VO: Does your cat Zig, Zag and Zoom?

Just like outdoor cats, indoor cats need plenty of exercise and stimulation to keep them healthy and happy. Here's a fun way to bond and play with your cat—or kitten—and keep them amused, focused and fit for hours. Our "CHEESE CHASER" remote controlled toy brings out your cat's natural "hunt and chase" instincts. It's easy to control this zany cheesy chunk as it whirls, spins and streaks across the floor. Here's a terrific new way to give your cat the exercise and excitement it craves, and you'll enjoy watching kitty pounce, chase and capture the cheese over and over again. The remote control puts you in control of your cat's Zig, Zag and Zoom. Use it when and where you want, on any floor. Works on carpets too!

Give your cat a great new toy and hours of indoor fun with Petsmart's CHEESE CHASER.
