

UNALOME

PROJECT PORTFOLIO

# THE STORY OF UNALOME

At UNALOME, our mission is help you create your environment. It is not just about single pieces of furniture, but a real way of life. The goal is to offer furnishings and fittings that echoes your thinking and being. It must reflect an easier, more natural and unconstrained way of life. So it is no coincidence that we are named after the Unalome symbol, which represents transcendence and enlightenment.

#### OUR CODE:

In 1970, Milton Friedman famously wrote that "the social responsibility of business is to increase its profits". We resolutely refute that. Instead, our business is built upon respect.

We pay painstaking attention to every minutiae of our production, sourcing materials responsibly and respecting the local flora and fauna. We take great pride in our people, respecting the minimum wage along with their overall growth and well-being. We are a living testament that respect is transformative.

#### OUR SPACE:

Set within a lush paddy field, our groundbreaking space is a creative rhapsody of artists and artisans. Full of verve and life, it is lined with florists and anchored by a world-class cafe serving up the freshest and healthiest, from farm to table.

All of which is furnished with our sustainably-crafted furniture that pays homage to the local community and Mother Nature.

#### OUR WARES:

Not all products are created equal. We meld old world artistry with modern ingenuity by working with some of most talented designers from radically different creative fields. Every item and collection has a story about the craftsmanship it incarnates.
