statstore

Long-term Archival Made Easy

Statstore offers the simplest most cost effective solution for long term archival. Existing StatRad clients can add data backup and redundancy at a remote facility immediately upon request. Exams can be accessed for viewing any time using StatView.

stat3D

Remote Post-processing Services

Alleviate the need to purchase cost-prohibitive 3D software and hardware. Raw data is automatically routed to our central data center where Stat3D technologists follow your internal guidelines and protocols. Processed images can be sent back to your own PACS, viewed anywhere using StatView or reported using StatCentral.
