

## Museum in the Classroom

# Dinosaur Ambassadors Program

The Dinosaur George Company is proud to announce our **Dinosaur Ambassadors+** program for Museum in the Classroom. Any school that has scheduled our traveling museum can now have students become active members of the event. These select students will be stationed within the exhibit and will allow the visiting students to touch select items as they walk by. There can be up to 5 Ambassadors in the exhibit for each grade level.

- Ambassadors must be from the highest grade level within the school, usually 5<sup>th</sup> or 6<sup>th</sup> grade.
- School leaders will select the Ambassadors, using any criteria you choose (e.g. behavior, attendance, grades, etc.)
- No more than 5 (five) Ambassadors may be present in the exhibit at one time. You may choose to replace the 5 as each grade level comes through, or you can keep the same group throughout the entire day.
- School leaders are responsible for scheduling all Ambassadors. They should be directed to introduce themselves as Ambassadors when they arrive in the exhibit, and then the Dinosaur George team will station them in their appropriate areas and give them their instructions. Our company will supply **Ambassador Badges+** for each student.
- The students chosen for the position of Ambassador should be courteous, friendly and responsible. They must remain at their posts and be interactive with the other students as they walk by.
