

Sunscreen and Insect Spray Permission Slip

Sunscreen and Insect Spray Policy: NAEYC 5.A.07

Please apply sunscreen to your child each morning before bringing them to school. The ECDC provides sunscreen for ECDC and LLP children. We purchase Rocky Mountain Sunscreen for face & skin, fragrance free, oil free, paba free, peanut & coconut oil free, hypoallergenic and apply to children who have a signed permission slip on file. The SPF of the sunscreen provided is 50 SPF. We will apply sunscreen ONCE a day before outside time in the afternoon. Parents need to apply sunscreen BEFORE arriving at school for the morning.

When the health department recommends use of insect repellents due to a high risk of insect-borne disease, we may apply insect spray on children. Repellents containing DEET are recommended, and these are applied only on children older than two months. We can only apply insect repellent ONCE a day before afternoon outside time. Parents need to apply insect spray BEFORE arriving at school for the morning. The ECDC does not provide insect spray. Please send labeled insect spray for your child if needed and sign and return this form. NAEYC 5.A.07.c

I have read and understand the Sunscreen and Insect Spray Policy

My child/children have permission to use

- Sunscreen The ECDC will provide
- Due to allergies I will supply my child's sunscreen
- I do not want sunscreen used on my child.
- Insect spray may be used once a day, which I will provide for my child
- I do not want insect spray used on my child.

Please Print Child's name

Parent or Person Legally Responsible Signature
