

Don't Shawshank Me

[Verse]

You rolled in like a Friday night. Boots on the dash, lookin' just right
Sayin' my name, like we're doin' just fine. Playin' my heart, like you're just doin' time.

[Verse]

You take a sip, then you take your leave. Like there ain't nothin' left in me
I let it slide, but I see it now. You don't love me, you just don't know how

[Pre-Chorus]

Every time you cross that line. You take a little more of mine

[Chorus]

Don't shawshank me, don't wear me thin
Don't keep takin' just to reel me back in
I ain't your habit, your halfway fix
Your one more drink, your midnight hit
If you want me, better take all of me
Don't shawshank me

[Verse]

I got fire you can't fake or tame. But you just play your little games
You like the chase, not the stay. Yeah, you love me just enough to walk away

[Pre-Chorus]

I'm done losin' piece by piece. To a man that don't love me

[Chorus]

Don't shawshank me, don't wear me thin
Don't keep takin' just to reel me back in
I ain't your habit, your halfway fix
Your one more drink, your midnight hit
If you want me, better take all of me
Don't shawshank me

[Bridge]

You don't get to keep what you won't hold. A heart like mine ain't yours to loan
So take your hands off what's left of me. I'm done bein' so naive

[Final Chorus]

Don't shawshank me, I'm done playin' nice
You had your shot, you rolled them dice
I ain't your maybe, your almost flame
Yeah, I'm the one that you couldn't claim
If you want me now, it's too late I'm free
Don't shawshank me

[Outro]

Nah, nobody shawshanks me
