# of Programs That Set a Goal	154		156		180	
# of Programs that met their goal, report at year end						
Barriers Encountered	<p>Technology can still be a barrier for some providers and they are at various levels of understanding. CCR&amp;R Consultants continue to spend time with providers to support technology needs. IQ4K app online and providers have to upload much of the documentation needed or upload info to their I-Pc account. These are processes that almost all providers do not do on a regular basis so ongoing support. Consultants have been helpful as HHS looks to encourage providers renew their Child Development online vs. mailing down paper copies. Understanding and learning to navigate I-Power-Training Registration need with both center and home providers. Consultants can help support provider with Staffing/turnover for child care centers teachers and directors still continues to be an ongoing barrier entire child care industry.</p>					
Success Stories	<p>BH Consultants provided consultation in this Q3 related to fire extinguisher safety and those that needed to be replaced. With CVP funding the CCR&amp;R Consultants were able to provide needed extinguishers for home providers.</p> <p>BH Consultants did over an average of <b>1,001 TA</b> consultation contacts with mail, phone, or in person. More "off site" consultation visits with providers has happened this quarter and additional <b>71</b> providers, this is where providers came to our office, or at a meeting, PW-PBIS coaching, and training with a consultant. We are continuing to be creative to support child care provider's wherever this is not always be onsite at the program.</p>
