Things to Remember When Decorating Your Tree or Wreath

- Use NEW artificial trees and wreaths only. Pre-Lit trees are best, otherwise, lights must be wired onto the tree or wreath.
- Christmas themed trees sell best.
- Attach Replacement Bulbs and Fuses to the Tree Skirt.
- If your tree is in sections, they must be attached with rebar down the middle to hold them together.
- All Decorations must be nonflammable.
- To avoid an electrical overload (fire) be careful of the amount of items displayed around your tree requiring electricity.
- Furnish a Tree Skirt. Attractive tree skirts and a few accessories help the tree to sell. If you use batting as a tree skirt, fire-retardant batting must be used.
- When Festival of Trees is over, your tree or wreath will be delivered to its new home. Great care is taken in delivering your tree. Decorations must be wired onto the tree and the metal ornament cap must be glued onto every ornament for successful delivery. . Because Christmas trees aren't designed to be transported, these requirements will ensure that your tree does not bend, break or fall apart.

- All Items Under and Around the Tree will be Sold with the Tree. All trees and accessories become the property of Festival of Trees upon completion and will be priced and sold as such.
- Trees and Wreaths Dedicated to an Individual. If your tree or wreath is dedicated to an individual, you may bring a photo of one 8"x10" photo to be placed with the tree. When choosing a photo display, be mindful of those who will be viewing it. Please include the dedication name on the registration form. No other personal photos will be allowed on or around the tree. (Only one picture per tree space is allowed.)
- No Advertising or Inappropriate Material. Festival of Trees is a benefit for Adventist Health Simi Valley. Do not use your tree to advertise a business or product.
- Be mindful that the display will be visible from all angles, including the back. Be considerate of neighboring tree displays. Festival of Trees reserves the right to remove objects that are causing obstruction.
- You may want to include a story about your tree or wreath. This will be attached to the back of the tree or wreath sign.
