Any additional information that could effect the collection or delivery?

The vehicle cannot be driven as the brakes are seized. It does not move under its own power and will require recovery or transport on a trailer or flatbed. The car is complete and suitable for collection by professional recovery or transport drivers with the appropriate equipment.

The vehicle is available for collection by recovery or transport drivers, with reasonable access for loading depending on the method used. The use of a winch or suitable loading equipment is recommended due to the condition of the brakes. Further details, including location and collection times, can be provided on request.
