## **Latinos for America First: A Historic Push to Save America Culminates in Victory**

**Pasadena, Texas – November 12, 2024** – As the dust settles following the historic election of Donald J. Trump as the 47th President of the United States, **Latinos for America First** reflects on an extraordinary journey of commitment, resilience, and an unwavering dedication to conservative values. Under the leadership of President Bianca Gracia, this grassroots organization of passionate activists has mobilized Latino communities nationwide, fighting to protect American values and secure a brighter future.

For the last 90 days, Latinos for America First committed every resource to its **Get Out the Vote (GOTV)** mission, stepping up to counter the radical agenda of the undemocratically selected nominee, Kamala Harris. Through community engagement, door-to-door canvassing, and voter education, we have rallied Latinos across key swing states and beyond, creating one of the most impactful Latino-led campaigns in the nation.

### **Our Impact by the Numbers:**

- **20,000 doors knocked** across swing states and California, reaching voters face-to-face to energize and inform.
- **12 major events** hosted or attended, including rallies, conferences, and roundtables across the country.
- **15 community engagement events**, one Capitol Hill legislative appearance, two pastoral gatherings, and **14 media appearances** amplifying our message.
- **3.8 million social media impressions** and **13 impactful training sessions** to strengthen and expand our coalition.
- **800 new voters registered**, and **35,725 phone banking calls** made to support voter engagement.
- **25K Text Messages to GOTV**
- **450,000 coalition members recruited** to stand up for America First values.

### **Strategic Wins and Key Victories:**

In Nevada, our work helped elect Lydia Dominguez in District B and supported the campaigns of Sam Brown and Donald J. Trump. In Arizona, we were instrumental in securing victories for Julie Willoughby and Jeff Weninger in LD13, alongside other America First candidates like Lisa Fink, Tony Rivero, Steve Montenegro, and James Taylor.

Our reach extended across the nation, including Ohio, where our canvassing efforts contributed to Bernie Moreno's Senate victory, and widespread voter engagement in Pennsylvania, Michigan, North Carolina, Georgia, and beyond. **Our "Original Latinos for Trump" team in Miami-Dade flipped the county red** for Donald J. Trump, a monumental shift and testament to our influence.

In Texas's Rio Grande Valley, Latinos for America First has dedicated eight years to serving the community, supporting Border Patrol agents, and flipping counties like Hidalgo, Starr, Zapata, and Cameron for Trump. This election was the culmination of years of groundwork, community service, and an unshakeable commitment to conservative values.

### **A Message of Thanks and a Call to Action**

Bianca Gracia, President of Latinos for America First, expressed her gratitude, saying, "***We are incredibly grateful for the outpouring of support from our Latino brothers and sisters across the nation. Together, we have shown that the Latino community is a powerful force for good, committed to preserving American values. This victory marks only the beginning of our continued fight for America First principles.***"

Latinos for America First stands firm in its mission to empower and uplift communities across America. The 2024 election wasn't just a win—it was a movement, and we're here to stay.

**Viva America, Viva Trump – Latinos for America First will continue the fight! Join Our Movement**
