

DuraMed

DuraMed has partnered with Mailbox Diagnostics to offer its' Healthcare Providers both **POC Rapid Test Kits** and **PCR Advanced Molecular Test Kits** with **CLIA Lab diagnostic service** for 24-48-hour processing after specimen is received.

Public Company Symbol: CANB

COVID019 POC Rapid Test Kits

- FDA EUA Registered for Use by Healthcare Professionals
- Fast detection of COVID-19 Antibodies
- Fast results in 10-15 minutes
- 25 Test Kits/Box
- Kits Include: Test Cassette, Lancet, Buffer Agent, Alcohol Wipe, and IFU
- Facilitates patient treatment decisions quickly
- Requires only 10µL of Blood, Plasma, or Serum
- IgM/IgG Clinical Study Results:
Diagnostic Sensitivity: $\geq 89.2\%$
Accuracy: $\geq 96\%$
Diagnostic Specificity: 100%

IgG POSITIVE:*

The colored line in the control line region (C) appears, and a colored line appears in test line region 1 (IgG). The result is positive for 2019-nCoV virus specific-IgG.

IgM POSITIVE:*

The colored line in the control line region (C) appears, and a colored line appears in test line region 2 (IgM). The result is positive for 2019-nCoV virus specific-IgM antibodies.

IgG AND IgM POSITIVE:*

The colored line in the control line region (C) appears, and two colored lines should appear in test line regions 1 and 2 (IgG and IgM). The color intensities of the lines do not have to match.

PCR Test Kits/CLIA Lab Service

- PCR Advanced Molecular Upper Respiratory Testing with COVID-19 Testing
- Detects over 30 Viral, Bacterial, and Fungal Targets including the COVID-19 Virus
- Detects co-infection that may require different treatment option
- Identifies difficult to culture pathogens
- Test Kit includes CLIA Lab Service with 24-48-hour diagnostic report after receipt of Specimen; up to 400 processed per day.
- CLIA Lab License #: 18D110071
- Test Kit Includes: Nasal Swab, Viral with Transport Solutions, Biohazard Bag and one (1) Pre-paid FedEx Overnight Label for every five (5) Kits to ship the Specimens to the CLIA Lab for 24-48-hour processing
