

MTA-SN March Newsbrief 2018

We had an interesting roundtable in February and discussed various situations/problems facing the contemporary piano teacher. But we also got to know a little more about each other and our backgrounds through introductions made before the roundtable started, there were several visitors/prospective members present. We discovered that we have a very versatile group with life experiences in many areas including music!

Achievement Day took place at the Arvada United Methodist Church on March 3, it was a small but rewarding event for all. There was a record number of projects this year for the number of students entered (27).

Next month, on April 7, 3:00 pm there will be our final student recital of the year, an outreach one at Covenant Village retirement community in Westminster. The piano at this venue is excellent and a stage is provided for instrumentalists. Entry forms will be at the meeting.

Finally, a nominating committee will be formed and will be calling members to fill various offices for the coming year this month. Many of us have repeatedly filled various offices and chaired activities through the years. It would be wonderful to have some new people contribute their ideas and energy to our group. Hope you will consider it if called!
