

## **GB Aggregates (Holdings) Ltd – Environmental Commitment Policy**

At **GB Aggregates (Holdings) Ltd**, we recognise that our operations have an impact on the environment, and we are fully committed to minimising that impact through responsible management, sustainable practices, and continuous improvement.

### **Our Commitment**

GB Aggregates (**Holdings**) Ltd is dedicated to:

- **Complying with all applicable environmental legislation, regulations, and industry best practices** relevant to our operations.
- **Preventing pollution** and minimising waste through efficient use of resources, sustainable sourcing, and responsible waste management.
- **Promoting sustainable extraction and supply of aggregates**, ensuring that we protect and, where possible, enhance the natural environment in which we operate.
- **Reducing our carbon footprint** by optimising transportation, investing in fuel-efficient vehicles and machinery, and seeking renewable energy solutions where practical.
- **Restoring and rehabilitating sites responsibly**, working to return worked-out sites to beneficial after-uses that support biodiversity and community needs.
- **Raising awareness and training our employees**, contractors, and suppliers to uphold our environmental standards and encouraging them to identify opportunities for

improvement.

- **Engaging with local communities, stakeholders, and regulatory bodies** to ensure our activities are transparent and considerate of local environmental priorities.
- **Regularly reviewing and improving our environmental performance**, setting measurable objectives and targets to drive continual improvement.

## Implementation

This policy will be communicated to all employees and made available to stakeholders and the public via our website ([www.gbagggregates.com](http://www.gbagggregates.com)). Senior management will ensure its effective implementation through clear responsibilities, adequate resources, and regular monitoring.

We are committed to reviewing this policy annually to ensure it remains relevant and effective in line with our operational growth and advancements in environmental management.
