# of Participants attending HCCI Trainings	10			
YEAR END ONLY: % of children with special healthy care needs with a plan in place				
YEAR END ONLY: % of participants that report increased knowledge as a result of HCCI trainings				
Barriers Encountered	Continuing participation after signing agreement to work with CCNC. Trying to increase participation by offering activities that can be lead by CCNC. Filling out surveys that enable CCNC to know what their needs are if they are working with any special needs children. Trying electronic surveys and sending them with a message that it helps me be able to help them. Attendance at in person trainings. Am trying to increase attendance by offering trainings that providers have stated they would like to have.			
Success Stories	Updated exposure notifications and emailed to providers. Emailed updated provider list for Title XIX. Provided information on anger management for 3rd grader. Provided suggestions for fall surfacing that won't get too hot in the summer. Became trained on how to complete oral health screenings and apply flouride. Completed screening at one center and scheduled for another. Reserached and provided information on Biral Exanthem, a rash usually caused by an infectious condition. Completed EPIpen refresher for a center. Provided 54 immunization certificates to providers.
