

Peace of Mind

Coronavirus has changed the world as we know it with no business being more affected than the travel industry. Therefore, at Cross Travel Solutions our client's safety, our duty of care and ability to communicate the very latest health and safety information is of paramount importance.

ATOL, ABTA and IATA – Through our partnership with Colletts/Pro Travel we hold ABTA membership and ATOL and IATA licences. So, you can book in confidence, knowing that all the protection, guarantees and rulings required by these organisations, are fully adhered to and stringently followed.

Travel Insurance – We can introduce you to insurance companies that will provide full travel insurance including protection for Coronavirus related cancellations for both leisure and business travel.

Travel Safety Desk – We have access to the Global Travel Collection, Travel Safety Desk. This team is made up of Health and Safety and Risk Assessment experts, they are able to give us the latest Coronavirus information for the destination you're travelling to and any quarantine restrictions you'll be subject to, for your destination and when you return home.

Enforce – Is the very latest 'duty of care' software aimed at our corporate travellers. The system allows us to run traveller tracking reports telling an employer exactly where in the world their staff travelling on company business are. The system generates messages alerting us, the traveller and travel booker to any disruption, which may impact on travel plans, so we can immediately start working on alternative arrangements.

Company Liability and Indemnity Insurance – Cross Travel Solutions has full indemnity and liability insurance in place, to give our clients yet further confidence when booking with us.
