

## Jared Boyle

Project Lead/Environmental  
Inspector  
Partner – Flycatcher LLC

### PROFILE

- Over 11 years of experience in environmental compliance inspection, natural resource assessments, wetland delineation, wetland functional assessments, wetland mitigation sequencing and design, and environmental restoration.
- Professional Wetland Scientist with project experience throughout New England and New York, including wind and solar, linear construction (roads/pipelines/powerlines), municipal, and commercial/residential/industrial projects.
- Project management expertise for environmental inspection projects, natural resource surveys, mitigation work, and natural resource assessments.
- Experienced in large field staff coordination, including planning, scheduling, and completing environmental field efforts, consultation with local, state, and federal regulators, and coordination with landowners and client managers. This expertise ensures projects are completed efficiently and in accordance with regulations while ensuring the highest quality project standards.
- Jared is an experienced lead environmental compliance inspector and can provide on-site environmental training, sediment and erosion control inspections, and environmental permit compliance monitoring for developers or contractors, and as a third party inspector for local/state/federal regulators.
