

I had the opportunity to work with Kari during her time as President of NOMLA and saw firsthand her leadership, professionalism, and ability to bring people together. Combined with her business acumen and experience as a City Councillor, she has the skills to make informed decisions, build consensus, and keep Vernon moving forward. Kari is thoughtful, practical, and always focused on what's best for the community. I have no doubt she has the experience and leadership to be an outstanding Mayor for Vernon.
