

Asbestos-Related Cases

Protect Your Clients' Settlement with AFG Settlement Planning

At AFG Settlement Planning, we understand the importance of protecting your clients' settlement funds in asbestos-related cases. Traditional options like lump sum settlements or structured settlements do not adequately address the long-term financial security and well-being of your clients.

Our comprehensive settlement planning services aim to provide customized solutions that safeguard your clients' settlement funds.

Due to the nature of the diseases associated with asbestos, your clients are often in a position where they may need long-term care or are only worried about taking care of those they leave behind. These clients who have received a devastating diagnosis are at risk of losing the settlement you worked very hard to obtain to a nursing home, medical care, or a tax obligation for the family.

We believe that all settlements should be handled with the same care as a wealthy family or a business owner selling a multi-million dollar business. Our comprehensive settlement planning services aim to provide customized solutions that safeguard your clients' settlement funds. By engaging in specialized financial planning, tax planning, and estate planning, we help ensure that your clients and their families are well taken care of.

Our team of experienced professionals work closely with you and your clients to develop a tailored plan that addresses their unique needs and concerns. We consider factors such as potential threats to their settlement funds, including nursing home care, creditors, and tax obligations. Through careful planning, we strive to minimize these risks and protect your clients' financial interests.

Contact us today to learn more about our comprehensive settlement planning services and how we can help protect your clients' financial interests.

When you introduce your clients to AFG Settlement Planning, you can entrust the task of safeguarding your clients' settlement funds to our dedicated team. We handle your clients with the same level of sensitivity and care that your firm provides, understanding the emotional toll that mesothelioma and related legal processes can have on patients and their families.

With our expertise in settlement planning, you can have peace of mind knowing that your clients' financial futures are being protected. Together, while you ensure that your clients receive the financial compensation they deserve, we ensure that they maximize those funds to take care of their families.
