Who We Are

A group of ordinary people with a common goal: to educate, equip and empower Lakeland residents to think regionally, and to engage our neighbours in creating a strong, secure future

Stay Connected!

After almost a year, we are once again coming together to discuss the issues directly affecting our community.

Let's work together to act locally on topics such as:

- The war on our children
- The UN in our municipalities
- 2025 school board elections
- Local political influence
- Food security & more
