

PURE COMMOTION Video Script

In Store video monitor,:30

If you're looking for a cat or kitten toy—one that offers your pet hours of entertainment while you're away and great value—then Pure Commotion is the toy for you.

The stable, electronic base controls a highly flexible wand that flips and whips in all directions. Attached at the end is a fabulous feathered birdie--a prize that jiggles and bounces—guaranteed to become the object of your cat's desire. A simple knob allows you to control the speed and duration. And Pure Commotion can be programmed for up to two hours of actual play.

Now your cat can have hours of rollicking, active fun, enjoy safe exercise that can shed pounds and satisfy that kitty inner-urge to chase. Pure Commotion is great for older cats too, keeping them stimulated and young at heart.

Pure Commotion will have you laughing the minute you set it in motion. It's the perfect way to share wonderful moments with your feline friend. Even older cats adore Pure Commotion, they pounce, stalk and chase—keeping them totally stimulated and out of mischief. It's easy to change the birdie for other Petlink toys with just a snap, so your cat can have all the fun it wants.

Pick up Pure Commotion today and let the good times rock, rattle and roll throughout the house!
