Student testimonials

Although I always had a great motivation to learn English, I never had the results I could get with universal English classes.

Universal English is not an ordinary English course. It is a personal learning experience in which you receive high quality education and directed by excellent teachers, who always do educational and fun classes.

In addition, it is surprising how, after finishing all the levels that Universal English offers, English is actually spoken!

In my personal experience, I can say that I feel satisfied with what is taught by Universal English, I take the opportunity to say thank you very much to all of you for your dedication and passion in every situation that I needed

Alejandra Reyes

Universal English is a great place to learn English. Before I started studying here I was nervous about English but there are many great teachers that helped me.

They not only explain easily, but also prepare plenty of interesting games and activities, so we have fun and learn at the same time! When I study like this, I learn so quickly! I get to use English naturally because my classmates come from many countries from all over the world. It is certainly an important way to improve my English skills.

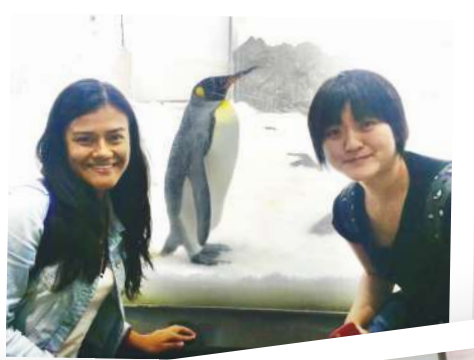

I am extremely satisfied with my choice. Thanks Universal English!
