jesus demonstrated the power and authority to teach the Principles of Wholeness and to share the opportunity with everyone to live in Oneness. UNIVERSAL OMNI POWERS, OMNILOVE, are the lasting and sustaining powers over all conditions. In particular, the practice and teaching of OMNILOVE support the claim of Jesus Being a Savior. If the correct understanding of REVEALMENT OF ONENESS and Jesus' teachings to Love one another were continued, mankind would be living in World Peace. (John Chapter 12 and Epistle General 1).

Unfortunately, Jesus was portrayed as exclusive and separation from our relationship with GODSELF became Belief. When we realize that Jesus taught inclusive unity of Wholeness and Oneness, then giving and receiving Reveals the Universal flow of Harmony. Fragmentation of Christ Conscious Oneness causes separation from God's Love, fear and suffering. The belief that Jesus is the only Sun of God results in containment of power over humans. Making Christ Conscious Oneness exclusive, God Realization and the abundant life that humans are created to reveal and express is denied to everyone. Utilizing the Six Universal Omni Powers, ego will be consumed and disempowered by the flame of its' own fire of desecration.

GOD IS I AM _____

Humanity SUN GODSELF REVEALED IN-FLESH accomplish acceptance of the Existence of Christ Conscious Oneness Universal Peace and Harmony. This includes the Realization that we are ONE with each other, Avatars, Jesus Christ Conscious Oneness and together are assisted above the fog of mortal illusion. Spiritually, Creative Process humankind are equally created with direct access to Universal Gifts Cosmic Conscious Oneness Omni Powers. In the final analysis, it is crystal clear, that the purpose of embodied Life and transformation of Jesus was to Reveal GODSELF Oneness. The Gospel of John concludes that I AM JESUS GODSELF REVEALED.

Commonly, Christians teach that Jesus died on the cross to save humans from sin, and in essence, ‘God’ sacrificed his ‘only’ human Son in a horrific death carried out by egoistic human detractors and eliminated Oneness. Jesus’ embodiment and crucifixion were given egoistic meaning, which glorified him as the only Savior of the world. Thereby, Christian religious theology separates everyone from Oneness, contrary to Jesus’ valuable teachings. We Reveal The Universal Omni Powers and teachings of Jesus and Realize GODSELF REVEALED BLESSINGS, The Gifts of Abundance, Harmony, Joy and Peace during human embodiment.

GOD IS I AM _____

Physical matter exists in movement and therefore, can be measured. Knowledge of measureable physical facts during space/time embodiment does not address the invisible influential aspects of Sacred Fire Silent Thought. Ascended Masters receive empirical understanding of existence through our un-ascended experience of time, measured in segments, and space measured by distance.

The urgent first priority of Education is to emphasize knowledge of GODSELF REALIZATION over corollary needs of the objective world. For example, students must be educated about Universal Blessings and Gifts: A-Dimension, Compassion, Consciousness, Cosmic Conscious Oneness, GODSELF, Immortality, R-E-S-P-E-C-T, REVEALMENT and Thrill of Climax in order to make meaningful and reasonable sense of embodiment.

*A-Dimension accommodates Experience

*A-Dimension is so called because it is a-priori and
inclusive of all dimensions. It is inclusive of all that is
invisible Real Truth and visible humanly created and
imagined. Time and space exists in no boundaries of the
A-Dimensional Realm. Objects emerged into space/time
from the A-Dimensional Realm are arbitrarily defined
and measured by Time, during segments of Time.*

GOD IS I AM _____

Physical matter is required in order to experience embodiment during space/time. During our existence between embodiments, space/time are non-existent. Before an event occurs it is Sacred Fire Silent Thought and has no tangible connection to our physical environment. Sacred Fire Silent Thought / Cosmic Conscious Oneness gives meaning to intangible events. For instance, you cannot measure lovemaking during space/time embodiment as indicative of the passion of Love. The Depth of Real Love Is Sacred Fire Silent Thought and humans can only allow all that is Love, to BE LOVE. A-Dimension allows for experience of Perpetual Spiritual Expansion from the inception of intent to complete emanation from Cosmic Conscious Oneness. Measurement of Spiritual Expansion along the journey of embodiment can be relatively useful, however, as Eternal Spiritual Beings the picture and story are never completed.

*A-Dimension accommodates
Spiritual Expansion, whatever mode it takes
from intent to completion;
Alpha to Omega of the One.
Human conditions are not a fixed arrangement
of energies in space/time,
but rather, they are a fluid matrix
of developing Realization.*

The Profound Invisible is untouched by space/time measurement, so where does it exist? A-Dimensional Infinite Reality and human finite space/time experience simultaneously exist along side and within our physical embodiment of Being. Ontology is the Study of Being Alive Forever. This definition must encompass Omnipresence. Invisibleness cannot be described in terms of physical senses. The A-Dimension and GODSELF are Realized by description during invisible intuitive sense while contemplating, meditating, channeling, inspirational writing Collaboration with Cosmic Conscious Oneness / Sacred Fire Silent Thought. In this way, Cosmic Conscious Oneness Spiritual Expansion infiltrates spontaneously and simultaneously throughout the Universe, confirming and verifying that Cosmic Conscious Oneness Eternal Shift is complete.

We Have Come A Long Way, Baby!

An explanation and verification of the relevancy of the foregoing information about the A-Dimension, has been paraphrased here and was made reference to in Chapter 5 Brain Factor, My Stroke of Insight. Dr. Taylor was unable to use sensory and physical functions during a major stroke while her Sacred Fire Silent Thought Lived in the right hemisphere of her brain. The account Dr. Taylor shares about her journey in Cosmic Conscious Oneness is an accurate description of the A-Dimension. Throughout her book, Dr. Taylor documents a very real and expansive State of Bliss in Cosmic Conscious Oneness. As a neuroscientist of the brain, Dr. Taylor used her expertise, knowledge and personal experience to describe the functions of the right hemisphere of the brain and the state of mind she experienced during her recovery from a debilitating stroke. During the stroke, blood flooded the left hemisphere of her brain causing temporary loss in the function of memory and sensory ability.

The corpus callosum is a large bundle of fiber connecting the left hemisphere control of space/time physical functions and the right hemisphere euphoric naturalness of the A-Dimension. Both hemispheres of the brain are connected by the corpus callosum, not only in neural communication, but the language of Universal Cosmic Conscious Oneness that is the creative force which manifests our physical environment. Because the stroke shut down the use of her left hemisphere, Dr. Taylor became aware of the Universal creative forces of the right hemisphere and described this awareness as a safe haven during her recovery.

During each embodied lifetime, GODSELF has access to the function of the right and left hemisphere of the brain. When the human body departs after death we continue Life as powerful spiritual beings of divine origin GODSELF REVEALED Cosmic Conscious Oneness.

GOD IS I AM _____

Discovery of the fact that the right hemisphere connects us to gradual and natural Spiritual Expansion should lead to the conclusion that someone ‘labeled’ with so called mental conditions such as schizophrenia, bipolar and manic depression ‘cross over’ and experience Spiritual Expansion in the right hemisphere of the brain. To ‘cross over’ means that the motor skills and sensory abilities of stroke victims and so called labeled mental disorders and altered states of mind are disrupted in their human function in the left hemisphere and display appearances of inappropriate behavior. When these findings are applied to circumstances of any mental state where someone has ‘crossed over’ to right hemisphere influence even as an escape mechanism from human creation, for whatever reason, major advancements can be made in treatment and recovery. Educating victims of drug abuse, cold turkey withdrawal from drugs, trauma, depression, perhaps beforehand, about Dr. Taylor’s discovery can prevent the need for victims who escape, so to speak, and being labeled with ‘altered state of mind’ or being crazy.

When physical form become manifest, then movement, distance, space/time express Einstein Theory of Relativity. When there is an awareness of physical manifestation in space/time there is something to bump up against and experience physical Life. However, A-Dimensional Reality is invisible, not space/time physical form. The entire invisible realm of Pure Cosmic Conscious Oneness Reality is Everlasting, Indestructible and Unchanging. Although Invisible Reality is always present, we do not Realize Its Presence during embodiment because the Universe emerged from Pure Cosmic Conscious Oneness Sacred Fire Silent Thought. What is the invisible reality in the A-Dimensional Universe that brings about Emergence? Cosmic Conscious Oneness Is Wholeness Ancient Wisdom described, "The center of a circle everywhere and circumference nowhere." "Sacred Fire Silent Thought."

The Universal Six Omni Powers are the basic aspects that make Cosmic Conscious Oneness more than probable. Intent emanates from Universal consent and emerges out of Cosmic Conscious Oneness as bites or points of Sacred Fire Silent Thought Emergence Information. David Bohm's findings, that there is enough energy in every cubic centimeter of space, to more than recreate the entire Universe supports the Reality of OMNIPOTENTIAL. Einstein's formula of $e=mc^2$ is a recognition of the Creative Process of emergence into manifestation. The appearance of LIFE in a vacuum is a demonstration that the A-Dimension is not a vacuum, but rather, full of Potential. The fact that Observer Effect cannot be eliminated from scientific experiments demonstrates Omnipresence and Universal Cosmic Conscious Oneness. The foregoing discoveries support the conclusion that what we see as appearance is only our belief that the 'condition' is real.

The A-Dimension is inclusive of all invisible Six Omni Power Energies and visible space/time forces and factors. The A-Dimension covers 'becoming' from intent to fulfillment of everything involving purpose and meaning of Life. All Six Omni Powers are utilized for A-Dimensional Reality. We live and have our being in A-Dimensional Presence. The A-Dimension is reached and understood by our Realization that It Exists. As Cosmic Conscious Oneness is an indivisible seamless Oneness, it cannot be intruded by form or measured. There is no weight distribution, space displacement nor is time segmented. Lack of limitations with obvious certainty of OMNIPOTENTIAL creates an unchallenged immediacy and Openness of Eternity and Infinity.

The Essential Nothing TEN

***What is obvious, but never shows up on the
screen of human embodiment?***

***Essential to life, but doesn't exist?
Empty space, yet fulfills all that is?
Finite time, yet is Infinite?
Constantly used, yet never used up?
Value is 'Being' yet not anything?***

Answer to these paradoxical questions?

Nothing but Wholeness

GOD IS I AM _____

What is The Essential Nothing? It is absolute Nothing: Just that, the empty before the dawn of galaxy creation. For anything to be, there must BE NOTHING. Before the beginning NOTHING / SACRED FIRE SILENT THOUGHT was breached by Points of Emergence in the fabric of A-Dimensional Infinity. In the invisible forces of NOTHING, UNIVERSAL SIX OMNI POWERS OF ENERGY, first cause, created EMERGENCE OF THE A-DIMENSION. The A-Dimension transcends space/time and sensory perception of the ever-changing finite world human beings stand on and bump up against. Whereas, our Sacred Fire Silent Thought enjoys the freedom of instantaneous non-movement in the void of the Infinite ‘immaterial realm’ of The Essential Nothing. The invisible realm permeates throughout the Universal visible realm and GODSELF REVEALED operates unimpeded through The Essential Nothing SIX OMNI POWERS TO REVEAL the manifest world. THE PURPOSE OF REVEALMENT IS THE FULFILLMENT OF GODSELF REVEALED.

Earthly human concepts, definitions and perceptions are absent when Essential Nothing removes the veil to Infinity. The Essential Nothing ‘Energy’ cannot be disturbed by outside forces or human created boundaries. A human created sterile vacuum does not explain or describe what NOTHING is because our understanding of ‘a sterile vacuum’ is human created. Omnipresent Six Omni Powers Reveal NOTHING and the existence of Life. Only in The Essential Nothing, Indivisible Wholeness, Cosmic Conscious Oneness and the A-Dimension exist. Reference to both A-Dimension and NOTHING are Eternal Unbounded Infinity. Whereas, space/time humans are finite and religion binds humans to Earth. Without Infinite NOTHING, NOTHING could exist and space/time would not be realized.

GOD IS I AM _____

Quantum physics declared that humanity are information. Before human existence and information originated, OMNIPOTENTIAL was hidden in The Essential Nothing, until Cosmic Conscious Oneness brought forth the appearance of visible matter through A-Dimensional Points of Emergence. The immaterial realm of NOTHING is where Sacred Fire Silent Thought Information travels faster than the speed of light because there is NOTHING to impede Information. Eternal Immanent Omnipresence allows travel faster than the speed of light, simultaneous events to occur and Sacred Fire Silent Thought REVEALS GOD'S LOVE. The gaps between bursts of quanta are Infinite Essential NOTHING, for the breath we take, the sound of music and the function of automobile engines.

The chief matter in this digest proves to mankind by Quantum physics, where events, separated by great distance, occur simultaneously. The concept of NOTHING is required for understanding the Omnipresence of God. Quantum Physics was Revealed to humankind when it was discovered that energies bounce off surfaces, described as bursts or 'lumps' called quanta and not a steady stream as originally assumed by traditional physicists. A steady stream would have to have a beginning and an end, making it finite, and with measurable length, be bound to space/time. An important fact is, that there is an imperceptible gap, NOTHING, between quanta. The fact that quanta have measurable length is an important physical fact and the length of the gap between quanta, NOTHING, is an important huge factor of our experience.

GOD IS I AM _____

The fact that the NOTHING gap belongs to the Infinite Unrevealed Expanse of the Universe is utmost importance. Anyone who has changed a spark plug knows how crucial measurement of the space of the gap, NOTHING, is to timing, running an engine. The spacing of the gap is a tangible fact that belongs to the spark plug. The gap is subject to finite measurement of space that remains with the plug when it is discarded. What happens to the indeterminate and temporarily occupied area of the gap of the plug belongs to The Infinite Realm and cannot be divided or used up. The Essential Nothing is unbounded and not subject to change. However, in the visible Universe, change is inevitable and just as soon as something appears the visible screen changes.

A single object creates its own space around it, then, other objects create a distance of space to be measured between objects. Without gaps, NOTHING, we would have a single continuous tone with no speech or music. Sound can only be determined into anything meaningful because of the gaps or breaks, NOTHING, to allow speech and music. Even individual words and sounds that are recorded are finite, while the interval gap itself remains Infinite. The aspects of the length of spoken words and the length of the gap between spoken words can be measured and both measurements are finite. The timing of NOTHING between words is crucial, especially between the words of a stand up comedian. During times of silent NOTHING in the interval spaces, OMNIPOTENTIAL inspiration allows us to realize being guided, guarded, protected, provided for and prepared, Ultimately for Ascension.

GOD IS I AM _____

The gaps (Eternal Nothing) between inhale and exhale of breath allow divine guidance during REVEALMENT. Scientific research has proven Spiritual Expansion benefits humans during the practice of Contemplation. Literally, Contemplation is doing NOTHING except learning to 'BE' and allowing God to be God in you. The root word for Spirit is akin to breath; all three words (Breath, Nothing, Spirit) mean the same thing and all three are essential to our existence. The Essential Nothing makes 'Becoming Ascended' possible. When anything comes into being, the thing, comes into being with the time factor of having a beginning and an end. When time is broken up into segments the immediate result is finite, however, the NOW zone occupied by the gap, NOTHING, Eternally exists in the Infinite Realm. Each segment is swallowed up during time, but the NOTHING gaps remain in timeless Wholeness.

The infinite numbers of segments and gaps, NOTHING, allow sound to take on meaning as words are created. Although we come face to face with the nature of NOTHING, nothing can only be realized through experience. For example, musical composers are aware of the importance of silent gaps, NOTHING, as the gaps are part of the music created. Once the music has been enjoyed the creation lasts forever in COSMIC CONSCIOUS ONENESS beyond space/time in Eternal Infinity. Computer programmers are aware that information transference 0+1 codes are using NOTHING as the main means of communication. This is also true of the intervals between the dots and dashes of the Morse code where NOTHING makes transmission of information possible. Again, a single continuous stream of LIFE could not differentiate into sounds and syllables, making communication possible without The Essential Nothing.

GOD IS I AM _____

Ironically, there are people who claim they 'aren't anything.' When we consider that NOTHING is Wholeness and Omnipresent, there is no truth to their claim. The irony of this truth is, they are NOTHING. In NOTHINGNESS, Cosmic Conscious Oneness, with all Six Universal Omni Powers is LIFE Itself. Omnipresence is non-locus, unbounded and beyond space/time. Just as Nothing and Omnipresence; the A-Dimension is Indivisible Wholeness. Exactly as the A-Dimension: Nothing and Omnipresence has no inside or outside, cannot be used up and all three are Infinite. The hidden, so to speak, UNIVERSAL SIX OMNI POWERS are GODSELF REALIZATION waiting to be REVEALED by humanity.

WHEN time and measurement, solid verses volume enter the picture, with a visible inside and outside as an enclosure, then, there is something to be filled. This is the empty before the beginning. We connect with THE ESSENTIAL NOTHING during contemplation, then, begin. However, with the all of everything, plus movement in time across space, one thing never changes. THE ESSENTIAL NOTHING remains undisturbed and subjected to the experience of Life or existence coming into Being as an expression of Spiritual Expansion pumping out information.

Jesus' Embodied Life and Miracles

Caused Max to question, "What more do I need to know?" Cosmic Conscious Oneness provides challenging experience, based on sensory intake, that broaden perception of human imposed psychic realm boundaries. Jesus, Christ Conscious Oneness answered:

Don't waste your time pondering what isn't

Ponder only what is. What isn't?

Visible earth, sun and stars ...

What is, exists only by virtue of what isn't

And what isn't exists only by what is.

This is the secret of Life.

What is not of God is not.

What is; is GODSELF REVEALED

Fielding Ashram basement garage was the arena for the puzzling experience of invading snake imposters from nowhere, over a series of four years. No one would expect to encounter, in the manner, which these snakes appeared during human embodiment and their live appearance was bizarre and frightening. The first scary teacher was lying in wait, stretched straight along the bottom of the door leading to the basement, as I drove into the basement garage. The snake was indigo, with a fine linear red diamond pattern on both sides of its body. Of course, by virtue of being inside the car I was safe, but the situation caused confusion. The motionless snake rigidly lined up with the door made me think that the intent behind the presence of the snake, had originated from beyond physical space/time. The snake was not one I had seen before; therefore, I did not know how dangerous to my embodiment it might be.

GOD IS I AM _____

The following thoughts ran through my mind: Should I take the risk of being bitten? Was the snake dead? How long should I wait? Was this some kind of joke? Or, as you may imagine, was it just an illusion? To go into the Fielding Ashram basement meant getting out of the car and stepping over the motionless snake. No sane person would make this move, so I must have been 'out of my mind.' I could not resist the urge to see if the snake was real, so I took the plunge. In the moment after I stepped over the snake and made it through the doorway into the basement I observed that the serpent was very much alive. It took a coiled position and was confronting me with deadly beady eyes from a chiseled diamond shaped head, flared nostrils and hissing with split-tongue cutting the air. As I pushed the door closed, I looked back at the beautiful magnificent snake that was restraining great power. I felt that I was closing the door on God. The snake disappeared until a year later.

The next encounter brought me a little closer to my quest to know what is real. The same indigo snake was already in a coiled position when a friend and I entered the basement from the garage. My friend had been told about the former snake, but she still screamed at the sight of this one. The snake retreated to a corner behind the iron curtain water service tanks and was stretched out against the wall. My lesson this time was, 'How real is an illusion?' On the one hand, the appearance of this reptile in the basement, with no one around to let it in, lends support to the theory that it was an illusion. On the other hand, having a corroborating witness to prove its corporeality dispelled the illusion theory. I went close enough to the snake to verify that it was the same one and realized that I could not remove it even if I wanted to. I left it behind the water system believing it would leave in the same mysterious way that it entered and that is exactly what happened.

GOD IS I AM _____

Six months later the question of the mysterious coming and going of the indigo snake was answered with a new visitor. My attention was caught by a mess on the step that I thought someone had left for me to clean up. The pile looked soft and was a multicolored conglomeration such as a drunk would vomit after excessive food and alcohol. Since no one else, except me, was around, the appearance of such a mess was difficult to explain. What I saw on my return to get something to remove the pile far exceeded the shock of finding the mess in the first place. The step where the pile had been was perfectly clean. However, a short distance away, the patchwork quilt of colors had beautifully rearranged into a grand cottonmouth snake presenting a striking eye to eye, confrontation.

The way in which the snake transformed from an inert pile gave me cause to contemplate, when does a vital force of creation become corporeal being? I left the snake to depart on its own, while I went up the steps from the basement pondering the question in my mind of what is real.

Another challenge to my courage came eight months later when the next creature teacher to appear was a sidewinder rattlesnake. Real enough to skin and eat, he positioned himself at the entrance to the garage in a very frightening stance. (Seeing the snake reminded me about the parable of Jesus when loaves and fishes were manifested to feed the multitudes.) There was no mistaking the intent of this serpent by the way his rattle was going full circle and its tongue was like a flame. If this snake had been a fist shaking at me, I am sure the knuckles would have been white. Bearing a sinister smile, the rattler was in a confrontational position, like a coil set to spring. The situation challenged me, because again, the snake was blocking my path. I began to wonder if rigor mortis froze me into position. Compared to the previous reptiles this one was far more hostile and threatening. I might be able to stay frozen waiting for the snake to make its move first, cut and run or trust the Universe and bravely walk within striking distance past the snake. Ultimately, from what I had learned from the other creature teachers, I decided to trust the Universe and enter the garage and safety of my vehicle. This serpent was already wildly moving tongue, tail and all muscles in between. After meeting the challenge of facing my fear of serpents, I realized these experiences were no more real than an illusion.

Up to this point in time, my learning experiences were not ‘hands on.’ The last serpent came as close as I want to get, when another friend was with me and a black snake showed up in the basement. This corroborating witness had been forewarned about the other snakes and was not fearful. In other words, she didn’t scream and assisted me with a plan. While the other snakes seemed out of their element, this particular snake appeared to be more comfortable in the basement. We decided to remove this creature teacher by using a snow shovel with a slightly bent handle as a protective shield. The plan was to lift and carry the reptile on the shovel through the garage doors and toss it into a wooded area near the lake. Since the snake was not eager to leave, my friend stayed with me on the journey and opened the doors. We were grateful to carry out our plan with no repercussions. In retrospect, I realized what a privilege it was for me to observe in detail, the color and texture of the snakes, as anyone can with a glass barrier in a zoological setting. However, without the protective barrier I could stand as close as I dared, only if the snake did not make a quick movement toward me. The last encounter was far more different because we were physically interacting with the snake and could easily have reached over and handled it if we had chosen to.

I am sure if we had touched the reptile, it would have felt like a live snake. While removing the snake I experienced the body weight and watched the adjustments in movements taking place on the supporting shovel. There was no question by either of us as to the physical presence of the snake. As the saying goes, 'If it had been a snake, it would have bitten me.' Classic scientific methods would determine that these snakes were alive, but none of them bit me. The appearance of the snakes and my interactions with them has changed my understanding of what is real. The snakes were an illusion and yet they fit into space-time experience. However, their presence was a virtual reality existing beyond the physical reality of everyday experience.

GOD IS I AM

A-Dimensional reality is where Life can be sustained by what we believe as real. The snakes came from Cosmic Conscious Oneness; that is beyond and also in the physical world WE abide in. By every human measureable aspect the snakes were very real. My experience encountering the snakes must not be shunned by skepticism or false speculation. Past experience should be regarded as a gift bestowed by Cosmic Conscious Oneness. I was witness to Life of Creation and the Mental Boundaries of Manifestation dissolved Miraculously. My thinking was not involved in the creation of these scary, but beautiful creature teachers and only witnessing them sustained the appearance of the snakes. The reason for the emanation and purpose of the snakes was short lived. Their purpose was to teach me about the veil over conditions. Appearance is deceiving as substance; yet can be alive and real as Nature Itself or Become as Essential Nothing. GOD IS I AM Is Ultimate Reality and the snakes GODSELF REVEALED. My conjecture is, that the snakes emerged from Cosmic Conscious Oneness, as all else does, and like any manifestation of life, with the purpose for Emanation served, they depart. As creature teachers, the snake experiences answered my question of what is real, by Revealing A-Dimensional Reality and meaning of GOD IS I AM. The density of lower vibrations make visible world finite. Density is the Veil over human ability to see Infinite Reality.

I think I am who I think I am; but I'm not. Yet I Am that which I Am. For me to know that I Am, I have to have an awareness of Being. I Am aware that I Am. The only truth I know about myself, for certain, is that I Am. This is also the claim made by Sacred Fire Silent Thought in the Bible. I Am that I Am. The conscious awareness that knows me as embodied, is also Cosmic Conscious Oneness with one difference; I'm Individual Being, screened through embodiments with sensory intake, in order to, experience 3/D plane of existence.

God have Mercy that humans understand the Law that gives them Existence and Future Perfection of Ascension. Human created discord problems hold mankind to earth in the clutches of degradation, filth, hate and selfishness.

Unless egoistic human accumulation is dissolved humanity cannot be receptive to comprehending Collaboration with Cosmic Conscious Oneness and cannot be taught. Unascended GODSELF REVEALED humans grateful for Blessings of Love compel disintegration of human created discord. GODSELF BLESS AND BLESS AND BLESS THE UNIVERSE WITH GRATITUDE NO MATTER WHAT ANY OTHER HUMAN BEING DOES.

Consciously Being Aware is the creative process connection, Collaboration with Cosmic Conscious Oneness.

I can only use one bite of my embodied awareness, during any Now Moment, to make sense of space/time to myself. Cosmic Conscious Oneness Awareness without boundary restrictions, includes, Sacred Fire Silent Thought Omniscience, mass collective awareness and individualized human being conscience, so to speak, ALL that exists.

Consciousness is the operative word and Awareness is Consciousness in operation. Conscious Oneness does not have physical form boundaries and creates through A-Dimension Energy Spins of matter. There is a change of form at conception and back again, at the death of embodiment, but Pure Cosmic Conscious Oneness is unchanging. God does not give Life nor does God take Life; God is All Life Eternal.

Cosmic Conscious Oneness Is Universal Omni Powers Awareness. Awareness awakens mankind and manifests Omnipotent Energy - Love, Life, Light - as form. The Universal Life Force demonstrates and sustains Love Life Light, also known as humankind, Children of Light.

Cosmic Conscious Oneness is our Identity God Being; The Alpha and Omega; and The Eternal Now.

Cosmic Conscious Oneness is Aware of all existence, inclusive and simultaneously of all that has ever occurred and forever forward OMNIPOTENTIAL.

Since individual awareness and Cosmic Awareness are one and the same, innate conscious realization allows humans to use this intelligent power for positive effects in our lives. Awareness in this Now Moment is Eternal.

Omnipresence is Cosmic Awareness and human physical boundaries are only energy spins arising because of Individual Embodiment. Mankind is Universal in scope with Cosmic Conscious Oneness.

Harmonious Vibrations maintain The Universe as One, Unified Whole, complete in Its Fulfillment.

When Omnipotent Omnilove manifests, unconditioned by human discord, LOVE manifests Divine Harmony in rhythmic patterns that take on form.

Harmonic Vibrations are Eternally being produced and experienced as Abundant Love, Beauty, Life, Peace, Well-Being, Wholeness and Truth to be considered Heaven.

Our True Being arises out of continuous Omnipotence and unconditioned OMNIOLOVE expresses as Harmony, the vital force that sustains Cosmic Unity.

From the invisible infinitely powerful highly vibrational subtle energies of Light, Life, Love to visible dense energies of observable, measurable finite form, Six Universal Omni Powers, Sacred Fire Silent Thought and Powerful Creative Forces of Nature Infiltrate all existence.

Subatomic energies are pushed into Being from Cosmic Conscious Oneness and do not track independently from Cosmic Conscious Awareness. These particles of energy are re-qualified and influence individual mind for either better health or ill health to the degree that the human created influence is Harmonious, or not.

The waves of Pure Consciousness, Sacred Fire Silent Thought, go back and forth in creation and the particles pushed into existence are not abandoned in creation, but are mobilized by waves of Cosmic Conscious Oneness and being the wave bring Spiritual Expansion.

The Six Universal Omni Power Energies are Real Natural Inherent Rights and comprise each person's True Being during embodiment as GODSELF REVEALED.

The OMNIS are universally indivisible, undifferentiated and the power of OMNIWILL beats your heart. In other words, God's Will allows you to be embodied and all discord is human creation.

Harmonious experience maintains Unity – Wholeness. The intelligent power we call God is not a Being as an Entity, but is Creative Process of Being. Being Creative Process, human being give expression to it.

Awareness is an individual Now Moment event and Conscious Awareness Memory becomes Universal and includes all collective occurrences held in Cosmic Conscious Oneness. The gift of Conscious Memory sustains activity and maintains continuity.

The Creative Process is God and the Creative Gift of LIFE LOVE LIGHT Bestowed. God is not the Creator as an objective entity, but rather is the Creative Process and we are of that Creative Process. This is the WHAT behind the Law of Correspondence. The Creative Process is why humans create their life according to Belief.

The Universe is experienced during causal relationships, in the relative world. For Realization of each event to Be, there is an opposing occurrence or counter effect. Human created negative events are absorbed into Universal Memory without Judgment, as well as, positive experience. However, Cosmic Conscious Oneness remains Eternal Pure Consciousness.

Realization of Collaboration with Cosmic Conscious Oneness, OMNILOVE, brings the effects of abundance, harmony, happiness, joy, peace, Superb Relationships and Well-Being.

When negative fears, doubts, hatred, jealousies, are realized, negative side effects occur, such as disease, frustration and unhappiness, also known as, imbalance. Well-Being, automatically restored to imbalance through Collaboration with Cosmic Conscious Oneness Sacred Fire Silent Thought OMNILOVE, dissolves human created discord.

The Gift of Self-Preservation is not fear. President Truman meant by his warning that human created fear, is fear itself. Chronic, repetitive, sustained human created 'fear.'

GODSELF gives the Nature of Harmony of Itself and does so through GODSELF Awareness.

Expansion of the Universe continues from ETERNAL GODSELF, giving of Self to Itself. I AM the action of the Creative Process giving and receiving.

Giving and receiving is virtually the same thing, in the One Infinite GODSELF. The giver, the given and the recipient, all are One. Giving is an expression of God's Love. Receiving is God expressed as manifestation. All is within the One Eternal GODSELF and expands the Universe. See Love as being a Divine Pattern or Divine Order. OMNILOVE.

Not giving of yourself in Joy or not to receive your greater good with gratitude is to stop the flow that expands the Universe. For, it is the loving, giving and receiving of the Infinite

GODSELF THAT CREATES THE EXPANSION OF THE UNIVERSE.

Love is the Path of Expansion that travels toward the Eternal Infinite. Only by individual separation from Love, by egoistic human rejection of Love, can it appear that love withers and dies.

The good news is, the Power of OMNILOVE Awareness, Cosmic Conscious Oneness, is with us Eternally. I AM embodied, yet I remain in the womb.

Spiritual Expansion is human use of Cosmic Conscious Oneness Awareness and is thus freedom from ego. Awareness that individual self is really GODSELF paves the way for knowing complete Wholeness.

Our individualized memory, from our first embodiment to present embodiment, are subtle energy retained in Self, but are also sustained in Cosmic Conscious Oneness.

GODSELF, individual conscious awareness, transcends human embodiment during space/time and is not separate from Universal Cosmic Conscious Oneness.

When negative thoughts about something are put in human context, judgments are made. It becomes necessary for the context and judgment to seem reliable in its relativity to act upon. Such analytical thinking establishes negative thought patterns that create egoistic personalities and narcissism.

Infinite Unconditioned Sacred Fire Silent Thought, Cosmic Conscious Oneness is not re-qualified by egoistic human created discord. Egoistic human re-qualified energy is psychic realm until it is dissolved by constructive activity OMNIOLOVE.

Conditioned thoughts are re-qualified Sacred Fire Silent Thought, operative out of individual conscience psychic realm negative memory and past experience. Harmony and equanimity thought and experience, blesses the Universe and dissolves egoistic human discordant thought and experience. In this manner, mankind are guided, guarded, protected, prepared, provided for and freed from egoistic human created discord by Collaboration with Cosmic Conscious Oneness.

Sacred Fire Silent Thought connects powerful subtle energy and individuals with Cosmic Conscious Oneness. On the other hand, re-qualified thought not connected with Creative Process, float repetitively and self-destructively in individual free-will systems.

Race consciousness is a mixed bag of memories, some worthy of reflection and repetition and others, detrimental, are best ignored. Those born of Love are worth sustaining and assist Ascension during embodiment and those that carry the energy of fear that lead to hate, hostility and ill will, should just be a lesson learned, then disregarded.

OMNILOVE empowers the Universe, whereas human created negativity is driven only during human embodiment by fear and belief in limitation.

Who I think I Am, are learned patterns of thought, my perceptions. We believe our perceptions are true and act upon them as such. Therefore, we process and possess many misperceptions.

The decisions humans make by free-will choice during each embodiment determine Well Being or suffering. We either choose egoistic human created discord suffering and self-destruction or we choose to acknowledge the inherent Universal Six Omni Powers by Realization of Harmony, Equanimity and Love.

Until you realize you Collaborate with Cosmic Conscious Oneness you will remain living in human limitations.

It is better to live in the Now present Cosmic Conscious Oneness Awareness, than to be reliving what is held in collective conscience psychic realm. What counts most is what you are consciously aware of Now.

In this relative world we have named and assigned judgments, large and small, strong and weak, more and less to all that comes under scrutiny.

In the Sacred Fire Silent Thought Infinite Realm, this is not so. Unlimited in scope, by virtue of being indivisible and undifferentiated, means that we are the substance of Life Light Love and unlimited intelligent power to the extent we accept GODSELF as our Being in-flesh.

The secret of Becoming Ascended is to Be that which you wish to Become. Our purpose for embodiment is to BE "SELF" GOD ACTUALIZED.

Memories in the collective conscience psychic realm are not empowered unless we bring them into awareness by giving them the focus of our attention; but they cannot attain the power of first cause. This means that illness, lack, loneliness can only be sustained temporarily by our belief in them and can be eliminated through Cosmic Conscious Oneness Awareness Power of Love and Wholeness.

Limitations are held in individual conscience life stream psychic realm. Cosmic Conscious Oneness Awareness does not resonate to limitations.

To heal during embodiment you must not focus thought on outcome of human limitations. Life is a sacred impulse that does not require healing.

For humanity to heal, so to speak, is to Realize, that our conscious awareness is also Cosmic Awareness with the attendant power of the Universal Six Omni Powers. This singular

unbounded I AM presence is everywhere equal and at any point of Loving expression can lift the fog of negative belief to unveil our true well being condition anywhere without limit of space/time.

Your knock on the door of the Universe with requests is but an echo of the Universe knocking on your door with the same request.

REVEALMENT of God's Love is individual awareness with the attendant unlimited Universal Powers. Since your request to reveal a situation is also a Universal request; then you are in tune with ever-present Universal Power to create wholeness in any situation.

Human conscious mind is not located in the brain or even in embodiment. There are receptors for the activity of conscience in the body with a concentration of them in the brain. However, the spins of particles, energies of embodiment, are all activity of Cosmic Conscious Oneness. The body is but another experience carried forth by human conscience, which is non-locus.

Individual thought, conscience activity, carries some energy, but is not Sacred Fire Silent Thought energy Cosmic Awareness. Therefore, individual conscience psychic realm energy does not heal. This means, individual acknowledgment and realization of Collaboration with Cosmic Conscious Oneness GODSELF THINKING

SELVES INTO BEING has the power to which there is no limit.

Cosmic Conscious Oneness is never changing Universal omnipresence. It is WE and is not our body, ego or individual conscience and does not work through us, around us, over or under us.

Illumination is comprehension of One Conscious Awareness Being aware of all Life. It is also realizing Cosmic Awareness is the inherent power of OMNILOVE the most powerful force in the Universe. The Substance of Love is the font of all Being and the force that keeps the Universe Centered.

Un-ascended, WE participate, witness and are used to build Cosmic Conscious Oneness. This consideration is outrageous in giving purpose and meaning to our lives.

Through the force of Love Cosmic Awareness is a gift of perfect Being. Therefore, we do not heal any situation by taking psychic realm thought. Instead we realize, in truth, that perfect Being is all that exists and all else is ego false appearance. A good technique then, is to focus awareness on Oneness, Complete Whole Presence, and disregarding all else practice non-interference equanimity.

We only need to know that the Universe knows how to express perfect Harmony and that we can accept this expression for ourselves through GODSELF Love.

If I were you, whatever you do, do it with the Awareness of Universal Love for GODSELF and you will be in tune with the Infinite, always safe and never with regret.

If you're receptive, receive Cosmic Awareness Guidance by asking, "What more do I need to know." You will Realize Cosmic Awareness embraces and desires to impart Truth to individual awareness. God sees me through my eyes and you will receive Truth.

Be Open at the Top, so to speak, in the Presence of Love for Awareness of Christ Conscious Oneness. The Powers of Divine Awareness are immanent and unlimited.

It is not wise to make an egotistical false claim of being God. Making claim to the mantle of God Being must come from an understanding of Wholeness. All of God must be Loved Equally.

To express Harmony and achieve Unity, all Requests for treatment and subsequent revitalization must be Spirit led Cosmic Conscious Oneness. The Great Divine Director, Directs humanity. We are not the director. We are guided, witness and participate in Realization of Harmony.

Empty all thought by not holding thought about conditions, practice non-interference. In this manner we overcome setting human limitations on the Universe. This allows Cosmic Awareness to fulfill Divine Right Order Always dissolving human created discord into Harmony and Wholeness.

Searching for God is like looking for the apple you just ate.

God Being you, claims you to the fullest and highest expression you allow to happen. It's not blasphemy, then, to take on the mantel of God, rather it is a sin not to. This means that you are given the Power to handle the largest task imaginable when you know this and accept that you are God Being.

I AM GOD BEING

I Am God Being Divine

I Am God Being Divine Love

I Am the power of God Being

I Am the Intelligence of God Being

I Am God Being Peace

I Am God Being Beautiful

I Am God Being Joyful

I Am God Being Abundant

I Am God Being Optimum Health

I Am God Being Creative

I Am God's Love in Relationships

I Am a Center of Divine Love. My Love extends throughout the Universe. I live in Divine Harmony and I Am revealed in truth in all situations. I Am Abundance Creative Idea, Completeness, Fulfillment and Unity. All who acknowledge God Being WE are Divinely Blessed.

I AM

**OMNIPRESENT, OMNISCIENT, OMNIPOTENT,
OMNIPOTENTIAL, OMNILOVE AND OMNIWILL.**

I exist in fullness everywhere in the minutest moment of space/time. This means, I Am inherent in all of you and you are inherent in me. You do not exist except by way of WE. Use me by way of the greater good and I Am serving you as you are serving me.

Abundance and I are One, as you and I are One. You cannot give without also receiving as the two are also One.

I Am also that which you Are. Give of me and take of Me. For we are One and there is no other.

CHAPTER 12

BEING ONE

*Handwritten Insights Max
Spiritual Expansion Susan Schulte*

*For there to be anything at all, All has to be One;
which means, All has to be in each one for each
to be in All. This is the Nature of Being.*

*Vast Conscious Omniscience, Cosmic
Conscious Oneness is Self Aware, encompassing
All Galaxies. Energy Comprises The Breath of
Omnipresent Awareness and GOD IS I AM the
Wholeness of All Energy that Empower visible
and invisible Life Universally.*

*From the depths of Universal Conscious
Oneness comes The Awareness of Love, a Divine
Impulse that reverberates and becomes
vibrational Harmonies, particles, radiation and
waves. These waves are information and convey
powerful energies that manifest as subatomic
particles. The subatomic particles form atoms
that realize their mission as they dance in
Universal Rhythm during Unique Spins.*

*All embodied form has its existence and All
Life is ignited within the One Power of Conscious
Awareness. The same is true of non-embodiment.
Conscious Awareness is the same Power that
forms mass out of waves of energy into particles,
that gives mass its finite Life and Purpose.*

Cosmic Conscious Oneness, the source of the relative world, cannot be measured. The observed, the observer and the instrumentation are all One Universal Conscious Oneness in manifestation.

Consciousness is the Presence and Awareness is the Process. This is the I Am. All that exists emanates from Universal Conscious Oneness.

The Universe, Itself, is not a unit of measurement during space/time; but rather is Experience of All Life, individual and collective, within Creative Process framework. A chronological order is REVEALMENT to humanity.

Consciousness does not exist within space/time; space/time exists within Consciousness.

Any one active 'center' or blink in consciousness is instantly interactive with any other 'center' in consciousness as it is all one consciousness.

The relative world of experiencing event moves through a self-sustained network of interactions until Cosmic Governing Awareness changes the course of events.

Nurture Cosmic Conscious Oneness as Being (Body, Mind, GODSELF). Cosmic Conscious Oneness is not owned by ego. Conscious Oneness is Sacred Fire Silent Thought.

Loving GODSELF as GODSELF loves others controls egoistic human discord. Sacred Fire Silent Thought is our Responsibility, not our Master.

You Become Sacred Fire Silent Thought. Ego is not a property of Sacred Fire Silent Thought.

Existence precedes manifestation. Its been proven, before there is a heart in a chicken egg there is a heart beat.

Conscious Oneness manifests into form as a flow of energy that experiences existence by GODSELF AWARENESS. Being GODSELF AWARE the individual builds upon experience of event during embodiment in the relative world.

Existence and experience go hand in hand. Existence makes experience possible and experience defines existence. This is the Creative Process.

From human experience of event comes OMNIPOTENTIAL, forever experience, leading to ETERNAL OMNIPOTENTIAL.

Ego, freedom snatcher, holds individual free will choice focus of attention, to create self-identity for worse. Ego provides the negative world appearance of existence, but is not True Being of Life Everlasting.

Comprised of experience embodied conscience makes up a cohesive 'entity,' which knows itself through awareness. Awareness is the Creative Process allowing experience.

All experience, includes our incarnation of GODSELF coalesced into individual body, to which we attach an identifying name. This identity serves us in the relative world, but that which incarnates us, our Cosmic Conscious Oneness, is our True Being.

Absolute Unity must Be expressed through Creative Process of differentiation to experience Creation.

On the basis of moment to moment in our uniqueness we are becoming more and more Self Realized by Being more differentiated. Our Self Realization is GODSELF REALIZATION.

*COSMIC CONSCIOUS ONENESS
AWARENESS CONVEYS INFINITE POSSIBILITY/
OMNIPOTENTIAL TO ALLOW THE CREATIVE
PROCESS OF EXISTENCE.*

Infinite possibility is OMNIPOTENTIAL and required for existence to be known. Although this accounts for good and evil, the direction for Spiritual Expansion is self-preservation/perpetuation, not human created self-destruction. Harmony prevails and leads to Wholeness/Unity. Destruction creates anew as part of the Creative Process. Out of the ashes the Phoenix rises.

God, in Being Self Realized expresses as Creative Process. I Am Cosmic Conscious Oneness, creating and manifesting choice in the Creative Process Imagery. By Divine Origin the Creative Process is empowered by the Universal Six Omni Powers.

God's image awakens vibratory excitement made by the Image of God. The image humanity holds, is God's way of manifesting our greater good.

I Am a creative human Being, but only because I Am God Being.

The Creative Process is the Process of Being Alive Forever.

As God creates humans, humans create themselves.

Being Infinite, God would have to be in the Creative Process of Becoming.

We embody in a manifest world, but it is not as solid and objective as it appears, because it is Creative Process, never static. However, we rely on and follow Eternal Infinite Divine Patterns during Embodied Lifetimes.

Ego is a projection of past times. Cosmic Awareness is not ego. The source of Being is beyond Sacred Fire Silent Thought, but is expressed by way of Cosmic Conscious Oneness Image, which is soon conditioned as ego psychic realm.

Let God be God and let God be WE, then Oneness saves Itself.

I AM, Sacred Fire Silent Thought Intelligence, Thinker.

Since God is All Inclusive Sacred Fire Silent Thought, God is not an entity and there is no thing outside of God to know God in this way.

Transcending the ego is Spiritual Expansion Awareness into Cosmic Conscious Oneness Creative Process. GODSELF Realized in True Identity.

God is the Source: but God is GODSELF Responder. The Alpha and the Omega.

We are living embodiment of God and GODSELF Body extends Infinitely Eternal.

Sacred Fire Silent Thought Conscious Oneness Being gives rise to Existence by Awareness of multiplicity from OMNIPOTENTIAL. Multiplicity is the Relative World Revealed out of the Absolute.

There is no thing that escapes Cosmic Conscious Oneness Self Awareness Creative Process Form Becoming. We Live in this Form.

OMNIPOTENTIAL, Being expressed in multiplicity means variety, which is known through extremes and opposites. This becomes inclusive of good and evil and the way of GODSELF REVEALED. Human created change promotes extremes as part of Creative Process.

Within variety we have emerging patterns. These patterns interface with other patterns into a network of belief affecting behavior.

The Relative World existing in the One as multiplicity makes the profane sacred.

Sacred Fire Silent Thought is the channel of Cosmic Conscious Oneness through which Awareness is brought to Light. Life is a Great Gift. Climax is a Great Gift.

Our Sacred Fire Silent Thought, our perceptions and our language strongly suggest the dualistic idea of separation from GODSELF. Ultimately, individuals must realize that human presence is the Creative Process of Cosmic Conscious Oneness.

The Nature of the Relative World is Gradual and Natural Change. Beyond human created appearances Harmony is the Natural State of Being. To Realize the Natural State of Being is Divine Bliss.

All challenging experiences have Change in common, Being guided, guarded, protected, provided for and prepared by GODSELF REVEALED. In the relative world Natural course of events, GODSELF dissolves human created discord to Harmony. Remain EQUAN.

Inevitable Change is the way out of difficulty. Change is also Choice.

Change is Spiritual Expansion of Cosmic Conscious Oneness. Change is either Spiritual Expansion or human created deterioration of any condition.

The ego is a projection of past negativity into any given Now Moment and is an expression in thought. Collaboration with Cosmic Conscious Oneness is Now Moment and All Inclusive. The future is OMNIPOTENTIAL Sacred Fire Silent Thought.

Changing events from the past is not a possibility, but changing the effect of past events is an option.

All events become past the moment event is born and through Collaboration with Cosmic Conscious Oneness Awareness, we are able to change the effect of the event.

Collaboration with Cosmic Conscious Oneness is embodied Life. Life is constructive creativity, so long as WE live in the Now Moment.

Finite relative earth of appearance is an ever Changing world of Divine Manifestation and must be appreciated as such. The Source of Being Creative Process with Omni Power automatically overcomes its own manifestation. Un-ascended humankind, GODSELF REVEALED, Realize The Creative Process.

Humans create themselves in the Creative Process of GODSELF REALIZATION. What we need to know is that the Creative Process is Universal in scope and unlimited possibility, OMNIPOTENTIAL. We are in the Creative Process, big or little, of creating the larger self, GODSELF through Cosmic Conscious Oneness Awareness Gradually and Naturally.

Which comes first, the chicken or the egg? Neither, they come simultaneously, in Absolute Unity there's no before or after.

Extremes of Change create the boundary of what is known: whereas no Change tends toward stasis or death of embodiment. Not understanding extremes of change within humankind, lower case self, ego self presents human difficulties.

Extremes of change lead to chaos, but chaos leads to emerging patterns as vibrational Harmonies rock back and forth. Everything is in Divine Right Order Always, no matter what any other human being does. Stay EQUAN during Change, part of Creative Process.

Harmful effects are created when you feel separate, but you will never harm the everlasting Whole, Cosmic Conscious Oneness.

We can only affect the human created condition; not pure unconditioned everlasting Wholeness.

Hatred is learned behavior. INNATE LOVE is all we are.

Hatred deprives, takes away and diminishes Life. LOVE increases everyone's good by Blessing the Universe.

Love, God intended Sacred Fire Silent Thought to be Divine and GODSELF Bestowed the Attributes of Divinity, the Universal Six Omni Powers for humankind benefit.

The highest form of GODSELF REALIZATION Expresses Harmony. With LOVE as our intention we achieve Peace and Joy.

Ego is a projection of the human past and GODSELF IS NOW MOMENT CREATIVE PROCESS. Either, our free will choice is to live from the menu of human past or be the Creative Process Now Moment.

Evaluate past human memory in a total detached way and do not now or ever let it be a necessity.

GODSELF is the pure unconditioned (absolute) in the human created condition, but not of it. GODSELF is the Life, but not the human effect on Life.

Choice is made between the unconditioned (absolute) or the relative world of human created discordant condition. True Choice takes place in the flow of Creative Process Awareness. Otherwise, the choice is but a reaction stemming from human created patterned thought.

We ruminate on thoughts of past desire/fear and find they are projections from past negativity. We reason from perceptions that take place in certain past contexts, or we can Reveal Creative Insight that make embodiment meaningful with Happiness, Joy and Love.

When we realize we Collaborate with Cosmic Conscious Oneness we will align our perceptions with GODSELF REVEALED as our Source and strive to be Harmonious.

Changing appearances are an effect and not first cause. Appearance does not have the power of first cause over us, although GODSELF REVEALED humans have the power of first cause over appearance and we create Change.

The attendant egoistic human body represents the multiplicity of Wholeness and develops by free will choice.

Reminder: The shift beyond ego to Cosmic Conscious Oneness is everything God Being.

While ego thought tends toward exclusiveness discomfort, we Feel Inclusive Comfort with Cosmic Conscious Oneness.

Mastery is God Being All Inclusive, anything less is separation from GODSELF ONENESS.

Existence is Creative Process extending into Infinity. Life, GOD BEING its own Creative Process supports GODSELF REALIZATION.

Cosmic Conscious Oneness Thinking directs, while Realization performs. There are many Sacred Fire Silent Thoughts, while there is only One Power, REALIZATION.

REALIZATION IS GODSELF in Action. The Power of the Universe is unleashed through Realization!

Conscious Awareness of the Power inherent in Realization coming from Cosmic Conscious Oneness, brings what is Realized into manifestation!

The unconditional undifferentiated Sacred Fire Silent Thought Realm is given Birth through insight and is made manifest through Realization!

From Realization it does happen. Not from the realization of ego does anything happen; but from the Realization of GODSELF REVEALED manifestation does happen. True Realization, then, is God Being Oneness.

It's not our thought that makes anything happen, but rather Power inherent in Realization makes change happen and without costs we have free use via Sacred Fire Silent Thought.

It's when the inherent power of Realization is known to be Cosmic Conscious Oneness Awareness that it is effective. Realization is beyond thought.

Realization is innate to the Creative Process. Doubt is not innate. Doubt is the result of not knowing, or belief in dual power. Doubt is sabotage.

There is a big difference between one expanded ego and expansive Cosmic Conscious Oneness. The expanded ego is merely exclusively inflated; whereas Cosmic Conscious Oneness is Inclusive.

Cosmic Conscious Oneness does not exist in Part, we are not part of; nor is there ever more or less. God exists always in Wholeness. What differs, then, is human expression of Cosmic Conscious Oneness.

There is no greater or lesser in the Kingdom.

With Cosmic Conscious Oneness Empowerment, It is everywhere equal and instant. It is not isolated to any location, but is Omnipresent. It is non-directional, non-spatial and not measured in time. These qualities fall within the framework of proven quantum theory.

“For something to exist, Existence is Oneness, which means All Existence Being in each. Individual conscience, is WE Being in ONE” Cosmic Conscious Oneness.

In the relative world, for “All of It to be in each” we experience collective conscience. “For each to be in All” we experience ego or individual

mind. The One God Being then, is expressed in Cosmic Conscious Oneness by way of Awareness. Enjoy Peace God Being All One.

Current Epochal disasters: tsunami, flood, hurricane, tornado, fire, economic/nuclear meltdown, new virus, oil spills, global warming, Holocaust, genocide, endangerment/extinction of species are egoistically human created disasters. Epochal disasters REVEAL OMNIPOTENTIAL and Cosmic Conscious Oneness Being The Essential Nothing Purification or Empty Before Beginning, Human created Epochal disasters are extreme chaos, but part of the Creative Process, so stay in Equanimity. By these self-destructive events humanity gain Spiritual Expansion Realization Saving Graces, Being Alive Forever Immortality and Collaboration with Cosmic Conscious Oneness Love. Volunteer who help aid victims, care giving and clearing debris experience Happiness and Joy assisting others. The loss of attachment we feel toward temporary physical embodiment and accumulation is overcome by realization of our Eternal GODSELF REVEALED Essence.
