RECREATION

Your home is beautiful. But is it **INNOVATIVE**? Your home is uncomplicated. Does it un-complicate your homelife? Does it **INSPIRE**? Does it **ILLUMINATE**? Does it fill each room with sound and color?

Let **FUSION DESIGN** be your guide toward making your home your **MASTERPIECE**.

Listen to reggae by the pool, jazz in the game room, and a podcast about cooking the perfect Thanksgiving turkey in the kitchen. Wake up to sounds of waves crashing against the beach from your last trip to Maui... or your next trip to Maui.

Your shades, your thermostat, your outdoor sprinklers... they will all adjust all by themselves because they know where the sun is, how humid it is outside, and if it's going to rain or not. Tell your home that... you're home, or that you're leaving, or that you're going to bed... and watch it listen.

Your **HOME** can be beautiful and uncomplicated or it can be a home where **MAGIC** happens.
