O U R P R O F I L E

*WHERE TIMELESS DANISH AESTHETIC AND GENERATIONS OF HANDCRAFTED ,
BESPOKE DESIGN ARE CELEBRATED*

“Integrity is the key to making a masterpiece”

In a changing world, where so much of what we buy and use is disposable. Where how something looks on the exterior does not reflect its substance. At MUEBLES ASIA our mission is to create furniture that retains its integrity by using traditional and timeless techniques and materials to create furniture that will last a lifetime.

OUR STORY

*A MARRIAGE OF DAINISH SENSIBILITY, GREEK HOSPITALITY, AND
INDONESIAN AUTHENTICITY*

Born into a family tradition of creating beautiful, high-quality furniture, Michel Schoppe Liokouras, the founder of MUBLES ASIA, soon discovered a passion that extended beyond design and into the world of hospitality. Have you ever thought about the furniture that graces the lobbies and rooms of your favorite resorts? Michel did. He understood how the blend of luxury and durability was essential in furniture designed to withstand the dramatic weather conditions often seen in resort scenarios without sacrificing design..

Michel has made sure his designs were built on the principles of quality carpentry and longevity.

With Indonesia's abundance of natural resources and a culture rich with skilled artisans, he knew it was the perfect place to set up shop.

Today, MUBLES ASIA stands as one of Indonesia's most successful custom furniture manufacturers, still holding dear its commitment to excellent customer service, satisfaction, and above all, quality. Because isn't that what we all want? Furniture that's not just aesthetically pleasing, but built to last.

"Design is coming to grips with one's real lifestyle, one's real place in the world. Rooms should not be put together for show but to nourish one's well-being."

Albert Hadley

OUR NAME

The word "muebles" comes from the Latin word mobilia, which means "movable goods". In French, German, and other Romance languages, the word for furniture is a variant of muebles. The English word "furniture" comes from the French word fourniture, which means "supplies or provisions". This vocabulary reflects the original essence of furniture: they are easily movable items that adapt to different needs and environments.

AND LOGO

In the journey of life, we often find ourselves meandering through twists and turns, facing challenges, overcoming obstacles, and experiencing moments of profound growth. The Unalome symbol, with its simple yet profound depiction of a winding path leading to enlightenment, beautifully captures this essence of life's journey.

"Good furniture doesn't have to change with the seasons, leaping in and out of fashion like a woman's hat. It is timeless"
