## SIDEWALK ADVOCATES FOR LIFE

Sidewalk Advocates for Life hosts a 6-hour training course facilitated by Paul Maple, Pro-Life Director for the Knights of Columbus and Program Director for Hawaii's Sidewalk Advocates for Life Organization. Paul recognized that participants/volunteers standing in front of Planned Parenthood praying and holding signs could be more effective if given the necessary advocate training; that is, how to peacefully and lovingly reach out to women and men in crisis and give them choices to save their unborn child.

This one-day program is comprehensive in providing updated information on the abortion industry, the different medical procedures used by the abortion doctors, understanding the RU-486 abortion pill and how to reverse its affects, and Teleabortion. (Teleabortion is a Planned Parenthood pilot-program that utilizes an internet consult with a doctor to prescribe the RU-486 abortion bill. The process was implemented in 2016 in four states – Hawaii is the first to endorse this procedure.)

Please contact Paul Maple: [prolifedirector@gmail.com](mailto:prolifedirector@gmail.com) or 808-726-5096. The Honolulu Diocese Respect Life Ministry encourages all Priests, Deacons, Parish Respect Life Coordinators, religious and parishioners to attend this valuable training. The cost is \$25 for a workbook, sidewalk brochures and lunch. Next training session is scheduled for May 22, 2021 at St. Elizabeth Parish from 10 AM to 4 PM. Paul can also set up a training session at your parish.
