

PLEASE ENSURE THIS  
DOCUMENT IS FILED INTO  
THE COUNTY RECORDS WITH  
PAYMENT

To:  
WHITE PINE COUNTY TREASURER  
801 Clark St. | Ste 2  
Ely, Nevada 89301

**DECLARATION OF NON-CONSENT**  
**I do not consent to the assessment of my property**

Date \_\_\_\_\_

This installment payment is being paid so as to avoid any potential problems or penalties. However consider this an official declaration that I DO NOT CONSENT with or agree with the property tax assessment of my property. Please understand that by my submitting this payment, it DOES NOT imply that I accept to the terms of this inaccurate property assessment. An Oversight Outreach Plan of Action by *We The People of White Pine County* has been put into motion, to investigate into the innumerable errors, inaccuracies, discrepancies, poor equalization practices, and possible discrimination demonstrated by this White Pine County Assessors Office. This outreach initiative is on behalf of and for ALL White Pine County Property Owners so as to insure accuracy, equality, and fair assessment practices. I expect any over-payment to be correctly appropriated as either a credit to said property and/or refund.

**Parcel Number**

\_\_\_\_\_  
**Private Property Account Number**

*A Private Property Account Number would only apply if private property levies are being charged and attached to the above-listed parcel. Note that several cases have been identified in White Pine County Nevada where private property account numbers are completely missing (listed as a series of zeros but link to items listed as being levied). This has been identified on both commercial and residential properties and is happening to many AirBnB-ers and the like, many without their knowledge. If you believe you might fall in this category [without a private property account number to reference], detail as best as you can about what is being challenged. Including supporting screenshot images directly from the White Pine County Assessors web page is **HIGHLY RECOMMENDED**.*

Respectfully,
