ALBERTA CHIEF POWER ENGINEERS EDUCATION CONFERENCE

Alberta Chief Power Engineers Education Conference

2026 Conference Agenda

October 28, 2026
Facilitator: George Mitsopoulos

Time	Presentation	Presenter
8:00-8:05	Safety Moment - When Things Go Horribly Wrong	Keith Greenaway
8:05-8:15	Welcome & Opening Remarks	George Mitsopoulos
8:15-8:35	ABSA's Big Eye Approach	Robin Antoniuk
8:35-9:15	ABSA's Path Forward	Alan McKee
9:15-10:00	ABSA Update	Tom Leming
10:00-10:30	**BREAK**	
10:30-11:00	Optimizing Steam System Performance	Zeeshan Zia & Dustin MacPherson
11:00-11:45	Walk The Line - Keep It In The Pipe (Operational Excellence)	Giby Joseph & Kent Lindholm
11:45-13:00	**LUNCH**	
13:00-14:00	Supervisor Competency: Why Relying on Experience and Training isn't Enough	Nicole Orr
14:00-14:30	Managing Turnarounds & Outages	Ron Bettin
14:30-15:00	**BREAK**	
15:00-15:30	Modular Cooling Solutions	Jamie Barrows
15:30-16:00	Centrifugal vs. Oil Free Rotary Screw Compressor Technology	Mark McCarthy
16:00-16:15	Door Prizes & Closing Comments	George Mitsopoulos

The Presenters

Alan McKee
President and CEO, Alberta Boilers Safety Association

Alan McKee joined ABSA in April 2026, bringing more than two decades of leadership experience in complex, high-risk operations governed by rigorous safety, pressure equipment, and power engineering requirements.

He combines deep technical expertise with a record of leading teams to zero-incident performance. McKee has strengthened public safety, regulatory compliance, and asset integrity across large, diverse operations. He works effectively with regulators, government, Indigenous communities, and industry partners, and is committed to independence, transparency, and continuous improvement, in alignment with ABSA's mandate.

McKee holds a Power Engineering Technology diploma from NAIT and a post-graduate diploma in Gas Processing and Fractional Distillation from SAIT. He is pursuing an MBA at Royal Roads University. His credentials include an ABSA Third-Class Power Engineer Certificate of Competency, Certified Engineering Technologist designation with ASET Alberta, and certifications in NFPA 1081 and ISO 14001.

Robin Antoniuk
Vice President Technical Services & Chief Operating Officer – Alberta Boilers Safety Association

Robin began his career with ABSA, the pressure equipment safety authority, in 1999 as a Field Inspector. This led to assignments across various areas of the province, including Edmonton, Drayton Valley, High Level and Fort Saskatchewan. For three years Robin also assisted Design Survey in the review of pressure equipment design submissions. In 2010 Robin became the Northern Region Field Inspection Supervisor, responsible for all field inspectors in Northern Alberta. In 2013, he then took on the assignment of Manager of Inspections, responsible for service delivery of the inspection, quality system auditing, and accident investigation programs. In 2016, Robin became Assistant Chief Inspector, Business Operations, overseeing HR, IT, and Accounting. Since 2022 Robin has served as ABSA's Vice President Technical Services, responsible for ABSA's three technical departments. Robin is a Professional Engineer, and Fourth-Class Power Engineer, with 27 years' experience in the pressure equipment industry.

Tom Leming

Safety Codes Officer, Education and Certification - Alberta Boiler Safety Association

After a 6-year stint in the Oil and Gas industry Tom rejoined the Education & Certification department of ABSA, the pressure equipment safety authority in 2011. Tom holds a First-Class Power Engineer's certificate of competency and during his previous time with ABSA served as the Senior Examiner for Alberta and the SOPEEC Coordinator for Canada. Tom's power engineering background originated in Manitoba where he spent 15 years working in Pulp and Paper. Tom has presented for ABSA at National Board seminars both in Calgary and in Edmonton as well as representing ABSA on a national stage. Currently Tom is the Lead Examiner for Alberta and the SOPEEC Coordinator for Canada.

Zeeshan Zia

Business Development Specialist, Steam Systems – Spartan Controls

Zeeshan Zia is a Business Development Specialist in Steam Systems at Spartan Controls. For over a decade, he has supported customers across Western Canada in a wide range of industries, including oil & gas, petrochemical, pulp & paper, power generation, food & beverage, healthcare, and manufacturing.

In his current role, Zeeshan helps customers improve system performance, reliability, and efficiency through modern steam and condensate solutions, providing expertise in steam system design, process control, project execution, and technical consulting to deliver measurable operational and financial results.

Dustin MacPherson

Technical Sales Specialist, Combustion Management – Spartan Controls

Dustin MacPherson is a Technical Sales Specialist in Combustion Management at Spartan Controls Ltd. With an 18-year career working in various technical, operational, sales roles within combustion management industrial sector through a wide range of industrial applications.
In his current capacity, Dustin's key focus is derisking projects ensuring that all baseline design criteria incorporate critical safety, reliability, and efficiency benchmarks while maximizing project certainty & customers strategic objectives.

Giby Joseph

Manager, Process Safety – Americal Fuel & Petrochemical Manufacturers (AFPM)

Giby Joseph is Manager of Process Safety at the American Fuel & Petrochemical Manufacturers (AFPM), where he supports industry efforts to strengthen process safety performance and operational discipline across the refining and petrochemical industries.

Giby has nearly 30 years of experience in process safety, operations risk management, and incident investigation. Prior to joining AFPM, he held senior process safety roles with ExxonMobil Corporation and served with the U.S. Chemical Safety Board (CSB), where his work included the investigation of major industrial incidents.

Throughout his career, Giby has worked to translate lessons from incidents and operating experience into practical approaches that help organizations strengthen safeguards and improve how work is executed in the field. His experience includes Process Safety Management, hazard analysis, incident investigation, operational learning, and the development of programs designed to reduce the likelihood of high consequence events.

At the conference, Giby will present Walk the Line, an AFPM process safety program focused on strengthening operational discipline by encouraging personnel to physically walk critical equipment lineups, verify field conditions, and identify potential errors before they result in an incident.

Giby holds an MBA in Operations Management from Johns Hopkins University, an MS in Safety Engineering from Texas A&M University, and a BS in Chemical Engineering from the University of Houston.

Kent Lindholm

Sr Operations Advisor, Enterprise Operations – Suncor Energy Inc.

Kent Lindholm is the Enterprise Process Lead for Suncor Energy's corporate wide 'Manage Control of Work' Operational Excellence Management process. In this role, Kent is responsible for the development and implementation of the enterprise wide Standard and Best Practices related to Permit to Work, Control of Hazardous Energy and Critical System Defeat practices.

Kent brings over 20 years of Operations experience and as a First-Class Power Engineer, and has held roles such as Chief Power Engineer, Operations Manager, Power Market Compliance and enterprise-wide Operational Excellence Management process development and implementation.

As part of Suncor's participation with AFPM's focused programs, Kent acts as the corporate representative on the AFPM 'Walk the Line' Subgroup to provide input, and support the development of "By Industry, For Industry" programs, materials, and workshops.

Nicole Orr, CRSP

Chief Operating Officer – National Safety Services

Nicole Orr, CRSP, is Chief Operating Officer at National Safety Services with 29 years of industry experience, including 26 in Health, Safety & Environment across oil & gas, construction, municipal, hospitality, transportation, commercial, manufacturing, and engineering sectors. She builds and governs Contractor/Prime Contractor/Owner HSE management systems; leads privileged investigations (harassment, whistleblower, serious incidents, and fatalities) across Western Canada; and designs regulatory-compliant training programs. Nicole is a sessional instructor in the University of Alberta and NAIT OHS programs and a frequent conference presenter. She previously chaired the Practice Review Committee for the Alberta Society of Health and Safety Professionals.

Ron Bettin, MBA, PMP, CMC

President & Principal Consultant - Adduco Inc.

Ron Bettin is an executive and management consultant with more than 35 years of experience in the energy and industrial sectors. His career spans operations leadership, facility start-ups, shutdowns and turnarounds, asset management, and leadership development. As founder of Adduco Inc., Ron helps organizations translate strategy into practical action, strengthen leadership, and improve operational performance.

Ron holds an MBA from Queen's University, diplomas from NAIT and SAIT, and was a Second-Class Power Engineer in Alberta and British Columbia. He also contributes to the development of PEMAC's Shutdown Turnaround Management Professional (STMP) training and certification program. Drawing on hands-on operational experience and executive leadership, Ron is passionate about helping technical professionals connect sound operating practices with better business decisions.

Jamie Barrows

President - Process Water Solutions

Jamie Barrows holds a B.Sc. in Mechanical Engineering from the University of Alberta and brings over a decade of expertise in industrial cooling, filtration, and water treatment systems. He helps businesses across oil and gas, mining, power generation, and heavy manufacturing leverage advanced thermal and fluid solutions to boost efficiency, lower maintenance costs, and meet strict environmental standards.

Mark McCarthy

Director – Channel Partner Sales, Americas – FS Elliott Co.

Mark McCarthy serves as Director Channel Partner Sales, Americas at FS-Elliott Co., LLC, a global manufacturer of oil-free centrifugal air and gas compressors headquartered in Export, Pennsylvania. In this role, he leads the company's industrial sales strategy and directs the growth and performance of its factory-authorized channel partner network across North and South America.

Mark brings over 35 of experience in industrial equipment sales / compressed air systems auditing/ aftermarket management to his position, with prior roles at Ingersoll-Rand, Cameron Compressor and Air Power Equipment. He holds a B.A. in Business from University of St. Thomas. He is focused on delivering compressed air solutions customers in chemical processing, manufacturing, power generation, food and beverage, and other demanding industrial markets.

The Committee

Keith Greenaway - President
Mustang Energy Service and Consulting - mustangenergy.inc@gmail.com

George Mitsopoulos – Vice President
Pembina Pipeline Corporation – Gmitsopoulos@pembina.com

Kelly Perrott - Treasurer
Inter Pipeline – zoomer_17@hotmail.com

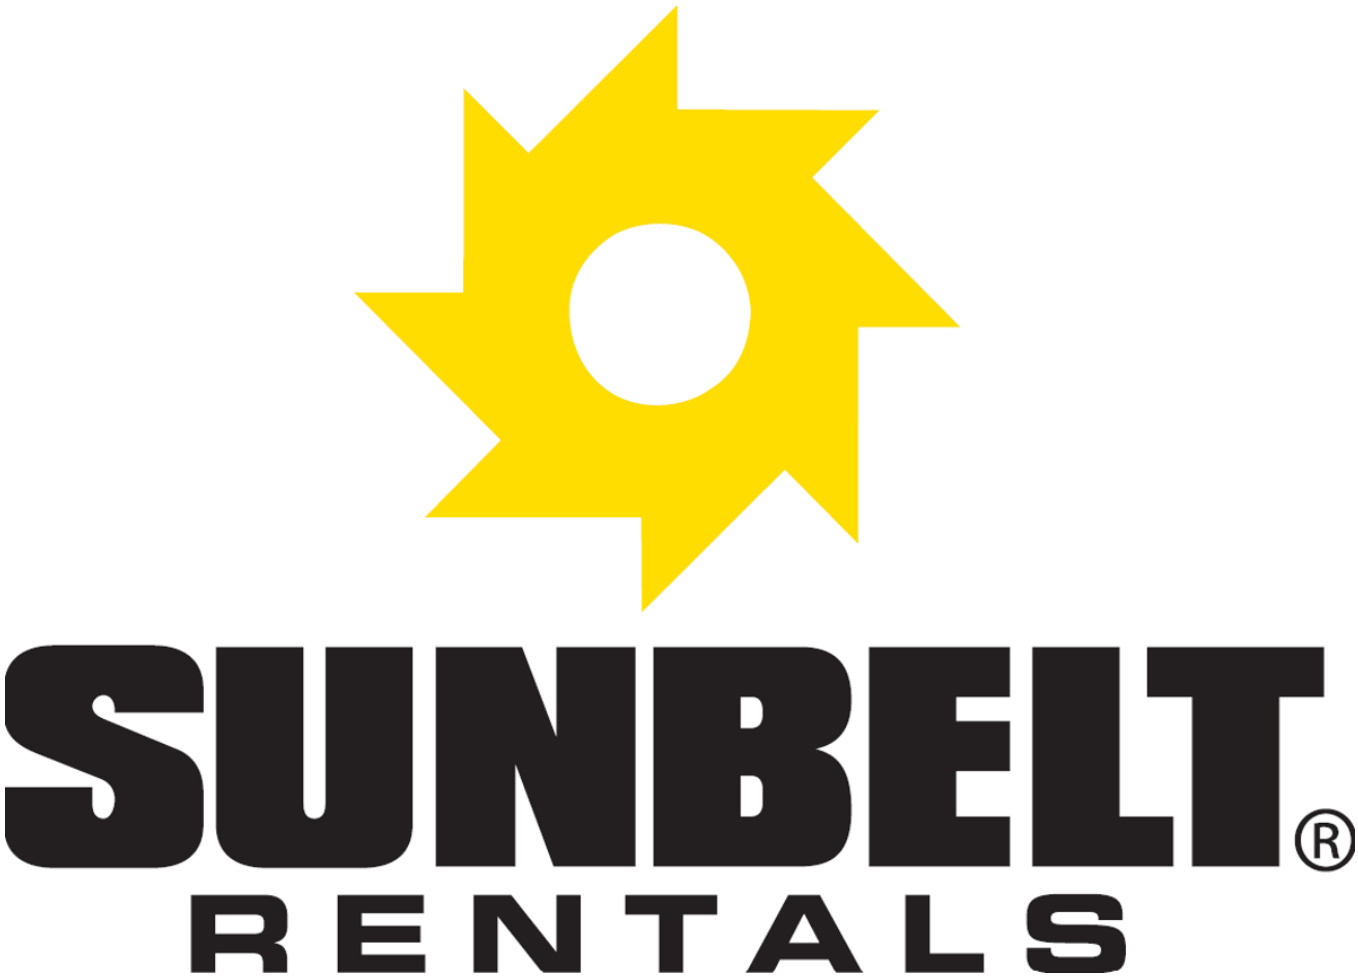

Timur Ibatullin – Director
IPE, Edmonton Branch

Les Anderson – Director
Building Operators Association – Canada - president@boacalgary.com

SUNBELT RENTALS EXPANDS CANADA FOOTPRINT

INTO STEAM HEATER SOLUTIONS

SUNBELT RENTALS ACQUIRES SILVERBACK STEAM & HEATING RENTALS

Sunbelt Rentals of Canada is constantly evolving our offering to meet customer demands.

With the addition of equipment and expertise from Silverback Steam & Heating Rentals, we are now able to meet your steam boiler needs across Canada. With years of industry experience and skilled technicians, let us help you eliminate unnecessary downtime, minimize disruption, and maximize performance no matter your industry, timeline or location.

RENTAL SOLUTIONS

- Trailer & Skid-Mounted Steam Boilers
- FRAC / Fluid Heaters
- Portable Heat Exchangers
- Hot Water Boilers & Glycol Boilers
- Thermal Fluid Heaters
- Trailer-Mounted Saturated Boilers
- Trailer-Mounted Superheated Boilers
- Packaged Water Tube Boilers

SOLVING PROBLEMS WITH INNOVATION

HEALTH & SAFETY
At all levels of our company, Safety is our top priority.

RELIABILITY
With a diverse portfolio of services, our clients can rest assured that we will find a solution.

SUSTAINABILITY
Committed to leveraging our assets to develop innovative, sustainable solutions.

OUR APPROACH
People and technology. Creating a safer, cleaner environment.

ASSETS
Our fleet is ever expanding, ensuring that we will have the right equipment for your project.

PROJECT EXECUTION
Our experienced team will ensure your project is delivered safely, on time.

WHY CHOOSE US?

With a service area of over 8000 kilometers and three branches in the Peace Region alone, our team is in the heart of industry.

CLEAN HARBORS LEADS IN SAFETY

ELIMINATE
Mitigate high-risk scopes with one of our automated solutions, our technology can eliminate the need for confined space entry and working at heights.

INCREASE EFFICIENCY
Our chemical processes sequester hydrocarbons, filter systems and remove unwanted debris, optimizing your systems.

REDUCE WASTE
Whether it's water, sludge or contaminated soil we can provide all inclusive decrease disposal costs and increase remediation.

MAKE IT SAFER
We hold ourselves to a higher standard and have developed our procedures with safety at the forefront. Our safety record speaks for itself.

DRIVE PRODUCTION, SAFELY
Our tested cleaning processes do it better, safer. Automated solutions custom tailored to your needs.

CUSTOM ENERGIZED AIR

COMPRESSED AIR STARTS HERE.

CEA is your 'one-stop shop' for air compression, distribution, and usage. We also service what we sell, in-house and on-site.

- Air Compressor Skid Packages
- Valve Automation
- Nitrogen Generation Systems
- PEAK Hydraulic Power Units
- Regenerative Dryer Assemblies
- Instrument Purge Gas Systems
- Troubleshooting & Support
- Rebuild & Repair

Providing Delivery Solutions for Bulk Purolite™ Resins

As a Chief Power Engineer, you take safety seriously. You also know that proper operation and maintenance of your plant depends on timely product delivery.

Ecolab's dedicated truck fleet holds up to 800 ft³ of ion exchange resin for efficient, clean loading.

Our highly skilled customer service team and technical operators coordinate every detail of your shipment, making materials management easy, efficient, and safe. Plus, we deliver across Canada.

Benefits Include:

- Fast loading
- Reduced downtime
- Clean, direct transfer
- No packaging disposal / costs
- No space or storage issues
- Reduced labor costs

Available for demineralization resin, produced water softening resin, standard water softening resin, condensate polishing resin, organic trap resin and high-efficiency Shallow Shell™ Technology resin.

"Hundreds of jobs depend on those boilers going at full capacity. With Prime Boiler, the whole site is ready for anything, anytime."

Jake H.
Site Superintendent (3 Years)

Be the hero your company needs.

Every moment of a boiler's downtime cuts into your productivity, reputation, and bottom line. If you need a replacement or additional boiler and don't already have one available, the clock is ticking. **The best solution is being ready before it happens.**

We call this being primed with Prime – and it's how you can be the hero of your work site.

PRIME BOILER SERVICES

The Prime Boiler Advantage

Since 1991, Prime Boiler Services Ltd. (Prime Boiler) has provided industry-leading steam and heating solutions for companies across western Canada and select U.S. states. From deep knowledge about the construction and operation of boilers to constant education for new technology and materials, we set the benchmarks that other companies strive to meet.

Trusted by Canada's Biggest Industries
